VICTORIA, B.C., WEDNESDAY, MARCH 30, 1938—22 PAGES

PRICE FIVE CENTS

STORM STOPS ALL ALBERTA TRAFFIC BUT TRAINS

Six Women Given Cancer Treatment In Florida Succumb

At Kingston, Ont., Dr. H. C. Connell Says Ensol Contaminated

Five Persons Now Ill With Tetanus

ORLANDO, Fla. (CP)—Six women have died here and five other persons have been stricken with tetanus in the past 24 hours following injections of "ensol" in treatment for cancer, President H. A. Day of the Orange County Medical Association disclosed today.

Dr. Day said the six deaths had occurred in Orlando hospitals since midnight. They and the five in serious condition were stricken with tetanus (lockjaw) yesterday.

Dr. Day said in every case death came much sooner than usual in tetanus cases.

At the hospitals the dead were identified as Mrs. Jack Sweetman, Mrs. L. J. Jackson, Mrs. W. R. Thompson and Mrs. Elizabeth Sunderburke, all of Orlando, Mrs. W. C. Braswell of Holopaw, Fla., and Mrs. H. B. Hornace of Cocoa, Fla.

CASES TRACED

Dr. Day said every effort was being made to locate all persons who had received the injection treatment for cancer. He declared the serum used in the fatal cases had come from the office of a physician here. Most of the injections, he said, were administered last Saturday.

The county medical association president requested the state board of health to send representatives here to aid in the investigation. He also notified the American Medical Association of the deaths. Coroner Eugene Duckworth said he would name a jury "of leading citizens to make a thorough investigation." He had not set a time for the inquest.

Dr. Day explained the serum had been used here for some time with no ill effects reported.

STATEMENT BY FISHER

CHICAGO (AP)—Dr. Morris Fishbein, spokesman for the American Medical Association, announced today six persons had died in Orlando, Fla., in the last 24 hours from the effects of a drug offered as a Canadian-manufactured cancer "cure" and which (Turn to Page 2, Col. 3)

Five Missing In Plane Crash

One U.S. Naval Flier Swims to Oahu Island Shore; Another Washed Ashore

HONOLULU (AP)—Five U.S. Navy fliers were missing today and feared dead in the crash of a big patrol bombing plane off Waianae, on the northwestern part of the island of Oahu.

A sixth man was brought unconscious to a hospital and another reached shore safely.

Seeking to return to its Pearl Harbor base, near here, through a heavy rainstorm after participating in scouting manoeuvres, the twin-engine flying boat struck the sea and was partially submerged.

Seven men were aboard. One, G. J. Nilles, radioman, swam ashore and notified the commandant's office.

Later, H. F. Bartz, aviation machinist's mate, was washed ashore unconscious. He was removed to the Waianae hospital.

DRIFTED NEAR SHORE

The plane fell three miles offshore and drifted within 150 yards of the beach to which Nilles swam.

Those missing were: Lieut. L. O. Crane, 30, pilot; Aviation Cadet W. H. Lear, second pilot; Naval Aviation Pilot B. I. Windham, Radioman V. A. Luciani, and Aviation Chief Machinist's Mate G. H. O'Neill.

Naval officers said they believed the missing men were lost. Nilles, Bartz and O'Neill after the crash succeeded in climbing to a wing of the partially submerged plane.

Bartz apparently attempted to swim ashore with Nilles.

O'Neill and four other men were not seen after the plane fell and may have drowned.

The plane was a new type flown here in 1937.

T.V.A. PROBE VOTED

WASHINGTON (AP)—The United States House of Representatives voted overwhelmingly today for a congressional investigation of the Tennessee Valley Authority and private utility companies serving the T.V.A. region.

Britain Looks to Its Army

Join THE ARMY

APPLY FOR A COPY OF "THE ARMY OF TODAY" AT ANY POST OFFICE. TERRITORIAL ARMY DRILL HALL, OR ARMY RECRUITING OFFICE.

With bayonets bristling over the continent of Europe, Great Britain, in addition to its huge rearmament campaign, is spending \$8,040,000 to improve conditions and pay of the army. Such posters as these are appearing. This one presents the army as a haven for young sportsmen—a young football player with a khaki tunic thrown over his football kit.

Franco Troops Are Encircling City On Way to Barcelona

With Fall of Lerida Expected Spanish Loyalists at Coast Rush to Enlist

HENDAYE, French—Spanish Border (AP)—Insurgent officers announced tonight that General Juan Yague's Moroccan troops had arrived at the gates of Lerida, key to Barcelona, the government capital on the coast, 80 miles to the east.

Gen. Yague's command immediately began advancing around the ancient city, so as to encircle it completely. The Moors, insurgent dispatches said, reached the edges of Lerida after driving up from the southwest and south by the Praga highway and the Segre River valley.

Generalissimo Franco was in personal command of the forces closing in on Lerida, all but deserted by its civilian population.

The column on the right gained control of an important hydroelectric plant through occupation of the village of Aytona. The plant supplies current to more than 50 Catalan villages, including supplementary lines into Lerida.

The government was mobilizing hastily organized recruits and throwing them into the struggle. The International Brigade was sent to the front.

In Barcelona, Defence Minister Indalecio Prieto said 10,000 volunteers had enlisted in the last five days.

PORT BOMBED

A dispatch from Perpignan, France, said insurgent bombers, (Turn to Page 2, Col. 6)

Bomb Near U.S. Shanghai Troops

SHANGHAI (AP)—United States marines on patrol escaped injury today when a bomb exploded at a busy Shanghai intersection, wounding two Chinese.

The bomb, apparently thrown from the roof of a three-story building, spread panic at the junction of Nanking and Yuyao roads, bursting within 10 yards of the marines, patrolling a boundary of the American defence section.

Mussolini Says His Army Ready

Could Mobilize in Short Time, Duce Declares in Broadcast

ROME (AP)—Premier Mussolini today called on the Italian people to meet the menace of aerial warfare by moving from big cities into small towns, villages and the countryside.

Before a crowded, intent Senate, the Duce told of Italy's readiness for war in a speech broadcast to all Italy and many countries abroad.

He told his people they should quit the cities before it was too late to "escape the consequences of war in the air."

He lauded Italy's war-making power, asserting the nation could "completely mobilize in a short time a number of units greater than that engaged in the battle of Vittorio Veneto"—Italy's World War victory in which 57 divisions fought.

He warned his Fascist followers, however, this must not lull them to sleep.

"Precisely because much has been done, it is necessary to tell ourselves that still more remains to be done and that we shall do it, whatever the cost," he declared.

Beginning his speech, devoted to Italy's arms program, at 5 p.m. (8 a.m. P.S.T.), Mussolini finished 40 minutes later.

REORGANIZATION

Calling for emigration from the cities, the Duce said: "From this moment I say that all of those who can organize their existence in small towns, in villages and the countryside would do well not to wait until the 12th hour."

In case of war everything which prevents mobilization (such as civilian movements from the cities) might be prohibited. So much the worse, then, for those who have not foreseen this and are late.

"War from the sky is destined to assume an even greater importance in tomorrow's war."

By arming further, at whatever cost, Mussolini said, "we intend to assure general peace, but above all our peace." He continued:

"We reject illusions and utopias and for this reason we left the shop that sells them." In Geneva. (Turn to Page 2, Col. 4)

Czech Minority Clamor Grows

Nazi Leaders Promise Protection For Germans Outside Reich

BERLIN (AP)—The cry for autonomy from four minority groups echoed through Czechoslovakia with increasing vigor today and met continuing assurances of protection for Germans beyond the borders from Nazi bigwigs.

Germans, Slovaks, Hungarians and Poles put their cards plainly on the government table during yesterday's tumultuous parliamentary session.

At the same time greater Germany moved toward the April 10 plebiscite annexation of Czechoslovakia's former independent neighbor, Austria.

German newspapers, reporting extensively on the aggravating tension between the four minority groups on one side and the Czech state government on the other, made plain that only drastic reorganization could appease the various nationalities.

SENATORS WALK OUT

PRAHA (CP—Havas)—The Sudeten senators, followed by the Hungarians and Slovaks, marched demonstratively out of the Czechoslovak Senate today when a Communist senator rose to speak.

The departure of the Slovaks elicited jeers from the majority Czech senators: "You are following your Hungarian brothers!"

VOTED DOWN

OTTAWA (CP)—The imprisonment penalty for breaches of the Lord's Day Act, as placed in the House of Commons amending bill, was voted down by the Senate banking committee today.

Storm Damage

There have been numerous stories of freak tricks played by tornadoes in the middle and southern United States of late, and here is visual proof of one. A twister which hit Belleville, Ill., picked up this man's brick garage and moved it away, and in the next second or two drove an out-sized splinter through a tire of his car. Nine persons were killed and 27 injured in Belleville.

Dore Critically Ill In Los Angeles

LOS ANGELES (AP)—Seattle's veteran mayor, John F. Dore, was gravely ill with bronchial pneumonia today. The Queen of Angels Hospital, where he was removed from a Seattle-bound train Monday, reported his condition as critical.

Four In South U.S. Killed By Tornadoes

Fifty Injured at Columbus, Kansas; Over Thirty Buildings Damaged

COLUMBUS, Kas. (AP)—A tornado tore through this town of 3,500 about noon today, twisting apart a school and 30 other buildings and injuring an estimated 50 persons, many of them children.

The slashing storm was one of a series which dipped into Arkansas, Oklahoma, Missouri and Kansas.

Three were reported killed in Boone county, Missouri.

Thirty school pupils barely escaped injury near Chetopa, Kas.

Residences were damaged at Ramona, Okla.

But Columbus, nestling in extreme southeastern Kansas, fringed by Oklahoma and Missouri in the tri-state lead and coal mining area, was hardest hit.

HAUL WITH WIND

The storm lashed from eight to 10 city blocks in Columbus.

Swirling out of the southwest with rain and hail, the twister bore down on the west side Highland grade school, where several hundred pupils were housed.

Brick and mortar poured into the second floor of the Highland school as the roof collapsed, and some of the pupils occupying that floor already had been dismissed for lunch.

Injured Logger Dies Up-island

Injured during logging operations at the Bloedel, Stewart and Welch camp No. 7, near Port Alberni, on March 21, Thomas Kashmerly, 31, died in the west coast hospital at the upisland city yesterday, B.C. police headquarters here reported today.

The inquest was set for this afternoon.

Kashmerly came to Vancouver Island a short time ago from Hafford, Sask. His wife, who visited him at the hospital recently, is believed to be in Vancouver.

SCHOOLS ARE CLOSED BY BIG BLIZZARD

No Sessions for Pupils in Southern Alberta Until Roads Become Passable Again; Missing Woman School Bus Driver Found Safe at Ranch Family's Home; She Abandoned Vehicle in Deep Snowdrift

Extortionists' Car Is Found

Arrests of East Indians in Vancouver Expected Soon

VANCOUVER (CP)—City detectives today recovered the automobile used by a man who Monday afternoon handed Kapoor Singh, wealthy Sikh lumberman, an extortion note demanding \$10,000.

The automobile, Sergeant J. Parsons said, had been rented from a downtown automobile concern by a third East Indian who did not take part in the actual extortion attempt.

Meanwhile a John Doe warrant signed by Kapoor was in the hands of police, who said they expected one or more of the three East Indians involved in the case might be arrested at any time.

Earlier Detective John Berry had said a man—whose name was withheld—had "positively identified" the driver of the rented car used in the extortion attempt.

The note handed to Kapoor Monday afternoon, ordering him to "give me \$10,000," threatened the lives of himself and his family if the police were notified. A police guard has been kept on Kapoor's house here since then. Kapoor's timber holdings are located on Vancouver Island.

HUNT FOR BARRISTER

As word of the safety of the woman bus driver reached Calgary, a report came from Drumheller, 95 miles northeast, that A. H. Goodall, Calgary barrister, and his car were missing. He left Drumheller late Tuesday afternoon for Calgary in the face of the blizzard.

Mr. Goodall had not reached home at noon today and could not be located in any of the towns along the route to Calgary.

It was possible the car had stalled in the heavy drifts and that he had obtained refuge in a farm home.

Mother of four children, Mrs. Brown has been driving the school bus for two years, maintaining a daily schedule over her lonely Parkland route 75 miles south of Calgary.

WIND DIES DOWN

EDMONTON (CP)—A blizzard which lashed Alberta fiercely for 24 hours abated today, leaving in its wake mountainous snowdrifts, blocked roads and obstructed railway lines.

Throughout the province traffic on every country road and on most of the arterial highways was at a standstill. Railway extra crews worked so trains could (Turn to Page 2, Col. 2)

U.S. Asks Mexico Pay Fully For Oil

Adequate Remuneration For Companies Ousted From Field Is Requested

MEXICO CITY (AP)—President Cardenas, summoning an "urgent" session of Congress to help him, was confronted today with near-revolt by a segment of labor, and a vigorous United States protest growing out of the expropriation of the \$400,000,000 oil industry.

The American protest was presented to the foreign ministry Tuesday by Ambassador Joseph Daniels, and a high Mexican official indicated it was an energetic note demanding an explanation how Mexico intended to pay for the 17 United States and British oil properties.

The indications of labor dissatisfaction came from Carlos Flores, Labor department inspector in Tampico and a member of the powerful union there, which controls 6,000 ex-employees of the Aguila (Royal Dutch Shell) Company.

The government "took advantage of labor-capital conflict to

create international political conflict" by the expropriation, Flores charged.

"We are all discontented. We were far better off before," Flores said.

ALL TANKS FULL

Tampico reports said every storage tank there was filled with oil, and there was no place to put crude or refined oil since the lack of foreign markets created.

Block Burned In Alberta City

VERMILION, Alta. (CP)—A 40-mile-an-hour gale fanned flames through the Stephen Frynyk brick block here early today, causing a loss estimated at \$40,000 and for a time threatening the Elk's Hall and a small frame building used as a laundry. Housed in the block were the Vermilion mercantile store, billiard parlors and a barber shop, all of which lost their entire stock.

New Forces Rushed To Big China Battle

WOUND ON MAN'S WRIST

VANCOUVER (CP)—Lloyd G. Beatty was in hospital here today, suffering from a severe wrist wound he said was accidentally inflicted with a razor Tuesday morning. He told police he had stopped the flow of blood, then wandered about the city all day without seeking medical aid.

THE WEATHER

VICTORIA, 5 a.m. today—Pressure continues high over British Columbia and sub-zero temperatures have been general in all parts of this province with sharp frosts over the interior. Snow has been general in Alberta and Saskatchewan accompanied by high winds.

FIRST REPORT OF AIR LINE

Trans-Canada Has Made
Progress; Faces Future
With Confidence

MONTREAL—With the active development of the operating organization carried forward vigorously during past months, with the training of personnel well advanced, with difficulties inherent in the initial stages surmounted, the Trans-Canada Air Lines have attained momentum and are facing future development with confidence, according to the first annual report of the corporation, just presented by S. J. Hungerford, president of the board of directors.

"There is every reason to expect the objective of a first-class air transport service across Canada, forging another link between the Atlantic and the Pacific, will be achieved in the year, 1938," he said.

The report is for the period ended December 31, 1937.

Subject to the required approval of the governor-in-council, the route proposed for the initial stages is from Moncton to Vancouver, via Montreal, Ottawa, Toronto, North Bay, Kapuskasing, Wabamungo, Winnipeg, Regina and Lethbridge, with an extension from Lethbridge through Calgary to Edmonton and a branch from Vancouver to Seattle. The latter has been in operation since last September.

The first commercial operation of the Trans-Canada was the Vancouver-Seattle service, which was taken over from Canadian Airways Limited on September 1, 1937.

Passenger services will not be operated until all airport and airway facilities have been thoroughly tested and tried under actual operating conditions, the report goes on, after mentioning the scheduled training flights on which mails are carried between Winnipeg and Vancouver.

The report was tabled in the Commons by Hon. C. D. Howe,

STORM STOPS ALL ALBERTA TRAFFIC BUT TRAINS

(Continued from Page 1)

maintain operations, but even they were running hours behind schedule.

Many motorists, caught on rural roads while the winds with a velocity of 40 to 60 miles an hour whipped up the fine snow yesterday, were forced to abandon their cars and seek shelter in country homes. Numerous cars were buried beneath the drifts.

Ranchers bore the brunt of the loss suffered through the storm. During the two weeks which preceded the beginning of the storm Monday afternoon, many cattle and sheep had been put out to pasture in the spring-like weather.

When the storm came they were caught. Small ranchers in the southeastern part of the province were hardest hit. In the foothills country, southwest of Calgary, cattle had come through the mild winter in fine shape. But in the southeastern section feed had to be obtained from outside sources and there was little grazing territory available due to last summer's severe drought.

The blizzard reached its fiercest at Gleichen, 80 miles southeast of Calgary. The wind there rose to 60 miles an hour, tore the roofs off several buildings and was believed to have brought serious losses to herds on the nearby Blackfoot Indian Reservation.

TRAIN LATE

VANCOUVER (CP)—Canadian Pacific-Railway officials here said today a "terrific storm" between Calgary and Medicine Hat had delayed arrival of today's westbound transcontinental train three and a half hours.

PASSENGERS STRANDED

CALGARY (CP)—Bound for Calgary, 19 passengers were stranded today in a snowbound Canadian National train at Oyen, Alta., near the Alberta-Saskatchewan boundary.

The train, which left Winnipeg Monday night, was due in Calgary at 8:20 this morning.

Snowplough crews were battling along the line today working their way toward Oyen, which is northwest of Calgary.

VANCOUVER (CP)—Administration of a net estate of \$10,402 left by Mrs. Agnes J. Morton of Hillcrest, Vancouver Island, was sought in the B.C. Supreme Court here Tuesday. She died February 17. John F. Morton, her husband, was left \$4,546 and half the remainder. The other half goes to a son, William Arthur, in Scotland.

Bill Approved By House For Coming Year Is Increased By \$32,348

WASHINGTON (AP)—The United States Senate approved today a record peace-time naval appropriation of \$549,227,842 for the next fiscal year.

Rejecting amendments which would have taken from the secretary of the navy the authority to contract for private construction and repair of vessels, the Senate sent the bill back to the House for action on amendments.

The appropriations, increased a net of \$32,348 over the amount voted by the House, would provide \$140,000,000 for warship construction during the next fiscal year. Of that amount, \$19,641,050 would go into ships now being built and \$18,422,100 into new construction.

The new construction includes two battleships.

SIX WOMEN GIVEN CANCER TREATMENT IN FLORIDA SUCCUMB

(Continued from Page 1)

apparently had become "contaminated."

Other persons were critically ill, said Dr. Fishbein, editor of the association's journal.

Dr. Fishbein said the drug, known as ensol, was manufactured in Kingston, Ont.

Dr. Fishbein said the cases would be investigated by the United States Public Health Service.

Investigators had obtained samples of the drug used at Orlando, Dr. Fishbein said, for bacteriological examination.

He added he did not expect deaths would be widespread since the product, because of its manufacture outside the country, would have only limited distribution here.

It is administered only by a physician, is not sold to the public across the counter and its sponsors claimed no uses for it other than for cancer, Dr. Fishbein said.

INQUIRY STARTS

WASHINGTON (AP)—The federal food and drug administration ordered an investigation today in the deaths of six persons at Orlando, Fla., which officials said had been attributed to a cancer serum manufactured in Kingston, Ont. Doctors said the serum had become contaminated.

The Canadian legation here promised to co-operate in every way to obtain a list of sources to which the drug had been sent.

STATEMENT BY CONNELL

KINGSTON, Ont. (CP)—Dr. Hendry C. Connell, Kingston physician who discovered the ensol treatment for cancer, said today he was "ready and willing" to go to Orlando, Fla., if necessary, to assist in investigating the deaths of six persons who succumbed after taking the drug.

"I have been in touch with an Orlando doctor, and I am convinced one bottle of ensol became contaminated after it left Kingston," Dr. Connell said. "Other bottles in the same shipments have been used at Orlando without harmful results."

Dr. Connell said 125,000 bottles of ensol had been shipped to various parts of Canada and the United States since he announced discovery of the treatment about three years ago.

"We have never made a charge for ensol," he explained. "It is shipped free of charge to clinics interested in using it for treatment of cancer."

"There can be no question that only one bottle was involved in the Florida cases," he said. "I am sure the ensol contained in that bottle was not contaminated before it left here."

"Until I know how the drug was administered I am in the dark. Possibly the syringe used for the injection was infected."

Ensol was discovered in the Queen's University laboratories here by Dr. Connell.

NEW FORCES RUSHED TO BIG CHINA BATTLE

(Continued from Page 1)

A rapidly-executed pincer movement was threatening the complete encirclement of a Japanese force estimated at 5,000 at bay between Yihshien and Talerch-wang, according to a telephone report received at Generalissimo Chiang-Kai-shek's headquarters from Gen. Li Tsung-jen.

Gen. Li said the Japanese who attacked Lini had given up the assault and were fighting their way westward in an effort to break through the encircling forces and achieve a junction with the beleaguered forces.

A Japanese effort to smash through Tuesday night was repulsed, he added.

Japanese admitted severe fighting in the outskirts of Talerch-wang, but said the Chinese were falling back there.

Scott Inquest Is Set For Monday

GUELPH, Ont. (CP)—An inquest on death of Hon. Walter Scott, first Premier of Saskatchewan, will be held here next Monday. He died in the Homewood Sanatorium here last Wednesday.

The order for the inquest was received from the Attorney-General's department in Toronto. Dr. E. R. Frankish, provincial medical expert, examined the body before burial last week on order from the department. He reported he had found a fracture of one leg and extensive bruises on the body.

The funeral services for Mr. Scott will be held tomorrow afternoon here, proceeding from Hayward's B.C. Funeral Co. at 2 to First United Church, where Dr. W. G. Wilson will officiate at 2:30. Interment will be in the family plot in Royal Oak Burial Park.

MUSSOLINI SAYS HIS ARMY READY

(Continued from Page 1)

"That which has always counted and still counts among peoples is their war-making ability."

QUOTES NAPOLEON

He recalled that Napoleon once said the Italians would become one day the world's greatest soldiers.

"That's what we want," he declared. "We desire that Napoleon's prediction will become a fact and Roman reality of our time."

This brought the 400 black-shirted senators to their feet, cheering. They had greeted him with shouts of "Duce! Duce!" as he strode into the senate to speak.

Mussolini declared the largest naval building program in Italy's history would be completed "by 1940 or 1941, or perhaps earlier."

"Italian aviation," he asserted, "is among the world's best."

PLANES IN SPAIN

He went into the advantages of various types of airplanes: "Our CR-32 (pursuit planes) although less speedy, have brought down many Curtiss and Rata types in the Spanish skies."

After outlining the fleet, Italy soon would have afloat, the Duce asserted: "I confirm to the senate that Italy has the most powerful submarine fleet in the world. We have outdistanced all in such a manner that it will be difficult, if not impossible, to catch up with us and dislodge us from this position."

King Vittorio Emanuele and Mussolini were named Marshals of the Empire in a decree approved by the Chamber of Deputies after the Duce's speech. The decree created the title and named its first two holders.

U.S. ASKS MEXICO PAY FULLY FOR OIL

(Continued from Page 1)

ated by expropriation of the companies March 17.

From Poza Rica came reports that workers there had not been paid Saturday or Monday, although the oil labor syndicate asserted "payments were effected normally throughout the industry" last week-end.

A permanent commission of Congress was to meet late today to set date for the congressional session, probably for the second 10 days in April.

Among the proposals is a large internal loan to pay for oil properties.

PAYMENT DEMANDED

WASHINGTON (AP)—Secretary of State Cordell Hull formally acknowledged Mexico's right to expropriate American-owned oil properties today, but demanded adequate payment.

The Secretary issued a statement in which he said he hoped a "fair and equitable solution" would be reached by the Mexican government.

"This government has not undertaken," he said, "and does not undertake to question the right of the government of Mexico in the exercise of its sovereign powers to expropriate properties within its jurisdiction."

"This government has, however, on numerous occasions and in the most friendly manner pointed out to the government of Mexico that in accordance with every principle of international law, of equity between nations and of comity, the properties of its nationals so expropriated are required to be paid for by compensation representing fair, assured and effective value to the nationals from which these properties were taken."

RADIO FEES DEBATED

OTTAWA (CP)—The Senate banking committee failed today to reach a conclusion on the bill of W. K. Esling, Conservative, Kootenay West, which seeks to exempt small hotels, skating rinks and others from payment of license fees to the Canadian Performing Rights Society. It also would require the society to compile a list of the works the rights to which it claims.

ARCHBISHOP IN LORDS' DEBATE

Canterbury Believes Chamberlain's Foreign Policy
Best For Britain

LONDON (CP)—In a debate on foreign affairs in the House of Lords Tuesday Baron Snell, Labor, said Prime Minister Chamberlain's recent statement in the Commons on foreign affairs had given no lead, no concrete proposal for the pacification of Europe and appeasement of political, economic and territorial grievances. Arms and more arms would settle nothing, however necessary. The government appeared to live from day to day, without a long range policy, and was drifting into future dangers.

Lord Snell said Labor wanted to rebuild the League of Nations and obtain peace by planning, clear thinking, and establishing international authority capable of guaranteeing individual nations against attack.

ARCHBISHOP SPEAKS

The Archbishop of Canterbury said he had "most reluctantly come to the conclusion that collective security is impossible."

The Archbishop added his position prevented his belonging to any party, but he regarded "the policy of the government as declared by the Prime Minister to be the wisest course which the country may follow."

He stated the union of Austria and Germany was inevitable.

Baron Strabolgi objected to the Archbishop's statements, saying Labor was bitterly disappointed.

"I waited for some word of reproach for the terrible slaughter in Spain," Lord Strabolgi said.

The Archbishop interjected: "I already have protested publicly against that."

Griesbach Urges Army Training

OTTAWA (CP)—The Senate Tuesday night heard Major-General W. A. Griesbach, Conservative, Edmonton, appeal for a calm recognition of the portents within the present troubled world situation, and with the lessons of the Great War in mind, take such steps with regard to the conscription of man-power and the training of officers and men as would enable Canada to avoid the mistakes made between 1914 and 1918.

Talk at Ottawa On Padlock Law

OTTAWA (CP)—Rt. Hon. Ernest Lapointe, minister of justice, conferred privately today with legal representatives of the Civil Liberties League from Montreal in connection with Quebec's so-called "padlock law" aimed against the activities of Communists. It was indicated no details of the argument would be made public.

The Quebec government was given an opportunity of having legal representatives at today's meeting, but Premier Duplessis, in a letter made public a few days ago, declared his government would not send counsel.

Those who called on the Minister today were: Chalmagne Rodier, Warwick F. Chipman, F. R. Scott and J. K. Mergler.

FRANCO TROOPS ARE EN- CIRCLING CITY ON WAY TO BARCELONA

(Continued from Page 1)

striking three times Tuesday night, virtually "razed" Port Bou, railway station at the French border. Two were killed, 10 wounded.

One plane, whose identity was not confirmed, flew a slight distance over French territory and drew French anti-aircraft fire.

AID IS URGED

LONDON (CP-Havas)—A manifesto urging the British government to help government Spain to obtain arms abroad was issued today by a group of Liberal, Conservative and Labor members of parliament.

The document, signed by the Duchess of Atholl and J. H. Wills, Conservatives, Sir Archibald Sinclair, Liberal, and Major Clement Attlee, Labor leader, also recommended the dispatch of funds to the Spanish government and measures to check the bombing of open towns by the insurgents.

The Labor party, meanwhile, decided to launch a new attack on the government's policies of bargaining with Italy and non-intervention in Spain. It will take the form of a motion of censure and probably will be made early next week in the House of Commons.

LISTED AS DEAD

VANCOUVER (CP)—Chief Justice Aulay Morrison has issued a B.C. Supreme Court order presuming the death of Juno Miller, Vancouver piano-merchant who disappeared in the spring of 1930.

ROWELL BOARD HEARS MAYORS

Calgary Urges Dominion
Carry All Relief; Edmon-
ton Requests

EDMONTON (CP)—From coast to coast in Canada the relief question is in municipal politics, Mayor Andrew Davison of Calgary told the Rowell Commission here today.

"If the Dominion took over responsibility for relief, he felt politics would enter less into its administration, as the authority would be farther removed."

From his own experience as mayor of Calgary for the past nine years, he said members of the city council and the mayor were under almost constant pressure from the unemployed and as a result they occasionally granted more than they should.

CONTRAST SEEN

He complained against the small proportion of the burden being given the cities by the province. Alberta cities received much less aid than cities in Saskatchewan and British Columbia.

He said Calgary had paid most of its relief costs, high as they were, by "soaking" the taxpayers. However, he contended, the problem should be lifted entirely from the cities.

"We've got a wildcat by the tail, but we can't let go and nobody else wants it," Mayor Davison said.

Mayor John W. Fry of Edmonton said that city had been able to bear the relief load only because it had fortunately taken over its public utilities earlier.

Last year these city-owned utilities, power, street railway, telephone, airport and water, had produced a surplus of \$1,000,000, which had gone to help pay the relief.

Mayor Davison said Calgary had derived one-quarter of that amount from its fewer utilities.

RELIEF SETTLEMENT

A nation-wide relief settlement scheme for Canadian families

under a plan of supervision and subsidy similar to that proposed in the "Hornby Plan" of immigration, subsidized by the British Government, was advanced before the commission today in a brief from the towns and villages branch of the Union of Alberta Municipalities. Such a scheme of settlement for unemployed Canadians would have a dual purpose—removing the settlers themselves from relief rolls and increasing city employment by development of a market for manufactured goods, it was suggested.

Hearing Soon In Warehouse Case

VANCOUVER (CP)—The Victoria Cold Storage and Terminal Warehouse Company Ltd. and George T. Porter, bondholders' trustee, today were ordered by Mr. Justice A. I. Fisher to post security for the costs of the city of Victoria in their action for \$35,000.

The claim is for 1936 allegedly guaranteed earnings under a 1931 bylaw. It awaits outcome of an appeal from Mr. Justice D. A. McDonald's dismissal of a similar action for 1935 profits.

YAKIMA EDITOR DIES

YAKIMA, Wash. (AP)—Funeral arrangements were being made today for the late W. W. Robertson, publisher of the Yakima Morning Herald and one of the Pacific northwest's most widely quoted editors. Mr. Robertson died last night of bronchial pneumonia. He was 69.

AT WINTER'S END--
At this time of year, when body resistance is lowest and the weather is up-and-down, vitamins are needed to ward off colds and build up a run-down body. We suggest Halver Oil Capsules, A.B.D. Capsules or one of the Vitamin Malt Compounds.

Alberta House To Close Soon

Members Vote to Send Brief to Ottawa, Not to Rowell Board

EDMONTON (CP)—The Alberta Legislature is stepping along toward prorogation. While it is hardly likely the House will conclude this week, prorogation by Friday night is possible.

Yesterday the members voted 44-11 to submit a brief to the Dominion Government on Dominion—Provincial Relations, voted 45 to 9 to ask Prime Minister King for immediate release of G. H. Powell from jail, debated a 50 per cent reduction in private debts and dealt with other legislation.

Decision to submit a brief to the Dominion Government, with copies being sent to the other provincial administrations, was made on an amendment by Hon. Solon E. Low, Provincial Treasurer, to a motion by D. M. Duggan, Conservative leader, that a brief be submitted to the Rowell commission now sitting here.

The Legislature stayed by its stand of last October that no brief would be submitted to the commission.

Debate on the motion of J. H. Hartley, Social Credit, Macleod, to reduce the principal of private debts incurred prior to July 1, 1933, by 50 per cent was adjourned pending consideration of amendments to the Debt Adjustment Act. The motion was supported from the viewpoint that debts are unpayable under the present financial system, while a straight cut was criticized as unfair and inequitable.

Larger Rubber Quotas Planned

LONDON (AP)—Basic rubber export quotas in a proposed five-year continuation of a control program were revised upward in final recommendations made by the international rubber regulation committee here Tuesday.

The committee suggested yearly quotas rising from 1,519,000 tons in 1939 to 1,569,000 in 1943. The preliminary figures had called for annual amounts ranging from 1,335,250 in 1938 to 1,494,250 in 1943.

The governments of the United Kingdom, France, India, The Netherlands and Siam must decide before June 30 whether they will accept the recommendations to extend the control on expiration of the present agreement in December.

California's grape industry depends almost entirely on varieties introduced from the Old World.

SIDE GLANCES By George Clark

"Here's change to take care of your day's expenses, plus a nickel to call home in case you get into an accident—now, don't take any stenographers to lunch."

No Early Europe War, Says Hoover

Ex-President Returns to U.S. With That Opinion Despite Army

NEW YORK (AP)—Former President Herbert Hoover came home from Europe Tuesday with seven or eight new honorary degrees, 15 or 18 new medals and the conviction that a general war is not imminent in Europe.

Degrees, medals and the conviction—a conviction persisting in spite of the extensive military preparations he witnessed—were gathered in a two-months' tour of 14 countries. It was his first trip abroad in 19 years. He had found the continent "changed."

"The first and outstanding change I saw was the revolution from democracies into totalitarian or authoritarian governments, or to some degree of dictatorship," he said.

"The second outstanding fact is armament. Every government in Europe is engaged in extending its military forces, and in five years expenditures on armament and military forces have increased from four billion dollars a year to eight billions.

"The next factor is the fundamental degeneration in the economic situation in Europe, at least in government finances and barriers to trade. Outside of one or two Balkan states there is not a balanced budget in Europe."

NEW CABINET IN ROUMANIA

Patriarch Cristea Reorganizes Ministry on Invitation of King

BUCHAREST (AP)—The government headed by the Patriarch Miron Cristea resigned at noon today for reorganization. The Cristea cabinet was formed February 11 following dismissal of the ministry of Octavian Goga by King Carol.

Cristea, 68-year-old patriarch of the Roumanian Orthodox Church, was commissioned by King Carol to form a new government and it was expected the formalities would be completed before evening.

It was stated at the palace that Roumania's cabinet of "old men" had served its purpose and that, at the request of many members of the ministry, the king was gathering new leaders about him.

The king had members of the resigning cabinet to the palace for lunch, where he expressed thanks for its emergency service in bringing order to Roumanian affairs after the short-lived anti-semitic government of Goga.

Cristea's first government gave the country a new constitution centralizing authority in the crown, adopted a budget and enacted several pieces of emergency legislation.

C.N.R. REPORT

OTTAWA (CP)—The Canadian National (West-Indies) Steamships Limited had an operating profit of \$658,538 in 1937, according to the annual report of the company scheduled to be tabled in the House of Commons by Hon. C. D. Howe, Transport Minister. This was an increase of \$101,139 over 1936. Operating revenues were \$4,676,684, an increase of \$354,091. Operating expenses were \$4,018,146, an increase of \$252,952.

Belgium Admits Italian Empire

ROME (AP)—Belgium Tuesday became the ninth nation to accord a diplomatic representative to Italy's ruler, Vittorio Emanuel, as King and Emperor.

Italians interpreted this as recognition of the empire and the conquest of Ethiopia.

Count Andre de Kerchove de Denterghem presented to the King his credentials as ambassador, filling a post which has been vacant more than a year owing to Belgium's unwillingness to recognize the empire.

U.S. Bering Sea Control Urged

WASHINGTON (AP)—Senator R. S. Copeland, Democrat, New York, is proposing in a resolution that this government assert jurisdiction over portions of Bering Sea off Alaska.

Mr. Copeland said the shallow depths of Bering Sea must be regarded as a slightly submerged margin of Alaska and that preservation of mineral deposits and of salmon and other fisheries demanded the United States declare its jurisdiction.

The resolution, filed Tuesday, would bring under jurisdiction of the United States all waters and submerged lands adjacent to the Alaska coast lying east of the international boundary between the United States and Russia.

The waters include those used by Japanese fishing boats which Japan recently agreed to withdraw from the area. At present the United States claims jurisdiction for three miles offshore.

By-election Test For Chamberlain

LONDON (CP-Havas)—Prime Minister Chamberlain has acknowledged the Labor challenge to fight the West Fulham by-election on his foreign policy.

In a letter sent Tuesday to C. J. Busby, Conservative candidate, Mr. Chamberlain said he recognized the government's foreign policy would be the chief issue, with approval or condemnation at stake.

Date of the by-election has not been set. It is the result of the death of Sir Cyril Cobb, Conservative, who won a 3,500 majority over Labor in 1935.

Mr. Busby, a 29-year-old coal merchant, is opposed by a Labor candidate, Dr. Edith Summerskill, a physician.

BREAD IN STREET

CALGARY (CP)—Drivers of bread wagons here had a difficult time keeping their horses headed in the right direction during the blizzard Tuesday. A horse's habit of turning tail to the storm resulted in a wagon turning over in downtown Calgary and bread being scattered in all directions.

Pavilion Design Prizes Awarded

W. F. Williams, Nelson, Architect For Canada's New York Fair Building

OTTAWA (CP)—W. F. Williams of Nelson, B.C., has been awarded first place in the architectural contest for the Canadian government pavilion to be erected at the world's fair in New York next year.

Mr. Williams will be commissioned by the Department of Trade and Commerce to prepare working drawings, details and specifications for which he will be paid a sum calculated at 3 per cent of the cost of the building, \$75,000.

Hon. W. D. Euler, Minister of Trade and Commerce, who announced the first prize Tuesday night, also stated second prize of \$300 would go to Ernest Narott of Montreal, while the third award of \$200 was awarded to the firm of Ross and MacDonald, also of Montreal.

The contest was open to practically all architects in the Dominion. Every design was anonymous, the name of the architect being placed in a sealed envelope with a number. The decisions of the contest judges were unanimous.

The Canadian pavilion will be on modern lines to conform with the general scheme of other exhibition buildings at the fair. The framing will be of wood and the exterior of metal with stucco finish. The floor area for the exhibits will be 17,000 square feet.

The competition was conducted by the Royal Architectural Institute of Canada on behalf of the department.

Gandhi Suffers Health Breakdown

CALCUTTA (AP)—Doctors announced today that Mohandas K. Gandhi had suffered a "fairly bad" breakdown in health after he attended a conference on village education and rural uplift at Berhampur, Orissa.

Nevertheless the Mahatma was expected to resume discussions shortly with the Bengal government on release of political prisoners.

Nice Fellows!

VISCOUNT HALIFAX, BRITAIN'S Foreign Secretary, has told the House of Lords that a British agreement with Italy would "render a real service" for peace, but added that he refused to "accept as proved" a contention that Germany's intentions were "sinister."

Today in Rome: Premier Mussolini lauded Italy's war-making power, asserting the nation could "completely mobilize in a short time a number of units greater than that engaged in the battle of Vittorio Veneto." Before a crowded and intent Senate, Il Duce proclaimed Italy's readiness for war.

Recently in Berlin: Field Marshal Goering, speaking to the German Air Force, said: "Every man in the Air Force must realize, from the youngest to the man at the top, that in this new German Air Force no mere instrument for peaceful show is being made, but instead the sharpest instrument of war which we can possibly produce."

Pleasant and peaceful and anything but sinister are these spokesmen for Italy and Germany for whom Viscount Halifax seems to have the tenderest regard! We recall, however, that Mr. Eden was a bit suspicious of them.

Prison Reform

ON HIS TOUR OF THE PRISONS OF Great Britain, Sir Samuel Hoare, Home Secretary in the Chamberlain government, has accumulated a good deal of valuable information which no doubt will assist him in his penal reform plans. Speaking recently, he gave some impressions worth recording here, especially in view of British Columbia's trial of the Borstal plan and the general prison system of Canada.

Sir Samuel said his first impression was that there were a great many people in prison who ought not to be there. Bad luck, the breaking-up of family life, some little thing gone wrong, had led them into bad habits and to prison. With more care before that calamity arrives and better methods of dealing with young offenders, such as the attention of a probation officer, approved schools, and, in grave cases, Borstal treatment, a lot could be done to keep these people out of prison.

The Home Secretary's second impression was that some people became so hardened in criminal habits that the state, for its own protection, had got to keep these people in prison much longer than was done at present, "but once in prison efforts must be made to make them respectable citizens of the future." It was foolish to give them a constant series of short sentences. He had recently met one man who had served 106 short sentences. The duty of the penal reformer was to face this problem and apply better methods than at present.

The third impression Sir Samuel gathered was that with better organized effort and more funds it was possible to do more in re-establishing the prisoner in civil life than had been done so far. The efforts already made in this direction had brought good results, but prison life was bound to be an unnatural life from which a man could only be reclaimed by well-organized help.

What Does It Suggest?

WE CAN QUITE UNDERSTAND WHY the Vancouver Daily Province does not seem to know what to say about the brief which Mr. H. R. MacMillan presented to the Rowell Commission on behalf of the Vancouver Board of Trade and other similar institutions. It asked for practically everything that could be set down within reasonable limits, and most of the proposals were so fantastic as to warrant but scant consideration. Even chairman Chief Justice Rowell himself—always most mild in rebuke—thought some of them were "rather impractical." So the Vancouver newspaper takes refuge again in the Ottawa trade agreements and says:

Preservation of Empire markets is of much greater importance to us than any benefits obtainable in the claims we are making on the Ottawa government. Yet when these markets are known to be in jeopardy very little is being said or done about it. We have been trumpeting to the Rowell Commission claims for this and that while the Ottawa agreements are left to look after themselves. British Columbia's big, best business today is to guard the Ottawa agreements.

What is it our mainland contemporary wants done to "guard the Ottawa agreements"? At the last session of the Legislature Premier Pattullo got a resolution unanimously passed informing the Ottawa Parliament that "this House favors the principle of Empire Preferences and urges upon the Dominion Government the great importance to British Columbia of the maintenance of existing markets in Great Britain and other parts of the Empire." There is surely no suggestion that this resolution got lost in the mail between here and Ottawa.

Several weeks after the discussion in the local House, Rt. Hon. Malcolm MacDonald, Secretary of State for the Dominions in the Chamberlain government, allayed "fears

which have recently been expressed as to the abandonment of Imperial Preference" when he spoke at a banquet of the British Empire Club in London. He said on that occasion "there was no question of the abandonment of the principle or practice of Imperial Preference" and pointed to the then recent renewal for a further period of five years of the agreement between the United Kingdom and Canada. Moreover, alluding to the proposed Anglo-American trade agreement, he gave the assurance that, at every stage of the discussions, the London government would keep in close contact with the Dominions and other parts of the British Empire concerned.

Again—How would the Vancouver Province tell Great Britain that British Columbia will tolerate no "monkey work" when the Chamberlain government finds it desirable to examine the concessions which this province's apples and lumber enjoy in the British market? Britain knows how British Columbia feels about the matter. She no doubt remembers, too, that she gave the preferences, and that if she decides to modify them or, discontinue them altogether she, Britain, alone, has the power to do so—all our protests notwithstanding.

A Satirist Lets Fly

THERE SEEMS TO BE SOME DOUBT in the minds of many people in Great Britain over the precise meaning of the foreign policy which Prime Minister Chamberlain recently indicated his government proposed to follow—especially with regard to the Czechs. It has remained for the London News-Chronicle, however, to offer the following explanation:

Everybody is relieved that our position in regard to the Czechs has now been made crystal clear by the Premier. In a nutshell, should the government find itself in a position involving circumstances irrespective of conditions outside its apparent discretion, any suggested guarantees would operate relatively as to and including any set of putative circumstances which may or may not be prejudicial to the maintenance of contingent policy susceptible of interpretation by the government as a guarantee of conditions within its purview, were such conditions held to involve circumstances over which the government may, at some future date, exercise control, or otherwise.

It will be noted that in the foregoing the word "whereas" and the term "hereinafter-mentioned" do not get even honorable mention.

The Alaskan-Yukon Highway

PRIME MINISTER PATTULLO HOPES he will be able to make some definite and concrete progress in the matter of the Alaska-Yukon Highway during his trip to Ottawa and other eastern points.

Mr. Pattullo believes in this project because of the many direct benefits that would accrue to this province if the line of communication in question could be completed. Every thinking citizen of British Columbia ought to be solidly behind him in his efforts to get an early start on this undertaking.

This province's tourist industry alone—augmented considerably by the operation of the proposed highway—would pay for British Columbia's share within a comparatively short time.

Now would seem to be the opportune moment, moreover, for our neighbors on the south of us to give the matter earnest consideration.

Amnesia Axiensis

MUSSOLINI IN A TELEGRAM TO Vienna, official text as published July 26, 1934, in Ottobere, Rome:

"The independence of Austria for which Dollfuss has fallen is a principle that has been defended and will be defended by Italy still more strenuously."

Mussolini in his address before Chamber of Deputies, Rome, March 16, 1938:

"To the more or less official circles beyond the Alps that ask why we did not intervene to save Austria we reply that we never assumed any obligation of this sort, either direct or indirect, either written or oral."

Notes

Police horses in some cities in the east are to be wired for radio. Pegasus is not to go down in history as the only horse on the air waves.

British and American owners of Mexican oil wells are up in the air over attempts to squeeze them out. Apparently Mexican oil is not the kind that soothes troubled waters.

As the Spanish war approaches its end, the only thing puzzling observers is who will be left to be taxed to reconstruct the country if there is anything left worth reconstructing.

HEPBURN'S LATEST BUDGET

From Toronto Saturday Night
Premier Hepburn as provincial treasurer of Ontario is fully entitled to all the very moderate expressions of pride which he permitted himself in connection with his fourth budget. The highly satisfactory position in which the province finds itself is in the main due to the collection during the last three years of more than \$20,000,000 of inheritance taxes from estates which were closed during the term of the previous government "without the proper amount of duties having been collected" and Mr. Hepburn estimates that there are still a great many millions of dollars to be collected from other old estates which were similarly undercharged.

Mr. Hepburn describes these very serious shortages as constituting "an arraignment against former senior officials of the treasury department and reputedly reputable lawyers of this province, some of whom undoubtedly connived for the sole purpose of cheating and chiselling in the most flagrant and indefensible manner the treasury of this province."

Loose Ends

By BRUCE HUTCHISON

OLD IDEA

THE OTHER day the Vancouver Province published an anniversary number and reproduced, among other things, a cartoon of the late great Fitzmaurice. This cartoon showed a bewildered world looking at a newspaper which announced that civilization was about to fall, that the world faced chaos, that war and revolution were ahead and that all was lost; also it was going to rain in Vancouver. This was in 1908. Well, it rained in Vancouver, but the world is still getting along and civilization hasn't fallen yet, and not all is lost.

The show apparently has lasted 30 years since people first began to suspect that the curtain was coming down. I hadn't realized before that the idea was so prevalent as far back as 1908. I thought it was rather new, but evidently people have been expecting the end for some time. I dare say some of the later Romans suspected the same thing and, for their world, of course, they were right. But there were other worlds available. Even if our civilization can't stand the shocks ahead, and they will be pretty bad, there is always another one growing somewhere, somebody to take our place.

At least there always has been in the past. But Sir James Jeans, the great English astronomer and thinker, has lately pronounced the alarming notion that it may not be our particular civilization which is going under, but our whole race. Now there is something to think about.

Sir James points out that the human animal has only dominated the world for a very short time, that other species, with less brains, dominated it for millions of years before the first man occurred. Man has dominated on account of his superior brain, for, physically, he is much inferior to a horse or a dinosaur or many of the larger fish. But Sir James is not sure that man is clever enough to retain his position.

The way he is going about his business now, Sir James thinks, he may well destroy himself altogether, for it will take all his genius to survive at all, let alone maintain a civilization. For the other creatures of the earth are far from conquered. We have conquered the mammals but not the microbes, and it is on the cards that they may rise up some day and conquer us as surely as the Japanese are conquering the Chinese, but much more effectively.

It is only by good luck more than anything that we have kept alive so long against the menace of a sudden epidemic of some obscure germ which we don't know how to handle. And the only way we can be sure of maintaining ourselves, says Sir James, is to stop fighting within our own species and fight the species hostile to us. For if we keep on weakening ourselves with interminable wars among ourselves, probably some microscopic creature without any brain whatever, and less feelings than Herr Goering, will get us if we don't watch out. It is an appalling thought that some day there may be no men on earth at all, no creature intelligent enough to read our monuments, no race which will even excavate our great memorial on Pandora Avenue.

BANKING

THE CHARTERED banks of Canada, which are perhaps the soundest in the world, and where your money is safe, lately printed an interesting advertisement entitled "We Owe You Money, Payable in Cash, on Demand." And it went on to say that "it takes the equivalent of nearly three average savings accounts to make one loan of \$1,000—the bank must always keep itself in a position to pay you your deposit, in full, in cash, whenever you choose to call for it."

Fortunately only one man in 10 is likely to call for it at one time. For, according to the same advertisement, there is \$1,384,000,000 on deposit in the banks now, and yet the latest figures I saw showed the total money of Canada to be less than \$200,000,000. This is blown up by the magic of our money system to 10 times its original size inside the banks, and this purely imaginary money, created in ledgers, is the real medium of exchange in the country. We daily use and circulate 10 times as much money as there is in existence.

There is nothing wrong with this arrangement in itself. It is sound and safe. The only question is whether the banks or the government should possess and control this key mechanism to our financial system, the right to make and unmake money. Mr. King is on record as saying the government should do the job, but perhaps he is waiting to make the change until politicians generally and the public know what money is. So few people have any notion what it means. Even great experts like me sometimes get mixed up. And most bank managers haven't the foggiest notion. They just go along writing figures into ledgers and multiplying money with the ease of guinea pigs. It is all very confusing.

MATRIMONIAL NOTE

"I'VE BEEN thinking it over," said the little boy from next door, "and I think I'd better marry Patsy. At first I thought I'd marry Jean, but she's a bit slangy. You don't want to marry a slangy girl, do you? Then I thought I'd marry Dorothy, but she's not very bright. She doesn't even know her three times table yet. You don't want a wife that doesn't know her three times table, do you? Then I thought I'd marry Edith, but she's got red hair. And nobody wants to marry a girl with red hair, do they? So I think I'll marry Patsy, because she looks to me like a girl who could cook."

VANCOUVER AS MENICANT

From Omicene Herald
Mayor Miller of Vancouver has been over to see Premier Pattullo to get a few million dollars from the provincial treasury to tide the city over a short time. They find in Vancouver that the pickings are not so good as they were years ago, and yet the wolves are more numerous. Premier Pattullo has quite a lot of figuring to do himself to get the province going with spring work and new roads. He really cannot spend much time worrying about a city so boastful as is Vancouver, with all the millions, parks, millions of Dominion Government money, and what not.

JOSEPH ROSE

OPTOMETRIST

1015 GOVERNMENT STREET

Confederation Clinic

J.B.M.'s editorial comment in the Winnipeg Free Press on Rowell Commission sessions.

VICTORIA—More unofficial witnesses asked for a hearing here than in any other province. Politically this must be one of Canada's hot spots.

An uncertain and slightly bewildered citizen, speaking for the Young Liberals, disagreed with the province's Grit Government in saying that the Dominion alone should collect income tax. The local C.C.F. filed a brief agreeing largely with the federalist ideas of Winnipeg and Regina. Echoing the Catholic minority of Manitoba, the Catholic minority of this province—represented by a layman and an archbishop—submitted a complaint that Catholics here have to support their parish schools by voluntary donation while paying regular public school taxes. The case was presented more ably and amiably than at Winnipeg.

Dr. George Davidson, a smooth young man with a talent for exposition and argument, put in the views of the social service workers of the province. They think the federal government should run and finance relief, unemployment insurance, and employment agencies. They also have a scheme for a reciprocal arrangement between provinces to look after transients and think the Dominion should expand its efforts to provide low cost housing. British Columbia experience is that the present federal housing law doesn't work because financial concerns, required to participate, refuse to lend in precisely the districts where housing is most needed. Dr. Davidson was one of the star British Columbian witnesses.

Another vigorous and picturesque witness was Basil Gardom, publisher and potato grower, who appeared for a society with the remarkable name of the Primary Products Publishing Company Ltd. Mr. Gardom, a hard-bitten citizen, mainly wanted to denounce British Columbia's compulsory pool laws, defended the other day by the Chamber of Agriculture. Mr. Gardom testifies that these laws, creating monopolies in farm produce, have made life so tough that "in Okanagan a man dares not put his head above the shot brush for fear of being shot—figuratively speaking, that is." Champion of the rugged individualists, Mr. Gardom says compulsory pooling is a gamble in which the farmers always lose.

A new topic was introduced by Dr. John Ridington, Vancouver librarian and gentle propagandist for the book industry. Speaking for the British Columbia Library Association, the bearded doctor told the commission about the grievances of librarians—excise taxes and high postage rates on books, duties on binding cloth and like materials. Dr. Ridington thinks these imposts should be cut, if not eliminated.

He also cited Canada's lack of a national library as a sign that his country is a cultural desert. The Parliamentary Library, as he truly remarked, is only a collection of books members of Parliament are likely to ask for, principally detective stories and guide books for after-dinner oratory.

Dr. Ridington thinks there should be a national library of Canada, as well as a first-rate scientific library at the headquarters of the National Research Council. As no previous witness to date had suggested books as the panacea for Canadian troubles, Dr. Ridington was a refresher. Unfortunately, he was unable to tell Chief Justice Rowell how the library question could be squeezed into the commission's field of inquiry. But even if he was out of order, the doctor got in several good whacks for culture and the higher things of life all too rarely mentioned in the evidence.

The four government men all discussed whether there is really overlapping of Dominion and provincial services. Chief Justice Rowell and colleagues still diligently hunt evidence on this point, without resounding success. Deputy ministers everywhere shrink from admitting that they or their underlings ever waste time or the taxpayers' dollar. For instance, when Chief Justice Rowell suggested that the business of investigating tourists to Canada by advertising should be entrusted to Ottawa alone, the deputy Minister of Trade and Industry assured him that British Columbia simply had to supplement federal efforts with special invitations to the mountains.

J. B. Munro, Agriculture deputy and an impressive witness, did admit there might be duplication in his field and incidentally disclosed how fine the line is between co-operation and overlapping. Both Dominion and province take an interest in plant diseases. Which one is responsible depends on how ill the vegetable is. Mr. Munro mentioned a disease of cantaloupes. If a cantaloupe is sick right unto

CHILDREN LACK MILK

To the Editor:—Professor F. J. Browne, who is quoted by Dr. McCullough, sponsored by Dr. Felton, says that the vitamin C impaired in pasteurization can easily be replaced by an orange a day. Ye gods! Destroy the natural vitamin in milk and then substitute something else. Dr. Felton at least is aware that hundreds of children in Victoria don't get half the milk they need, without mentioning oranges.

History tells us that it was reported to a French Queen that the people were starving for bread, and her reply was "Let them eat cake." That cost the lady her head, and I make the assertion that if pasteurized milk is forced on the people of Victoria without a plebiscite, a good many heads will be lost when seeking reelection. This is a local matter and I have attempted to deal with it in straightforward simple language which we can understand.

Let me commend to the city fathers and others interested a pamphlet which I have before me, published by the National Milk Producers of California, entitled "Confession of a Health Officer," dealing with a similar situation in Los Angeles and containing some amazing revelations.

LAWRENCE SAMPSON, 1437 Vining Street.

PERFUME AND PARASITES

To the Editor:—"Put a drop of 'Leash' perfume for dogs on Fido's ears and he will be more cuddlesome. . . . Don't mistake this for a soul-stirring scent, it is just a nice, fresh air, clean sort of aroma. Fido won't mind. Sold in dog kennel boxes of generous size, \$7."

Above is an ad. in the Montreal Gazette.

No doubt Fido may need something to sweeten him up a bit and keep parasites from invading his sleek and well-nourished hide; but how depressing to think that in the same area, where people pay \$7 for a box of dog perfume, honest thirty people are literally starving for food and knowledge.

The Premier of the province, assisted by a great Christian church, has no effective remedy for such a sickening state of affairs. Were Quebec citizens somewhat wiser, methinks they would get busy and remove those Duplessis padlocks, thereby clearing the way for free speech and a free press to prescribe an economic perfume that might prove as effective in removing parasites from the body social as "Leash" is in removing them from the hide of poor Fido.

Patricia Bay. M. E. BIRD.

WHEN A DICTATOR'S OUSTED

From the Fort Erie Times-Review
Maybe being a premier or president isn't as much fun as being a dictator, but after you're ousted you can at least hope to live long enough to write your memoirs.

death and there is danger of an epidemic, that is Ottawa's affair. A cantaloupe merely laid up for a day or two with a bad cold is the responsibility of the province. What one might ask, if the plant doctors disagree?

"SEASONING" BANK NOTES

From Bank of Canada Governor's address.

The production of a high quality bank note is necessarily a lengthy and expensive process. Not only does it call for detailed engraving work by highly skilled plate engravers, but the printing processes, and the seasoning of the notes before they are ready for issue to the public, mean in all a lapse of a year from the time a new note issue is designed.

Better English

1. What is wrong with this sentence? "He went for him with both fists."
2. What is the correct pronunciation of "epitome"?
3. Which one of these words is misspelled? Renewable, observable, changeable, mutable.
4. What does the word "confirmatory" mean?
5. What is a word beginning with "t" that means "forbearing"?

ANSWERS

1. Say, "He attacked him with both fists." 2. Pronounce "epitome," both e's as in me un-stressed, i as in pit, o as in obey, accent second syllable. 3. Changeable. 4. Serving to establish or make more certain. "His statement was confirmatory of previous statements." 5. Tolerant.

UNREAL ESTATE

From the Hamilton Spectator

With taxes going the way they are it should be called unreal estate.

Parallel Thoughts

Saying unto them, It is written, My house is the house of prayer; but ye have made it a den of thieves.—Luke 19:46

On the boat coming from America a man said to me:

"My church is The Church." I replied: "Go fill your bathtub with salt water and say, This is the ocean." —Gipsy Smith.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pints of bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, runk and the world looks punk. A new bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes these good, old Carter's Little Liver Pills to get those two pints of bile flowing freely and make you feel "up and up." Harmless and gentle, they make the bile flow freely. They do the work of a hundred but have no harmful or mercury in them. Ask for Carter's Little Liver Pills by name! Don't take anything else.

Conservatives to Meet
OTTAWA (CP)—The National Conservative Convention committee will meet in Ottawa April 9, it is announced. A chairman and a secretary will be elected and the date for the national convention, decided on at a conference here a few weeks ago, may be selected.

The world's most southern high is in the sheep country of Chile.

Practical Home Gardening

BY DONALD GRAY

No. 4 in a Series

A shrub or a tree when transplanted from one part of the garden to another is quite likely to live in its new location, but when plants are purchased from a nursery certain planting rules must be followed.

Buy plants from a reputable nurseryman. Avoid fly-by-night plant brokers. When the plant arrives from the nursery the bare roots should be covered with earth until the hole is prepared. Dig a generous sized hole. Don't spare a half hour's extra digging if you want the plant to flourish. Make the hole deeper than the depths of the roots and wider than their spread. Prune off all broken roots.

For large trees and shrubs provide some kind of drainage at the

A large tree needs bracing with wires or a strong stake.

Shrubs and trees that lose their leaves in the winter can be transplanted without a ball of earth around their roots, whenever there is no frost in the ground and until late spring when buds begin to swell.

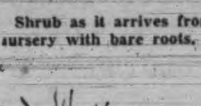

Evergreens can be planted at the same time, but the roots must always be in contact with soil. That is why evergreens are purchased balled and burlapped.

Next: Making a New Lawn.

BUYING A LOT

"I am intended to buy a small lot and build a home and garden, what kind of a lot should I buy?"

Answer: Choose a lot so that the front of the house faces west. This will let you sit in the shade in the rear of the house and

Shrub as it arrives from the nursery with bare roots.

Cover the roots with soil until hole is dug for planting.

Dig a hole larger than roots.

Plant same height as formerly.

Prune off part of last year's growth.

bottom of the hole if the soil is heavy. A drain tile can be placed in the bottom of the hole to carry excess water away from the roots.

Set the plant in the hole and fill in around the roots with good quality, fine-textured soil. Keep pulling up the tree or shrub as the earth is added. Make sure that there are no air pockets left around the roots. Tamp the earth in place with your heel.

Before filling the hole to the top with earth run in water. Make a saucer of earth with a rim on the outside so that water will not run away from but into the centre of the plant.

After planting prune the tops of the shrub by taking off about one-third of last year's growth as well as any weak or broken stalks.

enjoy your garden in the late afternoon. Inquire about restrictions so as to protect your interest. If the lot is less than 60 feet wide attach your garage and have the doors open to the street so that you have the full width of lot in the rear for gardening. Such an arrangement will give you more upstairs room, cost less for driveway construction and upkeep.

YOUNG PEOPLE'S COUNCIL

Victoria will send about 30 delegates to the Provincial United Young People's Conference to be held in Vancouver on May 14 and 15, when the Provincial Young People's Union will be reorganized. An invitation to send delegates to the second annual British Columbia Youth Congress in Vancouver during

Choir Concert

Is Church Aid

Spencer's Singers Contribute Programme For James Bay United Funds

In aid of the funds of James Bay United Church Spencer's Choir, under the direction of Frank Tupman, with assisting artists, presented a well-received program in the church last night.

The choral program included light classics and the performance generally indicated excellent training and careful rehearsal.

Selections by the choir were: "Drake's Drum," "Deep River," "Men of Harlech," "Where My Caravan Has Rested," "The Angelus," from "Maritana," "Early One Morning," "Duna," "Brown Bird Singing," "The World Is Waiting for the Sunrise," "I Hear a Thrush at Eve," "Garden of Happiness" and "The Beleguere."

Instrumental and vocal soloists were among the assisting artists in the concert. Miss Adeline Sangster sang "Danny Boy" and Mrs. S. J. Shanks contributed "The Old Refrain" and "Smiling Through." Bartlett's "A Dream" and Kramer's "Last Hour" were sung by Mr. Tupman. H. Cartwright, violinist, played Handel's "Largo," "Love in Idleness" (Machbeth), "Salut d'Amor" and Mendelssohn's "Spring Song."

Miss Eileen Bowles played the accompaniment, substituting at the last minute for Miss Jessie Smith, who was unable to take part.

Rev. C. D. Clarke presided and expressed sincere thanks to the artists for their efforts, mentioning Miss Bowles particularly. The Ladies' Aid served refreshments to the performers.

SALT SPRING

Organized by the Ladies' Aid of South Salt Spring, a sale, followed by a concert under the direction of Mrs. P. C. Mollett, was held in Fulford Community

Easter weekend has also been received. The annual drama festival will be held at First United Church, Victoria, on April 4 and 5. The work of the adult education branch of the Department of Education was commended.

Hall Saturday. Prizes were won by G. E. Akerman and R. Akerman. Mrs. R. McLennan, Mrs. Patterson and Mrs. Ferguson Reid had charge of stalls. Community singing was under the direction of Dr. E. H. Lawson. Proceeds of the evening, amounting to \$66, will be added to the fund for rebuilding the United Church in the Burgoyne Valley.

Mr. and Mrs. Harold Day returned to the island on Saturday from Victoria, where they spent the winter months.

After six months on the island, Mr. and Mrs. C. Harrison and their family have left to take up residence in Victoria. Mrs. Kennedy Sr. and Miss Ethel Kennedy of Victoria spent the week-end with Mrs. Kennedy's son and daughter-in-law, Mr. and Mrs. J. Kennedy, at South Salt Spring. Miss Celia Lewis of Victoria came to the island on Saturday to spend the week-end with her sister, Mrs. A. Pednault, at Ganges Harbor.

Kipling Papers Read to Society

Selections from "Kipling and the Doctors" was read by the vice-president, K. C. Symons, at the monthly meeting of the Victoria Kipling Society held on Tuesday evening at the home of Miss H. Leighton. The interesting paper was written by Dr. E. H. Cleveland of Vancouver and read before the Medical Association there in January.

Kipling had a very high regard for the profession, among whom he counted several personal friends as well as portraying some notable examples in his stories. Some amusing and original Limericks on Kipling and

NO MORE BILIOUSNESS!

Experience of Ontario Woman

Wouldn't you like to be entirely free of headaches, biliousness, constipation, constant lassitude? "Since I was 15 years old," says Mrs. W. S. Guelph, Ont., "I was subject to bilious attacks lasting for days—so severe I would have to go to bed. I got little relief until I started Fruit-A-Tives. Then I gained health. Biliousness was entirely checked. I suffered with Eczema and this disappeared too. Poor liver action causes biliousness, and other ills. Fruit-A-Tives bring quick relief and lasting liver health. Try them. 25c. and 50c. At druggists.

FRUIT-A-TIVES LIVER TABLETS

some of his characters, the work of J. A. Thomson and other members, were read to the meeting. James McGrath read the poems, "Lestina of the Tramp Royal" and "The Winners," and Mrs. J. A. Thomson read the "Reply to Rudyard Kipling's Poem the Winners," by Ella Wheeler Wilcox.

A visitor to the meeting was Mrs. F. Lee, who is familiar with all the countryside round Burwash, Kipling's Sussex home. She showed the members a series of photographs, including Kipling's famous home, "Batmans," Letters of thanks and appreciation.

Head hunting has persisted among some African tribes because of the custom of a young man taking a head to show his intended bride his courage.

The most famous Roman road, the Apollon Way, ran 412 miles toward the East and has been called as startling a muscle-power achievement as the pyramids of Egypt.

The April meeting will be at the home of Mrs. J. W. Church.

Head hunting has persisted among some African tribes because of the custom of a young man taking a head to show his intended bride his courage.

The most famous Roman road, the Apollon Way, ran 412 miles toward the East and has been called as startling a muscle-power achievement as the pyramids of Egypt.

CHECK FATIGUE, "NERVES"

Stock Up On

Winning

Stamina

Do you, like so many other persons past forty, feel yourself beginning to slide downhill physically and mentally? Are you losing your old stamina and self-confidence?—arising without interest or energy for the day before you?—becoming fatigued at mid-day?—finding that you cannot concentrate? Are you becoming discouraged and irritable, and losing the good-will of those close to you, those important to you in your business? Do you feel yourself giving way to younger, more vigorous men? Are you fearful of the future?

Like so many others, you have probably allowed yourself to become PHYSICALLY DEVIATIZED. . . But you don't have to allow devitalization to go on! You can help yourself—by helping your body rebuild its vital energies. PHYLOSAN can do for you what it has done for thousands of others. Start today, through the simple use of Phyllosan tablets, to make your comeback to buoyant vigor and self-confident good spirits!

Phyllosan (pronounced Fill-O-San) is the discovery of one of the world's leading physicians, Dr. E. Buergli, Professor of Medicine at the University of Berne, Switzerland. Phyllosan

'PHYLOSAN'

The word "Phyllosan" is a registered trade mark.

contains no habit-forming drugs, no stimulants. A product whose primary ingredient comes from purely natural sources, Phyllosan cooperates with the natural processes of your body to strengthen your nerves, enrich your blood, rebuild your vital powers. Just two tiny tablets before meals. The beneficial effects are not temporary but LASTING!

Don't waste precious time, don't put off helping yourself to a happier, more vigorous life. Join the thousands of men and women who have, through the simple use of Phyllosan, won themselves new energy and lasting vitality. Start taking PHYLOSAN tablets today! PHYLOSAN TABLETS help enrich and invigorate your blood . . . strengthen your nerves . . . build up your reserves of vital power. Recommended by many physicians, especially to those past 40.

Oldsmobile will win you with its DASHING DYNAMIC STYLING

Everywhere you will hear compliments on Oldsmobile's striking beauty—the dashing distinction of its original radiator grilles—the long, sweeping lines of its graceful body contours. But Oldsmobile is far more than the Style Leader. It is the sweetest performing car you ever drove. It is big, roomy and luxuriously appointed. And most important, Oldsmobile is quality-built throughout to give you the dependability and economy you want in your next car.

"The Car that Has Everything" SETS THE PACE IN VALUE

Only Oldsmobile gives you all the modern and proved fine-car features—including the new Safety Dash with Safety Instrument Unit—Insulated, All-Steel Bodies—Knee-Action Wheels—and Dual Ride Stabilizers. Come for a trial drive—and remember that when you own an Oldsmobile you benefit from General Motors nation-wide service organization.

Letters to The Editor

WORLD SLIPPING FAST

To the Editor:—At a time when the question of the return to Germany of her colonies and Japan's need for room for its surplus population are so much to the front, the following information by F. A. W. Lucas, K.C., from the Christian Science Monitor should prove of interest.

"I have dealt principally with Japan, but conditions are similar in Italy, Germany and Great Britain. In Scotland 25 land-owners own one-third of the country, and where Wolfe in the middle of the 18th century raised a whole regiment of fighting men for Quebec, there is now only one family—that of a gamekeeper."

"The main reason given by the Japanese for their attack, first on Manchuria and now on north China, is the overpopulation of their country and the poverty of their people. It is claimed that Japan must have foreign outlets for its people. Actually, the density of population in Japan is little more than half that of Belgium and only half that of England."

"The Japan Year Book 1936" shows that one-half of the arable land in Japan is owned by 1,000,000 people, that is, about 1 1/2 per cent of the total population, while some 33,000,000 get their living on rented agricultural land; and of these 20,000,000 are compelled to try to exist on approximately one acre per household. Not only must they pay a high rent for that small area but they are also heavily taxed. It is this that causes the poverty and all the so-called overcrowding or overpopulation of Japan. The cure for those evils and the lack of markets for the Japanese people lies in their remedying that situation.

"In Great Britain the monopolization of land in the hands of a few is notorious."

"Because of these conditions, there is overcrowding, which is purely artificial and wholly unnecessary. They have brought about a state of affairs in which an extension of exploitation of the masses of the people is no longer easily possible in the home land, and the exploiters in each of these European countries and Japan must look abroad for some other people to use for profit."

"No one of the have or have-not countries has yet shown any sign of willingness to tackle its own internal problem of land monopolization, but each seems willing to risk plunging the world into another war rather than to do so."

Yes, and our young manhood will be asked to be killed, maimed and gassed so that these can continue their game. No wonder the world is going Communist (because of Communism's promises, among which is abolition of war) and no wonder men like Eden are thrown to the wolves. Eden is probably a Christian, which is more than can be said of Chamberlain, the Astors, Sir John Simon and about six others who are running England these days. Chamberlain would not dare to go to the country for re-election.

SYDNEY ASHDOWN.

JEHOVAH

To the Editor:—Accept my sincere thanks for opening your columns to an attempt to keep the name of Jehovah from being vilified.

Personally I have no axe to grind, but I know it is because of lack of understanding and knowledge that causes many to blaspheme the revered name Jehovah, and because of that fact I proffer what little assistance possible, to sweep away the cobwebs beclouding the minds of many honest people regarding Jehovah and the Bible.

The statement of the wise man "He that answereth a matter before he heareth it, it is a folly and a shame to him," is one easily understood and I am surprised that that statement should be called in question. Many consider themselves competent to criticize the Bible before they hear and understand its contents. Surely the wise man is correct in saying "it is a folly and shame to him."

I would welcome any private correspondence on this subject and again express my thanks that you have opened your columns to this matter.

In so far as Mr. Harrison's letter is concerned, it appears we have no common ground for further discussion.

PERCY MORRELL
Glyn, B.C.

LIFEBOAT FOR MR. TAYLOR?

To the Editor:—Our attention has been called to the fact that in the Victoria Times of Feb. 23, considerable publicity was given to a speech at Ottawa by J. S. Taylor, M.P., for Nanaimo constituency, in which our organization was attacked.

As Mr. Taylor's actions were such as to compel the C.C.F. to expel him from membership, he is hardly in a position to supply factual information about the C.C.F., its members or its principles.

Mr. Taylor was elected to parliament by the C.C.F. in Nanaimo in the 1935 federal election. Following the 1936 C.C.F. provincial convention four C.C.F. M.P.'s differing with the policy democratically and constitutionally formulated by C.C.F. members from all sections of the province attempted to foist their particular policy upon our organization. When the C.C.F. executive of that period intimated that it considered the preservation of constitutional action of greater importance to our movement and to the working people of the province than the loss of the four M.P.'s support the latter split with the C.C.F. and set up a rival political party of their own. "The Constructives"—now defunct.

For reasons best known to himself, Mr. Taylor associated himself with the dissenting group. In consequence, he was expelled by the C.C.F. clubs in Nanaimo. The C.C.F. Provincial Executive, however, did not ratify the expulsion. It merely suspended Mr. Taylor, leaving the National C.C.F. Council to deal with the matter. The National Council

have Mr. Taylor every possible opportunity to reconsider his position and to accept, loyally, the decisions of the movement responsible for his election. This, however, Mr. Taylor refused to do. He was accordingly expelled from the C.C.F.

Unfortunately for Mr. Taylor, the "B.C. Constructives" party was wiped out by the electorate in the 1937 provincial election. As it no longer exists, Mr. Taylor is now forced to look about for a new political home.

The direction in which he is looking become apparent. After deriding our movement's position, Mr. Taylor tells the House that he "regrets he is constrained to term himself an independent." He then intimates that "it would be a good thing for the country" if leaders of the old line parties would announce their willingness to embrace all those "proper to their structure of mind." Then, Mr. Taylor naively describes his real position. "I," he says, "am a socialist of essentially a liberal structure of mind."

We have here the pathetic spectacle of a political appealing to the Liberal Party ship to lower a lifeboat and rescue him from the arid sands of the politically desert island upon which his mutinous actions have left him stranded.

Mr. Taylor's welcome, so far as our organization is concerned, to his new allegiance.

His betrayal of those who fought and sacrificed to elect him, that he might play a worthy part in the struggle for social progress in Canada is an excellent reason for saying that when Mr. Taylor joined the C.C.F. he joined the wrong party.

BARRY MATHER
Provincial Chairman, C.C.F.
Publicity Committee, 704 Holden Building.

SPIRITUALIST WISDOM

To the Editor:—I, along with some friends, attended worship in the Spiritualist Church on Broad Street, where I heard a very fine address on "War and What is Behind It." The pastor, a young man, was most convincing in his statement that greed and hate were at the bottom of it all, and that if people would only realize the power of concentrated thought and would earnestly send out not thoughts of greed and hate to their fellow-men, but those of love and peace, such as Christ Himself taught, these, that more than mere talk, the speeding up or armaments and munitions, would help to bring peace on this world of ours.

E. JACKSON.

WORD OF GOD

To the Editor:—C. C. Harrison, in a letter of March 4, states that a passage from the Bible (Proverbs 18:13) is "a piece of absurdity one would not even look for in some of the comic strips of today; it is a slice of nonsense with no meaning whatever." Evidently Mr. Harrison does not understand this particular passage of the Bible, or he would not have referred to it in such derogatory terms. The passage referred to is quoted from the Authorized Version of the Bible, and reads as follows: "He that answereth a matter before he heareth it, it is folly and shame unto him." The correct translation of this verse, as rendered by Dr. Isaac Leeser in his translation of the Old Testament Scriptures according to the Massoretic text, is much clearer and gives the real import of the original Hebrew: "When one returneth an answer before he understandeth (the question) it is folly unto him and shame." This puts an entirely different aspect on the matter, and gives the true significance of the passage. A similar passage is found in the Apocrypha in Ecclesiasticus 11:8—"Answer not before thou hast heard; and interrupt not in the midst of speech." The Scripture in Proverbs, which Mr. Harrison criticized, and quote from the Authorized or King James version of the Bible, does not give the true sense of the original. The original words of God, given to mankind through the prophets, are not absurd and nonsensical, but were written for our help and guidance in life—"for whatsoever things were written aforetime were written for our learning, that we through patience and comfort of the Scriptures might have hope" (Rom. 15:4). Some of us are still old-fashioned enough to believe that the Bible is the word of God, and when properly understood "is the power of God unto salvation to every one that believeth" (Rom. 1:16).

CLIFFORD BALES,

966 Bank Street.

"SCHIZOPHRENIA"

To the Editor:—The tone of your editorial on the "Supreme Court Decisions" ill becomes you. The frustration of the aims that move Social Crediters everywhere, no less than those in Alberta, is not funny, representing as it does, the triumph of the forces that hold the people of Canada in bondage.

And yet side by side with this editorial we find another on

ONTARIO OLD BOYS GATHER

Former Bruce, Huron and Grey Residents Hear Enjoyable Program

Former residents of Bruce, Huron and Grey counties of Ontario gathered last night in the A.O.F. Hall for a largely attended meeting of the Bruce, Huron and Grey Old Boys' Association when a program of entertainment and brief talks was presented.

Angus Galbraith, president, was the chairman.

Included in the evening's entertainment were moving pictures of London taken by Fred W. Spencer during a trip Overseas last year. Mr. Spencer accompanied the showing with some interesting observations on London life as he had seen it. These movies were followed with a brief showing of colored scenic views around Victoria which Mr. Spencer had taken. The thanks of the association were conveyed to Mr. Spencer by James Strang, vice-president.

Mr. Galbraith gave a short talk on the aims of the association which was formed five years ago to bring together in a social way former residents of the Ontario counties.

By resolution the association conveyed its congratulations to Mrs. Margaret Freeman, a member who attained her ninety-fourth birthday last month.

Musical entertainment was contributed by Miss Lauretta McCall and William Inglis who sang the duet numbers "O Peaceful Night" and "The Wolf Hunt," accompanied by Miss Margaret Pringle; Jessie and Muriel Pollock who did Highland dances with Pipe Major Donald Cameron accompanying and Bert Lilley, who gave humorous monologues.

Serving of supper by the ladies brought the evening to a close.

Shantymen Will Honor Leader

W. H. Adamson, general president in Canada for the Shantymen's Christian Association, will be the guest speaker at a special dinner of the local branch tomorrow night at 6:30 in Speedie's Cafe.

Mr. Adamson, who is known throughout the Dominion for his work, is associated with a score of missionary and Bible societies. He recently celebrated his 80th birthday at his home in Toronto, and was tendered a complimentary banquet by his friends of various organizations.

Owing to limited seating capacity all tickets for the dinner have already been taken up, the secretary announced.

Scientists are studying dialect in the Great Smoky Mountains of the southeast, tracing speech forms brought from Scotland and England by pioneers years ago.

"Averting Depressions" in which we see the Times soberly repeating an economist's statement that the reason we have depressions is that when we stop building capital goods we can no longer receive the money to buy consumers' goods which we have produced by means of the capital goods.

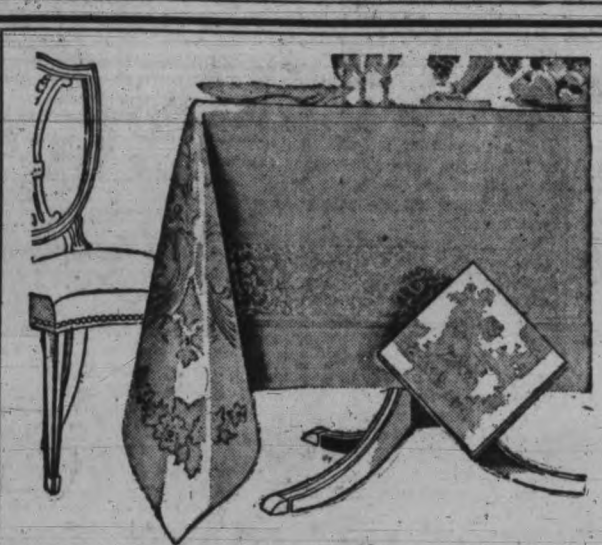

This description of the symptoms of an economic breakdown is perfectly accurate, but it seems as if it is too much to expect the Times to realize that this is the proof of the Social Credit case at which it sneers in the editorials "The Supreme Court Decisions."

Apparently it would be too much to ask the Times to realize that, in turn, the reason we stop building capital goods is that the market for the goods produced by the capital goods we already have at the end of a "boom" is fading away because the consumers' goods already being produced cannot be sold at prices that will either repay their cost or justify any further capital investment.

Surely it is now obvious that the way to keep investment proceeding as fast as people save money would be to provide sufficient purchasing, at all times, to remove from the market the consumers' goods that the capital good are, or might at any time in the future, produce... which would be Social Credit.

The Times concludes with: "It might be a good thing for us to stop thinking about recovery and start thinking about prevention." Good. But from the tone of the first editorial the Times seems to say: "If anyone starts to think about prevention, and worse, tries to do anything about it, we must write a sneering editorial about them. Above all, we must prevent and frustrate any thinking and any action on this subject."

Legacy For Man Declared Dead

I. J. Walls, Long Missing in Alberta, Moves to Share in Eastern Estate

STAVELY, Alta. (CP)—Declared legally dead 15 years ago, Isaac James (Blackie) Walls, 70-year-old odd-jobs man of Stavely, today is seeking to share in a \$150,000 estate of an elder brother.

Application for an old age pension for Blackie and search for his birth certificate in New Brunswick, where he was born, reunited him with members of his family, now living in Boston, Mass., and brought word of the fortune.

Walls' claim to the estate has been outlawed, but he told a newspaper correspondent here, his sister and a cousin who received his share of the fortune, have offered him a cash settlement of \$28,000.

ectors of the eastern estate spent \$1,400 in advertising and trying to get in personal touch with the missing member of the Walls family, he was told in a letter from his sister.

Stavely is in southern Alberta, 85 miles south of Calgary.

DUNCAN

Pupils of Miss I. Cowie gave a piano recital Friday. Those taking part were: Betty Girvin, Doris Bradley, Phyllis Boose, May Compton-Lundie, Patricia and Martha Richards, Lorraine Manzer, Ronnie Scholey, Doris Bradley, Patricia Lloyd, Clifford Sellers, Margaret Truesdale and Esther Whittaker.

Mrs. Jennie Macdonald was convener for the cooked food sale held under the auspices of the Cowichan Women's Institute Saturday morning. Mrs. G. Colk had charge of the contests, Mrs. K. Worsley won the chest and Miss May Robertson the bed throw. Mrs. Lorna Evans, president of the institute, had general supervision.

South America has two countries with no seacoast; Europe has four.

Yearly Basis For Relief Schemes

Vancouver Mayor, Back From Ottawa, Says Rogers Studies Plan

VANCOUVER (CP)—Mayor G. C. Miller reports Hon. Norman Rogers, Federal Labor Minister, told delegates to the recent Canadian Conference of Mayors and Municipalities he agreed with them that unemployment relief should be treated on a year-by-year basis, rather than a month at a time.

Mayor Miller returned Tuesday from Ottawa, where he attended conference sessions.

He said Mr. Rogers told mayors who interviewed him they were "unduly alarmed" over the seriousness of the relief situation. The mayor said there was no indication the federal relief grants would be reduced, and that Mr. Rogers had pointed out that the entire relief problem would be reviewed by the federal government after March 31,

when the present fiscal year will end.

A British speaker recently said that out of 21 civilizations that have arisen since the dawn of history, 14 are known only by their ruins.

Rheumatism, which attacks one person in 25 in this country, is rated as the United States' leading chronic disease.

THIS BACKACHE IS AN AGONY.

Guild Hears Address On Yukon

Mrs. F. G. Berton Is
Speaker At
St. Mary's Meeting

The Yukon during the days of the gold rush provided the material for an interesting address by Mrs. F. G. Berton, president of the Victoria Authors' Club, before St. Mary's Ladies' Guild yesterday afternoon.

The meeting was held in St. Mary's Hall, with members of the St. Saviour's Church Guild as special guests. The visitors were welcomed by the president, Mrs. C. T. Teasdale, and Mrs. A. E. de L. Nunn, the meeting opening with prayer by the rector, Ven. Archdeacon Nunn.

RUSH OF '98

Mrs. Berton took as her subject "Dawson City, Yesterday and Today," outlining the life and conditions of that city in the early days prior to the gold rush, to the present time. The gold strikes of '97 and '98 brought all sorts and conditions of men from all parts of the world, she stated, and the district began to boom with prosperity and glory.

"Untold hardships and unadmitted determination spell the story of the root of that prosperity," she said, "all of course, inspired by the fascination of gold." The trail was still to be seen on the White Pass, where those early settlers made their hazardous way into a practically inaccessible country. The sufferings of the horses at that time were so pitiful that a monument was erected to those who had died, or had been put out of their misery.

LIFE TODAY

The present method of transportation by airplane was contrasted by the speaker with the old way by water in summer and dog team in winter. "When the finding of easy gold declined, many left for other parts and the prosperity died down considerably, but Dawson still appears to hold her own," Mrs. Berton declared. Nine huge dredges were at present operating over creeks worked by miners in the early days and are still finding gold.

Mrs. Berton spoke of the climate, the comfortable living conditions in Dawson, the sports and amusements. She concluded her address with an extract from Robert Service's "The Spell of the Yukon."

Mrs. C. C. Raven proposed a vote of thanks to the speaker for her interesting talk and a social half-hour followed when tea was served. Miss Saunders thanked St. Mary's Guild for its hospitality. Approximately 60 guild members were present.

The Ministering Circle of the King's Daughters will meet in the rectory on Friday at 3.

On Sad Journey

In deep mourning, Fanny Ward, once famed actress, is shown above as she sailed on the Queen Mary. She and her husband, Jack Dean, have taken back to England two bronze urns containing the ashes of her son-in-law and daughter, Lord and Lady Plunkett, killed recently in an airplane crash in California.

Victorian Celebrates 100th Birthday

Mrs. Sarah McMillan, who today celebrates her 100th birthday, is shown above with her daughter, Mrs. H. McIntyre, of 44 Simcoe Street; her granddaughter, Mrs. D. Wyber, and her little great-granddaughter, Beth Wyber. Born in Woolwich, England, on March 30, 1838, the year after Queen Victoria came to the throne, Mrs. McMillan was the eldest of a family of 13. Her father was a Scotsman and her early life was spent in the north of Scotland, a period of which she is never tired of reminiscing. She came to Victoria 24 years ago, and is now a popular inmate of the Aged Women's Home. Despite her great age, Mrs. McMillan retains all her faculties, and took great pleasure in the many beautiful flowers which were sent to her today in celebration of the occasion. She also entertained the above members of her family at tea at the home, and cut the handsome birthday cake with its one candle, to mark the entry into the first year of her new century. In addition to her daughter, above, Mrs. McMillan has one son, John Herd, in Scotland, also ten grandchildren and eight great-grandchildren.

Society

Miss Patricia Bishop, Skinner Street, will leave tomorrow for the mainland on her way to Trail, where she will make her home.

Mrs. Robert Musgrave of Quamichan Lake has returned to her home up the island after spending a few days in Victoria with friends.

Mrs. A. V. Hamilton, Newport Avenue, who has been visiting in Vancouver with her son-in-law and daughter, Corporal and Mrs. Wilson and with other friends, has returned to her home in Victoria.

Miss T. Benson and Mr. A. J. Benson of Seattle, and Miss Joan Mellor of Vancouver, who have been visiting Mr. and Mrs. W. B. George, Arm Street, have returned to their homes on the mainland.

Mr. and Mrs. J. T. Marquette announce the engagement of their second daughter, Jean Irene, to Mr. Cyril Smith, son of Mr. W. Smith and the late Mrs. Smith, 113 Sims Avenue, Saanich. The wedding will take place at St. Mary's Church, Oak Bay, on April 23.

Mr. Sidney A. Benwell, who has been on the staff of the Provincial Forestry branch at Prince Rupert, has been transferred to Victoria. He arrived here Monday to join his wife and little daughter, Doris, who have been visiting Mrs. R. C. Benwell, Hillside Avenue.

Miss M. Siddall presided at a meeting of the Daughters of Pity held last evening at the Nurses' Home of the Royal Jubilee Hospital. It was decided to purchase four dozen toothbrushes for the children's ward and to buy the usual flowers and Easter gifts for the children. Visitors for the next month will include Miss Bannerman and Miss Hill.

Miss M. Barton, headmistress of St. Margaret's School, will be the guest of honor at the annual reunion tea which "old girls" of the school will hold at the home of Miss Kathleen Mann, The Crescent, Vancouver, on Saturday afternoon. Mr. Chas. Brazier, Mrs. David Todd and Miss Barbara Heseltine are the committee in charge of the arrangements.

Mrs. Harty Morden, who has been visiting her mother, Mrs. C. S. Kilmaster, Port Rowan, Ont., for the past two months, will return on Sunday to rejoin her sister-in-law, Mrs. Gordon Hunter, Belleville Street. En route west she is stopping off at Toronto for a few days' visit with Mrs. Wilson Morden, and is being met in Vancouver by her husband, Mr. Harty Morden, who will accompany her to Victoria to spend a short visit.

Mr. and Mrs. Walter Laidlaw of Chemainus, B.C., announce the engagement of their eldest daughter, Margaret Catherine, to Mr. James Hawthornthwaite, youngest son of Mrs. J. H. Hawthornthwaite and the late Mr. J. H. Hawthornthwaite, M.P.P., of Nanaimo. The wedding will take place at St. Michael and All Angels' Church, Chemainus, at 6 p.m. on April 16.

Dr. Olga Jardine, Despard Avenue, went over to Vancouver yesterday afternoon to spend a few days and also to attend the annual meeting of the Provincial Council of Women which is to be held in the mainland city tomorrow. Mrs. A. C. Ross left this afternoon and Mrs. Alfred Carmichael and Mrs. H. P. Hodges will leave tonight to represent the Local Council at the meeting.

To Marry Soon

The W.A. Britannia Branch No. 7, Canadian Legion, held a card party recently in the clubrooms, court whist being played. Prize-winners were Mrs. E. McKinnon, Mr. H. Granrose, Mrs. E. Boice, Mr. S. Francis and Mrs. H. Atkinson. Refreshments were served by Mrs. L. Quaintance and staff.

A joint meeting of the Women's Auxiliary and the parent body of the Prince Edward Branch No. 91 of the Canadian Legion was held at the home of A. G. Mackie, Langford, last night. Plans were made for a garden fete and gala day on July 1 at Langford. Sports for young and old will be staged and Victoria and up-island branches are being invited to take part. On Friday night lantern slides will be shown in the legion hall by Dick Bennett at Mission Two.

On Monday Group A of the Women's Association of First United Church held their regular meeting with the president, Mrs. F. W. Laing, in the chair. The devotional period was conducted by the president, who gave a special Lenten message. The treasurer brought an encouraging report, including the results of the guest tea. Suggestions concerning the work of the group were discussed and left for further consideration. Tea was served by the social committee and a pleasant time enjoyed.

The Dominion prize list for the W.C.T.U. scientific temperance study course has just been received. Three prizes comes to British Columbia, one of which, third in junior class, has been won by Kenneth Scott of Garden City United Church Sunday school. Four "honorable mention" also are among B.C. competitors.

The committee reports that "the standard of work done was high and competition keen. Those whose names appear in this list are to be congratulated on their high standing in competition with Sunday schools in all parts of the Dominion."

The Saanich Welfare Association will meet on Thursday, April 7, and not on Thursday of this week.

LEA-NEVE

St. Matthias Church, Foul Bay, was the scene of a pretty ceremony yesterday afternoon when Rev. Alan Gardiner united in marriage Miss Peggy Neve, daughter of the late Mr. A. J. Neve, Telkwa, and of Mrs. A. W. Melhuish, 2173 Central Avenue, and Mr. Daniel Lambert Lea, elder son of Mrs. M. Lea, Port Renfrew, and of the late Mr. Lea.

Given in marriage by her step-father, the pretty bride wore a smart French-tailored frock of black crepe with Burgundy accessories, and was attended by her sister, Miss Dorothy Melhuish, in a navy blue chiffon ensemble, with white accessories. They both wore corsage bouquets of freesias and white sweet peas. Mr. Bernard Franklin was best man.

Mr. and Mrs. Melhuish entertained about 30 guests after the ceremony, in their home, which was a bower of spring flowers. The bride's cake centred the refreshment table, standing between tall blue candles in silver holders, and vases of daffodils and fern. Mrs. Melhuish was dressed in beige, with navy blue accessories, and Mrs. Lea in a gown of black, with white, and a black hat. They both wore shoulder sprays of freesias and carnations.

The couple left by the afternoon boat for Seattle, the bride donning a fur coat over her wedding costume for the trip. They will make their home at Port Renfrew.

News of Clubwomen

To ensure their publication reports of meetings of organizations or groups should be sent in within two days of their happening. Notices for this column on Saturday must be written and handed in not later than Friday.

French Brides No Longer To Obey

By GLADYS M. ARNOLD
Canadian Press Correspondent
PARIS (CP) — Until recently France was perhaps the last remaining occidental country where man retained a little of his independence. The French bride was obliged by law to promise to "obey" her husband in the civil marriage service, compulsory for all marriages whether there is a religious service or not. She was obliged to follow him wherever he might decide to go. His was the sole authority in all family and financial matters. He could forbid her to work and had full authority over the children and her own person.

In other words, the husband still retained a vestige of his prestige and his position as chief of the family.

Now Article 213 of the French civil code has been struck out. It just means that French husbands have no longer a legal right to the illusion that their wives obey them.

In the days of Rome's glory the bride of a Roman was obliged to pass under his arm, a symbol to show her obedience. Her hair was parted the morning of the ceremony, not with a comb, but with her husband's sword.

China, too, had its golden era. Not only must a wife obey her husband, but her father and mother-in-law as well as her husband's grandparents. While in India the wife was told there was "no god on earth for a woman but her husband. If her husband laughs, she must laugh; if he cries, she must weep; if he scolds her, she must thank him, if he hits her, she must take his hand and kiss it respectfully and ask his pardon for having angered him."

In France, Article 213 protected the husband, but now this last bulwark is gone. "Nothing will save us now from falling into the same state of abject submission which has characterized the American husband for so long," is the pessimistic reflection of French husbands today.

TO PASS THE TIME
The magazine most popular among Parisians and most useful to foreigners in Paris comes out once a week and is called "La Semaine a Paris" (The Week in Paris). It's the answer to "Where shall we go tonight?"

It's like trying to carry a dozen eggs in your bare hands. Look at one week: The Opera and Opera-Comique were giving four performances each—opera and ballet. The Comedie-Francaise and the Odéon, the other two national theatres, played every night—"Moliere," "David Copperfield," "The Chocolate Soldier," "Racine." Four plays opened and 35 were already running; five children's theatres; 18 music halls, three circuses and an ice carnival. Not to mention the nightly entertainment of the Folies Bergere and the celebrated Casino de Paris.

But we haven't begun. Only 213 moving-picture palaces were playing. Music? Thirty-eight concerts, including the philharmonic orchestra and any number of recitals, were announced. Art? Ten large exhibitions, the most important of which was the Exposition of English Art at the Louvre and 63 personal showings. Only 43 lectures on subjects ranging from spiritualism, "The Brain, Larynx, Sex and Their Occult Relations" to a series of talks on the totalitarian regimes and "Five Years Under Hitler."

Finally there are the night clubs and restaurants, the "bars" and "danings." After the superhuman effort necessary to sort them out, one is usually so tired that nothing seems quite so appealing as bed and a good sleep.

HUNGERFORD HONORED
MONTREAL—Word has been received from Paris of the appointment of S. J. Hungerford, chairman and president of the C.N.R., and president of the trans-Canada Air Lines, to an honorary membership in the Scientific Institute of Studies of Communications and Transport.

The institute exists to collect information on transport problems and to publish the results of its researches for the benefit of individuals and organizations interested in these questions.

Mr. Hungerford has been made an honorary member in recognition of the "interest which he has always shown in the evolution of science and technique and in the application of scientific methods of research and study in the field of transport and communications, and especially on account of the great services which he has rendered to the general progress of railways."

Good Luck Silks
PARIS — Good luck symbols pattern new printed silks with elephants, horses, owls, and lilies-of-the-valley in the designs.

Anglo-American Marriage

Mr. George John Mercer Nairne, son of Lady Violet Astor and grandson of two Governors-General of Canada, and his bride, the former Barbara Chase, daughter of Mr. and Mrs. Harold Stuart Chase, whose marriage took place in the All Saints-by-the-Sea Episcopal Church, at Santa Barbara, Cal. The bridegroom's father was a son of the fifth Marquis of Lansdowne, one-time Governor-General of Canada, and his mother was well known in Ottawa before her marriage as Lady Violet Elliott, daughter of Lord Minto, who also served as Governor-General. Major the Hon. John Jacob Astor is Mr. Nairne's stepfather.

Coast Mission Work Described

Large Gathering Hears of Fine Work Being Done For Isolated Settlers

"We don't feel we are doing anything particularly heroic," said Rev. Alan Greene, superintendent of the Columbia Coast Mission of the Anglican Church when speaking to 150 supporters of the movement at the annual dinner at Spencer's dining-room last night.

Bishop H. E. Sexton, president of the mission, presided and introduced the various speakers, among whom was Archbishop A. U. de Pencier, vice-president.

Mr. Greene told simply of the work being done by the mission for the isolated settlers and the Indians along a vast coastline.

"Our medical work extends to everyone. We never ask a person, when he comes aboard, what church he belongs to or how much money he has," Mr. Greene said. "We try to meet every emergency, medically, as well as spiritually. We have a most amazing range of faiths to which to administer. Not long ago I had a Mormon lady as an organist, and I felt her music was just the same as an Anglican's."

"I assure you our ministry is to all. There are itinerant Roman Catholic priests doing splendid work on the coast, and there are United Churchmen, with their boats, doing equally fine work, and we co-operate with them. Never let us be guilty of picturing ourselves as the only ones engaged in this happy work."

DENTAL CLINIC
Mrs. John Antle, whose home port is Victoria and whose captain is Mr. Greene, costs about \$550 a month to operate. The superintendent told of the establishment of a dental clinic for about 40 children on Lasqueti Island during the Easter holidays. He told of the gratitude of the parents when they heard this good news. It was hoped to increase the clinic and make it accessible to more children along the coast, he said.

Mr. Greene showed a reel of colored motion pictures taken last summer. The romance and the excitement of the work was beautifully depicted and some magnificent pictures of coast scenery were shown. But that coast, so beautiful, calm and serene in the summer, can be wicked and cruel in winter, Mr. Greene said.

GREAT NEED
W. M. Halliday, who spent 36 years at Alert Bay as Indian Agent, told of the need for service, such as is now given by the mission, along the coast.

"There were only the Indian medicine men," he said, "and they had a crude, raw way of doing things, to the accompaniment of piercing screams. Is it any wonder we welcomed John Antle with open arms? Up until then Epsum salts, or castor oil, and common sense was the only trick we knew when anything happened."

Bishop Sexton said the mission's only need was more money, not only to maintain the

existing work, but for its extension. He said the work was now regarded as absolutely indispensable. He made a special plea for a new morgue in connection with the hospital at Alert Bay.

Dr. H. E. Young, provincial health officer, said if there was one organization in British Columbia that had earned its way it was the Columbia Coast Mission.

"These men have done their good work and passed silently on to others," he said. "All they want is some recompense, not for themselves, but to permit them to carry their works of mercy to still more people."

Alderman Halford Wilson, on behalf of the Vancouver guests, thanked Mrs. H. T. Goodland and her dinner committee for an enjoyable party. Dinner was served at long tables, gay with daffodils and spring greenery.

Special guests were E. F. Winslow, president of the board of the Community Chest and Mrs. Kenneth Barr, secretary. The Community Chest will give the mission \$2,000 from Victoria this year.

MEMBERS OF BOARD
Members of the Mission Board and the management committee were elected at the annual meeting at the Memorial Hall yesterday afternoon.

On the board are Bishop Sexton, Archbishop de Pencier from Vancouver, Archdeacon Sir Francis Heathcote, Major Harold Brown, Col. W. F. Kemp, Gordon V. Pearce, J. V. Cline, H. D. Wilson, Leslie J. Martin, T. W. Bingay, Miss F. O. G. Pheop, Dean Ramsay Armistage from Victoria, Col. H. T. Goodland, Raymond W. Jones, P. B. Fowler, Rev. Fred Comley, Col. A. W. R. Wilby, Jack Aylwin, E. Gray, P. G. Barr and Mrs. W. H. Belsom. Members of the management committee are Col. W. F. Kemp, chairman; Archdeacon de Pencier, Bishop Sexton, Sir Francis Heathcote, Halford D. Wilson, Walter S. Miles, Col. Wilby, T. W. Bingay, Leslie Martin, Gordon V. Pearce was returned as honorary treasurer. Ben Drew will continue as secretary.

The Epsilon Sigma Alpha Sorority met at the home of Mildred Baxandall, Marlborough Street, on Monday evening. Leona Newby, who was formerly a member of the Wenatchee, Wash., chapter of the sorority, was the guest of honor. The literary program consisted of a short talk on the Liberal policy by Lex Cruickshanks, a review of Premier King's life by Louise Ormond, and Barbara Leigh reviewed the life and works of E. Pauline Johnson. The next meeting will be held at the home of Margaret Hemmingsen, on April 11.

Baldwin Has Grandson
LONDON—Succession to Stanley Baldwin's earldom is assured by the recent birth of a boy to Elspeth Tomes, New York wife of Windham, the former Prime Minister's second son, whose older brother is a bachelor.

Money Worries Port Alberni

After Heated Discussion, Council Votes to Continue Its Salaries

PORT ALBERNI—The mayor and aldermen will continue to receive their monthly salaries, following a brief, but heated discussion on the subject at their meeting this week.

Alderman John Woodford moved that the members of the council forego their salaries. His motion was seconded by Alderman Carl Cook.

Aldermen E. Jones and John Green said Aldermen Cook and Woodford were only engaged in grandstand play when they made their motion.

Alderman Green said he would quit the council when he felt his services were not worth \$25 a month to the ratepayers of Port Alberni.

Alderman M. Crossland said he felt he should be compensated in some small measure for the time he gave to civic affairs. He felt the salary he received at present did not fully compensate him.

Mayor Hamilton also said he was against the move, as aldermen gave far more of their time to civic duties than the average ratepayer realized.

"I want to tell you it is going to be impossible to carry on," Alderman Woodford said. "Where is the money coming from for roads, water and other necessary public works. It looks as if it might be necessary to lay up all the trucks and fire the foreman, and I do not want anyone to think I am playing to the gallery."

Then he offered his resignation as chairman of the works committee. The mayor refused to accept it, and after much discussion Alderman Woodford agreed to carry on.

"There is no doubt that the government is not doing the right thing by the municipalities, and it is difficulties caused by government interference with the rights of municipalities which has caused Alderman Woodford to take this step," the mayor said.

"The government demands that schools and hospitals have first charge on city revenues. Suppose we close the schools for a week. Very few would know the difference and it is not likely that a great deal of harm would be done, but just close the water off

BURNING PIMPLES HURT IN MORE WAYS THAN ONE

They hurt your pride, your assurance, your chances for success. And it's all so needless! Buy Cuticura Soap and Ointment at your druggist's today. Soap 25¢, Ointment 50¢. Made in Canada. For FREE sample, write to Cuticura, Dept. 67, 286 St. Paul Street West, Montreal.

CUTICURA SOAP AND OINTMENT

for one day and hear the complaints." When the vote was taken only Aldermen Woodford and Cook voted for it.

RELATIVES IN CIVIL SERVICE

M.P.'s Hear Commission Secretary Foran Deny He Has Forty Three

OTTAWA (CP) — Rumors "widspread throughout the country" that favoritism and nepotism were prevalent in civil service appointments and promotions gave rise Tuesday to stormy scenes in the House committee probing the Civil Service Act.

Jean Francois Pouliot, Liberal, Temiscouata, Que., chairman, shouted at members, ordering them to "sit down" and to cease interrupting.

William Foran, commission secretary, denied he had "40 relatives or connections" in government employ.

"But if I have a good-looking sister and she married a civil servant—what are you going to say about that?" asked Mr. Foran.

Some members of the committee urged the matter should not stop there but information be sought also of ministers and members of Parliament who had obtained appointment of their relatives in the service. Eventually the whole matter was referred to a steering sub-committee.

TO PREPARE LIST
The tempest broke when Mr. Pouliot fired at Mr. Foran a question declaring there was a rumor current to the effect Mr. Foran had 40 relatives and connections "in Dominion pay," or that, at least, this number of Mr. Foran's relatives had been in government employ.

Heavy sheers with slubbed weaves or plain weaves are being used for gathered boleros for dinner wear. Also for formal boleros, crisp embroidered mouselines are cited.

BABY'S HOT LITTLE HEAD IS A DANGER SIGNAL

WHEN your baby's head feels hot to your hand you must do something. And do it quickly. Read what Mrs. Bernard Green, of Enterprise, does and what results she gets: "My baby's cheeks and hands were so hot I was frightened. I gave him a Baby's Own Tablet at noon and by after supper he was all better."

And Mrs. Francis Carroll, of Midland, has this to say: "My little girl was so feverish I was really alarmed. Then I thought of Baby's Own Tablets, so I gave her three every two hours and by night she was up and around."

They are sweet-tasting, easy to take, absolutely safe and harmless. Work quickly and can be given to the most delicate baby. Analyst's certificate in every box.

For upset stomach, constipation, troubles and other minor ills of baby. Your druggist is authorized to return your money if you are not satisfied with Baby's Own Tablets. Get a box today. Sickness so often strikes in the night. 25 cents.

jobs since he became secretary of the commission.

"Will you prepare a list of such people showing their present or past positions, their salaries and the connections between you and them?" he asked.

"I'll be glad to do it," said Mr. Foran.

"But I say to you now that I've never had 40 relatives in the civil service."

This, in the opinion of C. Grant MacNeil, C.C.F., Vancouver North, just "illustrated the mess" the committee was going to get into. Even if the information of relatives appointed to the public service were obtained, how were they going to be dislodged? he asked.

Heavy sheers with slubbed weaves or plain weaves are being used for gathered boleros for dinner wear. Also for formal boleros, crisp embroidered mouselines are cited.

HIGHER TAXES FOR NANAIMO

If Budget Is to Be Balanced, Increase Necessary, Council Is Told

NANAIMO—Despite the fact estimates have been drastically cut, Nanaimo faces an increase in taxation if the city's budget is to be balanced, Alderman J. Hindmarsh, chairman of the

finance committee, told the City Council this week.

The school board has been urged to further reduce its estimates by \$4,000, but the council had been told the board had already left out \$8,000 on things that were actually needed and no further cuts would be made.

The annual meeting of the Vancouver Island and Coast branch of the British Columbia Mine Safety Association was held a few days ago when officers elected were: Hon. W. J. Asselstine, Hon. George Pearson, Col. C. W. Villiers, John Hunt and R. Filberg, honorary presidents; John McDonald, president; Arthur Newbury and R. Laird, vice-presidents and W. Fulton, secretary-treasurer.

Phillip Piper was re-elected president of the Nanaimo and District Lacrosse Association at the annual meeting this week. Others re-elected were Angus McKenzie, vice-president and Joseph P. Boyce, secretary.

ST. AIDAN'S Y.P.S.

The regular meeting of St. Aidan's Young People took place on Monday evening in the Assembly Hall. Meeting opened with a singing, after a short business period the meeting terminated with a contest directed by Barbara Dawson.

There will be no meeting next week owing to the Victoria Young People's Drama Festival on April 4 and 5 at the First United Church, in which St. Aidan's is participating.

CONVICTION QUASHED

VANCOUVER (CP)—The British Columbia Court of Appeal Tuesday quashed conviction of 19-year-old Walter Shackleton, on a charge of breaking and entering, because the court believed evidence identifying the accused had failed completely.

Shackleton had been sentenced to nine months' imprisonment by Judge A. M. Harper in County Court.

Woman's Protest
LEEDS, Eng. (CP)—"You are driving women back to the harem," cried a woman in Leeds city council chambers, protesting against a resolution requiring women council members to resign on marriage.

Can't make Headway WITHOUT MINERALS

CHILDREN who are "shooting up" remind us of skyscrapers. These tall structures require many different building materials to complete them. So do our children. And these different body-building materials for children should be found in their food. But many modern foods—while they appear appetizing from the outside—do not always contain sufficient of those very important body-building materials known as food minerals—Iron, Calcium, Phosphorus and so on. Milk, for instance, contains only a trace of Iron, while white bread and white flour are definitely low in Calcium and Phosphorus.

You can't expect children to make headway without minerals any more than you can expect skyscrapers to go up without bricks. Give a growing child enough minerals and vitamins—they promote health, strength and growth.

UNDER-FED BLOOD
PREVENTS MANY CHILDREN FROM FILLING OUT

But they gain in pep, energy and endurance when they drink Cocomalt

Cocomalt contains the precious "growing minerals": Iron, Calcium and Phosphorus. Also the Sunshine Vitamin "D" to help in proper formation of bones and teeth. Then Cocomalt has lots of energy-making Carbohydrates and muscle-building Proteins. In simple words, Cocomalt is the scientific food tonic which supplies the vital food essentials growing children require, that helps them develop and keep their health, strength and proper weight.

Due to its delicious flavor, children of all ages—and grown-ups, too—are eager to drink Cocomalt. It is quickly and easily prepared by mixing with hot or cold milk. You buy Cocomalt at drug and grocery stores in purity-sealed, 1/4-lb., 1-lb. and the economical 5-lb. cans.

Do not confuse Cocomalt with malted milk or ordinary, chocolate-flavored drinks. Cocomalt is a scientific food tonic, rich in minerals and other vital food essentials for health, energy and growth. For further important information concerning the value of Cocomalt write to Scott Balthage Co. Ltd., 1150 Hamilton Street, Vancouver, B.C.

The Protective Food Drink

MAN ADMITS VARIED CRIMES

A. Vanderburg to Be Sentenced in London; Two Others on Trial

LONDON (CP)—With the Duke of Gloucester among the spectators, Andrew Vanderburg, said to be a Canadian, was convicted at the Old Bailey today of various charges in connection with his desertion from the British Army.

After first pleading not guilty to the charges, Vanderburg during the proceedings changed his plea to guilty on all counts except those relating to shooting at police officers with intent to murder and of possessing revolvers with intent to endanger life.

JUVENILE ON TRIAL

The jury then returned a verdict of guilty and Vanderburg was taken below while the cases of two defendants proceeded. A juvenile, whose name was withheld, pleaded not guilty in the shooting of three policemen who attempted to arrest the defendant on a holdup charge. He pleaded guilty, however, to charges of illegally possessing a revolver and demanding money with menaces.

George Clark, 21, third defendant, pleaded not guilty to demanding money with menaces.

Vanderburg, either singly or jointly, was charged with: Taking three cars while armed, robbing a man of his overcoat, robbing a man of sixpence while armed, shooting Cecil Rackham, a policeman, and others with intent to murder, shooting at them with intent to resist arrest, demanding money with menaces, wounding Policeman Elliott Piller with intent of grievous bodily harm, wounding Policeman George Hemley with intent to murder, and wounding Hemley with intent to do grievous bodily harm.

SEIZED MOTOR CAR

The policemen were shot while attempting to arrest the men, deserters from the 17th Lancers, on charges of holding up two Air Force officers with revolvers and taking their car. Later they are alleged to have forced a Royal Air Force officer to drive them 65 miles to London.

The charges against Vanderburg to which he pleaded not guilty were dropped when he admitted guilt on the other counts. The Duke's interest in the case was believed to be because Vanderburg and a co-defendant are army deserters. His Royal Highness has long been known for his love of the army.

MAN MISSING

DURANGO, Col. (AP)—Twenty-five motorists, rescued by a rotary snowplough from 20-foot snowdrifts which trapped them for 36 hours in Wolf Creek Pass, rested safely today, but George Willis of Buckeye, Arizona, who started on foot across the pass, had not been heard from.

De Valera Has Senate Majority

DUBLIN (CP)—As vote counting for 49 elected members of the new Senate of Eire was concluded early today, party officials estimated Prime Minister de Valera's party took 25 places to 24 for all other groups.

As the Prime Minister will fill 11 seats of his own nomination, he will have an opportunity of providing his Fianna Fail party with a substantial majority, even though it is difficult to define the politics of many of the senators elected today.

Total strength of the body, which replaces the senate eliminated by Mr. de Valera in 1936 as "obstructionists," is 60 members.

EX-GOVERNOR GIVEN GUARDS

Crowd in Ontario Legislative Buildings Menaces Dr. H. Bruce

TORONTO (CP)—Three provincial constables were called to a committee room in Ontario Legislative Buildings Tuesday to protect Hon. Herbert A. Bruce, former Lieutenant-Governor of Ontario, from an angry crowd after the private bills committee had turned down a proposal to allow osteopaths, chiropractors and drugless therapists to use the designation "doctor."

"The committee killed the bill after it had heard Dr. Bruce declare: 'I beg you in the interest of all sick people of this province not to do this iniquitous thing.'"

As the slight, white-haired physician left the small room which had been jammed to the doors, a group gathered around to criticize him for his strong opposition to the bill.

"You should have been hanged," was one taunt hurled at Dr. Bruce, who resigned last fall as Lieutenant-Governor, after serving since late in 1932.

The three constables pushed back the crowd and escorted him down the corridor to the office he formerly occupied as Lieutenant-Governor.

REGRET VOICED

Statements depicting the incident in which Dr. Bruce was nearly mobbed were issued today by representatives of osteopaths and chiropractors.

"No one deplores yesterday's incident more than we do," said Dr. V. Hoskins, chiropractor and chairman of the joint committee seeking the title "doctor" for their members.

"It was a very regrettable incident," said Hubert J. Pocock, speaking for the Ontario Academy of Osteopathy. "Undoubtedly it was some of the spectators who were annoyed by the breaking point because of the unfair evidence presented by Dr. Bruce."

British Debate Food Storage

One Plan Is to Have Big Grain Supplies in Canada If War Comes

LEEDS, Eng. (CP-Havas)—Storage of huge supplies of grain in Canada for British use in war time was proposed today as the best means of overcoming the threat of a food shortage.

The risk of bringing the grain to Great Britain in convoys of aircraft was less than that of aerial attacks on granaries in Britain, S. Lineham said in a debate on the problem at a Leeds Chamber of Commerce meeting.

He said large sums of money would be required to build in England granaries to hold a two-year supply, as was proposed by Alderman A. R. Brethrick. The following resolution, adopted by the Leeds chamber, will be submitted at the annual meeting of the Association of British Chambers of Commerce:

"The chamber desires to draw the attention of His Majesty's Government to the anxiety felt throughout the country at the prevailing uncertainty regarding the maintenance of regular supplies of foodstuffs in the event of war, and urges on the government the importance of satisfying the citizens of the country that suitably effective action is being taken."

Alderman Brethrick said "the silos in this country, even if they were full, together with the flour in circulation in the bakeries throughout the country hold less than a month's supply."

"Let us take an insurance policy in the form of storing the necessities of life, such as wheat and grain, within our midst for as long a period as possible, at least two years," he added.

Wheat Prices In Sudden Decline

WINNIPEG (CP)—No. 1 northern cash wheat price rebounded from a 10-cent advance yesterday and tumbled more than three cents as seaboard and overseas demand slackened. The futures market averaged lower to close 1/2 to 1% cents under yesterday's final prices, May \$1.23 1/2, July \$1.10 1/2, October 90¢ to 90 1/2¢.

Bearish cross-currents hampered May wheat three cents under opening prices of more than a cent. July and October futures were lower throughout.

Rains in central Kansas and improved moisture conditions in the United States and Canadian spring wheat belts encouraged selling in all North American markets and at Liverpool.

Liverpool closed 1/2 to 1% lower. Buenos Aires broke 1% to 1 1/2% cents at noon.

The skyrocket climb of cash prices yesterday evidently turned new business away. Only minor sales were reported. No. 1 northern slumped three to 26 cents premium. No. 2, four to 17 premium and No. 3, 1 1/2 to 4 1/2 discount as based on the May future price.

Coarse grains futures declined fractionally. Flax was neglected.

BONDS Gains Throttled By Late Selling Spree

NEW YORK (AP)—The bond market improved in spots today but further selling in rails and other domestic corporate issues kept the main trend on the downside. A few of the recent badly depressed rails rallied as liquidation dwindled.

Gains Throttled By Late Selling Spree

NEW YORK (AP)—A last-minute selling onslaught struck the stock market today and early rallies running to two or more points were substantially reduced or replaced with losses of as much.

The list encountered resistance to the comeback at frequent intervals throughout the day but, until just before the close, advances of fractions to a point were fairly well distributed.

Support was pronounced at the start when, in the first half hour, the ticker tape was for a time two minutes behind floor transactions. The dumping of impaired margin accounts brought a subsequent slip-up. The climb was then resumed at a slow pace. On the final sell-off the recording machinery was again a bit in arrears.

Transfers were around 1,700,000 shares.

Canadian issues moved erratically. Dome advanced nearly 1% and Distillers gained fractionally. Hiram Walker slumped around two, while smaller losses were noted in Lake Shore, International Nickel and Canadian Pacific. Canada funds slipped 1/2 cent at 99.43 1/2.

Leafs Win Way To Cup Final

Sports Mirror

FATE and fortune willing, Bill Dale, a modest young fellow with a pair of fancy legs, should hit his peak for the equivalent of the half-mile run in the 1940 Olympic Games. Back in town pending term reopening at Washington State next week, Bill has been working out under his regular coach, Archie McKinnon.

Those practice sessions have been balm to the 1936 Olympic coach's heart. "He's a sweet runner if I ever worked on one," McKinnon declares.

With a third place in the Empire Games last month, Dale has shown the potential class his coach expects him to bring to greater notice in high-grade competition within the next two years. In the Australian meet he ran against men who figured prominently in the Berlin Olympiad. Some of them, including New Zealand's Backhouse, came home behind the Victoria boy.

A competitive runner, Dale hits his fastest times according to the company in which he is running. In Australia he was clocked at 1:54 for the half-mile on grass. Now McKinnon hopes to develop him a little more along the pace lines, encouraging him to step the four 220-yard links in the half-mile chain at set rates.

At present he hits the four equal parts at a clip of 26 for the first, 29 for the second, 32 for the third and 27 for the home stretch. His objective this year will be a 1:50 half, which will put him definitely among the leaders on this continent. To do that he would have to cover the 220-yard stretches in 25, 28, 31 and 26 seconds respectively. And that, on the basis of his continuous improvement during the last couple of years, should be well within the realms of possibility.

Growing sturdier, with a better kick and a nicer driving rhythm when he needs it, he should meet that objective this year.

He may, depending on his University coach, Carl Schiedeman, try out for the mile, where his stride would stand him in good stead. But his best bet now still seems to be the half.

"We blew," says Jack "Comeback" Caddell in explanation of Hoyle-Brown's defeat by Kelowna in the senior B men's British Columbia basketball final.

Jack speaks little of the series in the interior. But if you press him, he'll blame Kelowna's P. Campbell for the locals' downfall. P. says Jack, figured out a way to split Hoyle-Brown's blocks after the first game, and the result is history as far as he is concerned. At the moment, Caddell considers the series the final chapter in his book of active basketball. Once again he'll have to go to court recently struck him as funny as Campbell's public apology to the referee after the Kelowna star had been chased off the floor following his assault on the official. But the real joke will come when Campbell gets the bill for cracking off one of the referee's front teeth, Jack thinks.

Angus "Scotty" McKay, flower-show, footballer and former fighter, is happy. "Scotty" saw (Turn to Page 12, Col. 1)

Beat Bruins in Overtime to Take Third Straight; Amerks Whip Hawks

Reconstruction doesn't often pay dividends so quickly as it has for Toronto Maple Leafs, who held the National Hockey League championship today as the culmination of a two-year new deal. It's the quality of the material that has made Leafs what they are, though, and whatever the other managers may try they'll have a hard time finding so lush a crop of youngsters as Conny Smythe has gathered. The outlook is altogether gloomy for anyone anxious to stop the Smythe forces in the next couple of seasons.

The best of the second-year men, Gordon Drillon, fired the winning goal last night as Toronto stamped to the N.H.L. title with a third straight victory, 3 to 2, over the mighty Bruins of Boston in overtime. The same Drillon decided the second game of the best-of-five series Saturday with a third-period goal that brought a 2 to 1 win at Toronto.

And George Parsons, just up from the minors, rattled in the only score when Leafs won the series opener at home. Syl Apps, voted most valuable rookie in the league last winter, helped Drillon get an early goal last night and aided him again on the winner. Another second-year player, Turk Broda, was a miracle man in Leafs' goal all through the series.

AMERKS BEAT HAWKS

New York Americans have come to within a step of Stanley Cup finals with Toronto through a rebuilding program of their own and more immediately through a 3 to 1 triumph over Chicago Black Hawks last night in the first game of cup semi-finals. Americans can qualify to meet the dashing Leafs by winning the second match of the best-of-three round at Chicago tomorrow.

But the Gotham club's plan of strengthening has been different. Manager Red Dutton has made Americans a contender by grabbing up veterans who had passed their peaks and making them a heady unit. It's a case of now or never with Dutton, for some of his stars are bound to slip away back next season. For instance Johnny Sorrell, who shot the winning counter in the first play-off game with Rangers and the winner again last night, was discarded by Detroit in mid-season after years of service.

Toronto began to make over last winter with the retirement of Goalie George Hainsworth and King Clancy. Jack Shill, now with Chicago, and Happy Day, were shipped by Americans to make way for newcomers last fall. But as the new blood poured in few foresaw quick development of a championship combination.

The sweep of the Boston series was as brisk and startling as the team itself. Highly favored beforehand because of five wins over Leafs in six scheduled starts, Bruins lashed at their power at the young machine and each time yielded to an inspired rally in the third period of overtime. Harvey Jackson, Leaf star, was out of the third battle with a sprained arm.

DRILLON NETS DECIDING TALLY

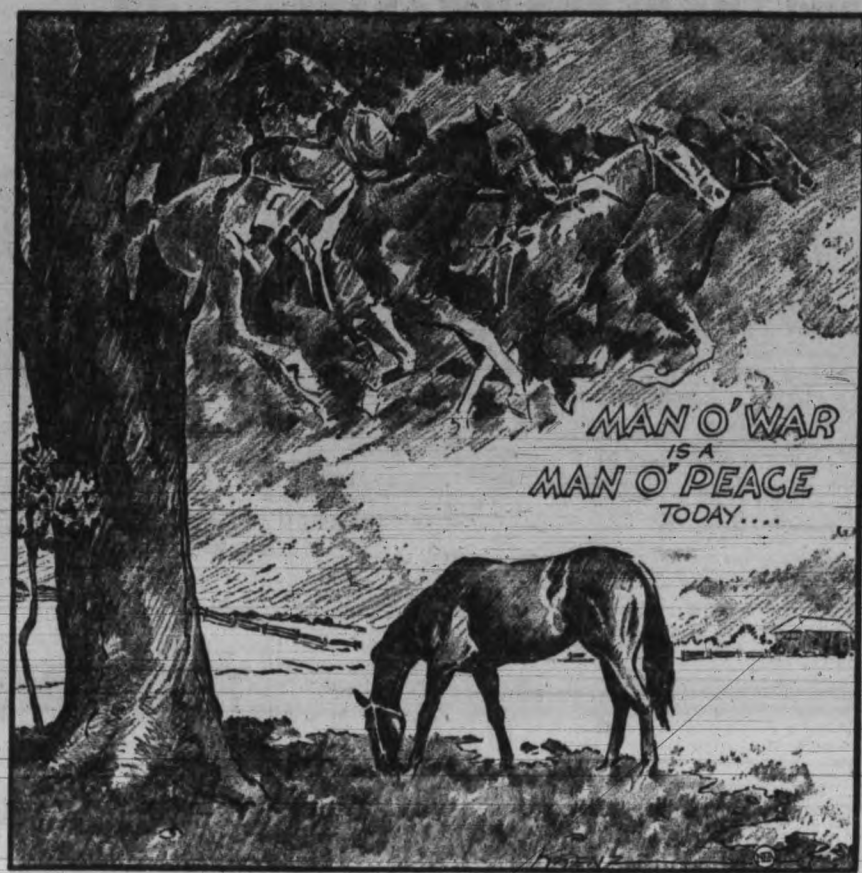

Again last night Eddie Shore, game warhorse of the "defence," led charge after charge on Broda's citadel. Three minutes from the finish he set up the play for the tying goal—Bill Cowley's (Turn to Page 12, Col. 2)

Victoria Daily Times

Father Again on Anniversary

LEXINGTON—America's turfdom paused yesterday in the midst of busy preparations for spring track "wars" to pay tribute to its generally regarded "greatest horse"—Man o' War.

But "Big Red," 21 years old yesterday, had to share the spotlight.

Several hours before a group of turfmen gathered to hold a birthday party for Man o' War, a bay filly was foaled by Brushup. It was coincidence she arrived on her famous daddy's anniversary, but she claimed more than ordinary attention because she is a full sister of Little War—Admiral, champion three-year-old last year and considered the outstanding offspring of Man o' War.

Union to Tighten Up on Rough Play

At a special committee meeting of the Victoria Rugby Union last night Ken Buxton and Tommy Dalzell, J.B.A.A. players, were severely reprimanded for their rough play in Saturday's game.

The players were let off with a warning, but the committee pointed out more severe punishment would be meted out in future cases.

Dalzell was ordered from the field for tripping, while Buxton was benched for high tackling by referee Bobby Poyntz in the Services-Bays game Saturday.

To Workout On Harry Thomas

Joe Louis Figures on Practicing For Schmeling Fight in Bout Friday

CHICAGO—Swingman Harry Thomas is going to serve as a double for the only man ever to stop the Bomber when he faces champion Joe Louis in a 15-round battle in the Chicago Stadium Friday night.

Louis revealed today that he is going to imagine that he is fighting Max Schmeling, so that he can prove a few things to himself and correct mistakes he made when the German knocked him out in 11 rounds two years ago. This will be his last engagement before a return match with Schmeling somewhere in the United States next June 22.

"I'm going after Thomas the same way I expect to go after Schmeling," Louis said. "Thomas has an awkward style. He does everything wrong. He fires his shell from any old place and knows nothing about boxing, but that won't stop me from practicing on him with some of the stuff I will use on the German."

The Brown Bomber therefore may be expected to blast away with straight jabs to the head and right uppercuts and right-hand punches to the body and head. He may not attempt to score with left hooks to the body until he is satisfied that he can hold his left hand high and jab straight with it.

Thomas, who boxes wide open, betrays his fists with his feet and usually waves his punches, figures to give Louis all the opportunity he wants to do any experimenting. Thomas's one chance of upsetting the titleholder is to take the skillful negro by surprise with a knockout crusher on his chin.

VINES BEATS PERRY

MINNEAPOLIS (AP)—Ellsworth Vines of California had his first real service working to perfection last night as he defeated Fred Perry of England in straight sets at the University of Minnesota field house, 6-3, 12-10.

Trail In Western Allan Cup Finals

Hand Flin Flon 5 to 0 Past in Deciding Game of Series

SASKATOON—Trail's flashy Smoke Eaters turned their eyes eastward tonight and their visions of winning the Allan Cup for British Columbia were stronger after their last night's 5 to 0 victory over the Flin Flon Bombers.

Trail qualified to meet Port Arthur Bearcats in the western Canada senior hockey finals, winner of which qualifies to meet the Eastern Canada champions for the famed cup.

Port Arthur won the right to meet Smoke Eaters by edging Red Lake Thunderbirds at Edmonton. The first game of the best-of-three western finals will be held Thursday at the Alberta capital.

Smoke Eaters went in front with two goals in the first period and added another brace in the second. Bombers looked good in the first session but failed to score. They didn't hit their stride in the second and third periods, and failed to break through Trail's sparkling defence and the goal tending of Duke Scodellaro.

The game was Scodellaro's second shutout of the Trail-Flin Flon series. In the first game the score for Trail was 6 to 0. The second game went to Flin Flon, 4 to 2.

In the eastern section, Quebec, Quebec, Falconbridge and Cornwall, Ontario, are still in the cup race.

Snooker Tourney In Third Round

Percy Fitzsimmons, crack snooker player, advanced into the third round of the city snooker championship tournament when he eliminated T. Wood after a pair of keen cue duels. Both played good games but Fitzsimmons proved superior, taking the first match 66 to 60 and the final game 52 to 43.

Other second round results follow: J. Grimond 1, C. Irish 2; R. Dunnett 2, F. Newnham 0; R. Lawrence 2, J. Beasley 1; C. Milne 0, T. Moore 2; W. Spaven 0, G. Grainger 2; J. Curtis (default), J. Ralston 2; L. Allen 0, H. Webster 2.

Third round draw follows: H. Webster vs. T. Moore, C. Irish vs. J. Ralston, G. Grainger vs. R. Lawrence, P. Fitzsimmons vs. R. Dunnett. All games must be played by April 8.

LIBERAL WORKOUT

Young Liberal football team, Intermediate League champions, will hold a workout tomorrow evening at Heywood Avenue at 5:15. All members of the team are urged to turn up.

ANNIVERSARY IS OBSERVED

Fanciers Gather to Celebrate Golden Jubilee of Victoria City Kennel Club

Memories of the old days in Victoria's canine world—back as far as 1888—were recalled by some of the oldest fanciers and breeders in the city last night when old-timers and newcomers rubbed shoulders at a successful banquet in Spencer's dining-room to celebrate the 50th anniversary of the founding of the Victoria City Kennel Club.

Many fine old stories reminiscent of dog shows in the years far behind were recounted by such well-known figures as Thomas P. McConnell, Frank Topp-Turner, Jack Creighton, John McIntosh, Dan Campbell and W. C. Lonsdale. Some of these held executive positions in the early days of the organization.

W. P. Bowden, president, was in the chair.

Tom McConnell, toastmaster, who has taken many a winning ribbon, said he believed that dogs of the past were as good as those of today, but not better. He had recollections of dogs 20, 30 and 40 years ago which would have beaten any today. But taking the breeds separately, he thought today's would be superior. Importation of dogs from England in the years past had improved the breeds considerably.

PRaises Old-Timers

He paid high tribute to the "Has Beens," as he termed the old-timers. "Those gentlemen," he declared, "have placed Victoria on the 'dog map' through their triumphs in the Pacific Northwest and the eastern States."

In opening, Jack Creighton hoped that the dog interest would be looked after in the newcomers' hands. He noted that in the old days fanciers and breeders did not commercialize on their canines. They bred them mainly for sport and pets. Today they were bred chiefly for commercial purposes.

Mr. Creighton emphasized the noticeable change in the breeds. He said it would be difficult for an old-time judge to pick the best of breed today. He thought there was too much favoritism in judging and believed it detrimental to the show business. Dogs should be judged on merit.

Frank Topp-Turner, the oldest member present, thanked all for their kindness and recalled some of the first shows of the club and wished the organization a long and prosperous future.

HERO DOG

"A dog is a dog no matter what breed it is. If you give it fair treatment whether it is a cur or a pedigree it will be your friend forever." Those were the words (Turn to Page 12, Col. 1)

Victoria In Great Comeback

Locals Rip Through Westerns to 51 to 33 Victory in Fifth Hoop Game

Waiting word from the wise men of British Columbia's amateur basketball, who will meet tonight to decide where the men's senior A series stands, Victoria's Dominoes rested today after smashing through Vancouver Westerns, 51 to 33, to avenge the drubbing they took in Saturday's protested fixture in Vancouver.

The series picture to date shows the Dominoes with two games, the first and last night's engagements, definitely to their credit. Westerns won the third game, an overtime fixture played in Vancouver, and outscored the Victorians in the fifth game, Saturday. The Saturday fixture has been protested and a decision will be reached on it tonight. The second game here was declared a draw at 34 to 34 after the teams had left the floor, believing Victoria had won.

It was a complete reversal of the week-end game as Hank "Schoolboy" Rowe, hotter than a smoking griddle, led a driving Domino attack that kept the over-capacity crowd in a constant roar from shortly after the first basket to the final whistle last night.

It was definitely the Schoolboy's night. Magic guided his hands as he looped the ball through for nine field baskets and three free throws for a total of 21 points. Snagging rebounds from half the unsuccessful Domino efforts, Rowe worked his jump pivot shot to perfection. Nothing could stop him.

HEIGHT BIG FEATURE

Sparked by the lanky high school star, the Victorians used their height to advantage, and the usually good smaller men on the Westerns' team could not handle the Domino onslaught.

The locals took the lead from the start. Rowe opening the parade and Art Chapman following before Bardsley found the hoop for Westerns' opening basket.

Taylor, Davies and Rowe boosted the margin to 10 to 2, with nine minutes gone. Held out from the basket, Westerns fired from a distance, and Willoughby, Dick Wright and Ross kept pace with Victoria counters as the score rose to 14 to 8. Art Chapman showed flashes of his old form to help the Capitals along, and shortly before the interval Dominoes led, 22 to 11. At half-time the count was 22 to 13, with Art Chapman and Jo-Jo Ross each packing three personals.

Scoring came fast after the rest period. Rowe and Chuck Chapman carried the tally to 28 to 13 before Bardsley countered a pair from the keyhole. Rowe sank a couple more and Busher Jackson found the range to lift it to 34 to 17.

Ross returned to play to loop through two quick baskets between scores by Rowe and Taylor.

ROSS IS BANISHED

A string of Western substitutes failed to halt the procession, and Victoria set up a 40 to 23 lead with nine minutes to go. Ross left on four personals with the count at 43 to 25, and Westerns (Turn to Page 12, Col. 1)

CAGE CAPERS

They used to mean Stamford's Luisetti when they referred to basketball's Hank. But as far as Victoria is concerned, the last name is Rowe today. And if the rangy, high-jumping pivot-shot artist gets that rumored chance of playing with Washington Huskies in the not too distant future, he may change the record books of the Pacific Coast Conference within the next two or three years.

At times he seemed to be shooting down on the hoop from above as he flicked in those nine field baskets that gave Victoria victory over Westerns.

Just to keep from getting cool and to try to make sure Victoria High School retains the provincial championship, the Schoolboy is scheduled to play against Vancouver McGee's this afternoon.

Hank skimmed the cream in the scoring columns, but he couldn't have made the impression he did if he had been given less support. Dominoes knew a good man when he was on and fed him plenty.

Chuck Chapman still keeps up his exceptional performances as guard, while brother Art is developing into a nice play-maker now his shooting eye is less accurate than it used to be.

Busher Jackson, the kid they brought up from Sons of Canada last year, is definitely establishing himself in the higher company. A lot of his long shots just missed last night, but he managed to sneak in four to be runner-up.

Crowding at the gym for play-offs is getting to be more than a joke. Those who buy standing room ducks must take their basketball seriously to put up with the inconvenience. A report went around last night that a woman had fainted in the press.

Little Art Willoughby, looking tired and far below his usual form, failed to click in the fifth game. His inability to score certainly was a factor in Westerns' defeat.

Incidentally, Westerns have been instructed not to protest. They are not blamed for Wednesday night's decision here. It appears goodwill is more important than basketball games to the men behind the club in Vancouver.

It was pretty evident last night that Westerns are largely a four-man team.

Basketball teams will have to add a lawyer to their personnel next year. A legal light would have been as valuable to the Dominoes and Westerns this year as a coach.

For a time it looked as though it would take two courts to settle the senior men's basketball title for 1938. The maple court where the boys do their sprinting and (Turn to Page 12, Col. 2)

ARMSTRONG IN TUNE-UP BOUT

To Meet Lou Feldman Tonight in Opening Heavy Campaign in New York

NEW YORK — Henry Armstrong, the dark bit of dynamite who rules the featherweights, takes on Lou Feldman at the Hippodrome tonight in a prelude match to one of the stiffest spring and summer campaigns any fighter ever faced.

After nearly three hours of debate yesterday, the New York State Athletic Commission issued the following schedule for Henry's summer time appearances, all of them in New York.

1. The sad-eyed negro will meet Barney Ross for the welterweight championship May 26.

2. If Ross beats Armstrong, he will defend his title against lightweight champion Lou Amberson July 26 and Armstrong will meet Amberson for the 135-pound title September 14.

3. Should Armstrong beat Ross on May 26 he will get a shot for his third title against Amberson July 26.

This boils down to the fact that Henry has one of the greatest opportunities in the sporty history of the ring. If he wins all three titles, he will eclipse the deeds of such stalwarts among the little fellows as Joe Gans and Terrible Terry McGovern.

ANNIVERSARY IS OBSERVED
(Continued from Page 11)

of Dan Campbell. He told a story that happened during the time he was working as a guide for the C.P.R. in the Canadian Rockies. The party he was acting as guide for broke a leg. Campbell fixed it temporarily with splints and then sent his dog 60 miles for help. The dog, well trained and obedient, brought back help in 42 hours.

Others who spoke briefly were: Dr. A. J. Garesche, W. Wigglesworth, W. C. Lonsdale, John McIntosh, Harry Woolston, D. D. McTavish and Howard Taylor.

Mrs. J. R. Clark, energetic secretary, was presented with a book bearing the minutes of the club meetings that date back to 1901 when the club, which was formerly called the Vancouver Island Kennel Club, became organized as the Victoria City Kennel Club.

Mrs. Clarke, Fred Dodsworth and Harry Dodd were thanked for arranging the affair, and Mrs. B. Noel contributed two fine songs to wind up a successful evening.

ROWE LEADS DOMINOES TO BLAZING VICTORY
(Continued from Page 11)

erns, lacking their one tall man, had little success trying to pick off rebounds.

Mayers raced through for a pretty basket and Westerns kept fighting, but they could not stop the dominoes.

Jackson boosted the count while Westerns tallied free shots to build their total up slowly to 31 before Beaton scored the last basket, after Wright had left on four personals, to make the count 51 to 33 at the gun.

It was as great a comeback as a home-town crowd could ask.

SPORTS MIRROR
(Continued from Page 11)

"Snow White and the Seven Dwarfs," and discerned in it a tribute to referees. "They sang a song about them," chorled the Highland horticulturist, "Whistle While You Work." (That should qualify him for the poison apple.)

WIN SHOOT HONORS

BISLEY, England — South Africa won the King George V Trophy for miniature rifle shooting for boys of the Empire.

For the eighth time, it was announced today, the South Africans had won, their score being 56,847 points out of a possible 100. The United Kingdom scored 82,484 and New Zealand 77,133. Canada, Australia and India did not qualify.

The United Kingdom won 174 silver and bronze medals for individual high scores, South Africa 122 and Canada 65.

COWICHAN GOLF

DUNCAN — H. C. Hanson, with a score of 80, was medalist on Sunday in the qualifying round of the championship at the Cowichan Golf Club. There were 20 entries, 16 of whom qualified for the championship flight, as follows: H. C. Hanson, David Crane, Oscar Drobb, Percy Chambers, A. S. Irvine, Clayton Wright Jr., Dr. V. W. Tarlton, Norman Martin, N. E. Suddaby, R. C. Mainguy, James Martin, Stan Tombs, C. C. Wright, G. L. Mortimer-Lamb, A. E. Craig and Roy Haines, the eight eliminated to form the first flight. In the second flight H. R. Punnett plays R. E. Balis and F. R. Gooding plays Dr. G. K. Hobson.

Words Fail Jersey Jim When Honored

PHILADELPHIA (AP) —

Jimmy Braddock, former heavy-weight champion, last night was named the "most deserving and courageous boxer" for 1937 by the Veterans Boxers Association.

Braddock, who retired after his victory over Tommy Farr several months ago, was the first to receive the award that will be presented annually by Leon Rains, former promoter, and the association.

Jimmy received the award at Convention Hall before nearly 4,000 diners, including Jack Dempsey and many other past and present celebrities of the ring.

All Jimmy had to say when his name was announced was "I don't know what to say. I—I—" then he sat down.

LEAFS WIN WAY TO CUP FINAL
(Continued from Page 11)

second of the night—and he was still driving the Bruins when Biggo Kampman started a play that Apps and Drillon carried through to completion after 10 minutes of overtime.

Drillon, whipped home Apps' pass early in the second to put Toronto ahead 1 to 0 and, after Cowley clicked for Bruins as the third began, Pep Kelly put the visitors up again with Parsons' aid. Then Shore gathered steam.

Time after time he sparked four-man and five-man drives and finally, when those failed, he took a facelift near the Leaf goal, won it and passed to Cowley. Bill smashed at the puck and it caught an upper corner behind Broda to send the game into extra time.

Goalie Tiny Thompson didn't see Drillon's pay-off marker. Apps picked up the puck as Kampman dropped it at the Bruin blue line and whipped it to Drillon flying along the right boards. The Moncton meteor's shot sped through a group of players before the net.

Long Jawn Sorrell has been second only to Drillon among play-off heroes, yet early in the season Detroit had him playing with its Pittsburgh farm club—and Detroit never got out of last place in the big league. Another Red Wing castoff, Red Beattie, helped unobtrusive Johnny to the deciding goal last night, Sorrell's fourth score of the play-offs.

CAME FROM BEHIND

Carl Voss converted Roger Jenkins' pass to give Chicago a first-period lead and big Nels Stewart levelled the score in the second by punching in a forward pass from Lorne Carr.

Sorrell's money drive came four minutes from the end, when Beattie darted behind the goal and emerged with the puck. Less than a minute from the finish Sweeney Schriener added American's third goal, to make their win so impressive the fans decided Hawks wouldn't be back for a third game Sunday.

CAGE CAPERS
(Continued from Page 11)

the Supreme Court, where the technicalities would be debated.

The Canadian Press sent out a story last night, which makes it appear that Dave Nichol, coach of the dominoes, won some kind of an argument.

The C.P. quoted Dave as telling the commission appointed by Walter Hardwick to climb down in respect to its gate receipt activity. The story said Nichol threatened to keep the doors locked unless—

Well, they settled the issue.

Johnny Johnson, president of the club, today explained the dominoes had just followed the ruling of the basketball authorities, which leaves gate arrangements with the home club on the understanding it gives an accounting within seven days after the game.

"We were carrying on under their own constitution," Johnny said.

However, all you need on the floor is a sharp-shooting school-boy like Hank Rowe and they won't need any judges or commission. Legal arguments aren't worth potato salad against the kind of baskets Hank was netting last night.

Former Yankee Co-owner Dies

BRUNSWICK, Ga. (AP) — Col. T. L. Huston, former co-owner of the New York Yankees Baseball Club, died at his Butler Island plantation home here yesterday.

Col. Huston, 71 years old, was part owner of the Yankees with Colonel Jacob Ruppert and he was instrumental in bringing about the deal that landed Babe Ruth with the team.

Brick and cement are in great demand in Shanghai, as the Chinese attempt to rebuild the war-torn city.

MURDIE HEADS SWIMMING CLUB

Elected President of Pacific Swimmers; Good Reports. Are Made

George B. Murdie was last night elected president of the Pacific Swimming Club at the annual dinner meeting held at the Crystal Garden.

Other officials elected were: Alan McLean, honorary president; E. B. Honor, vice-president; Mona Bradford, secretary-treasurer.

Reports on the past season's activities were presented and the retiring officers thanked for their fine work in the interests of the club. Plans for the coming year were discussed and tentative arrangements for important events were made.

Dinner guests included Alan McLean, Mrs. B. McAllister and C. E. Hopper, official of the Vancouver Island Swimming League. Ernie Crockford entertained the gathering with an exhibition of magic.

Patrick Praises All-star Choice

NEW YORK — Lester Patrick, chosen coach of the Canadian Press eighth annual National Hockey League all-star team, yesterday commended the "great mythical squad" selected by the sports scribes.

"All-star clubs are something you can not judge because you can not envision them in action as a unit," said the Silver-Fox who returned as mentor of the "dream team" after giving way to Detroit's Jack Adams for one year. "But let any coach work with that bunch of players for a while and they would go a long way."

Patrick, who saw his Rangers eliminated from the Stanley Cup hunt by the Americans, their Manhattan rivals, said the sports writers showed excellent judgment in the selection of both first and second teams. He admitted the first team did not correspond exactly with the selection he has made for a magazine but refused to suggest any improvements.

Duke of Windsor Donates Trophy

LONDON (CP-Cables) — Arrangements have been completed for a playing tour in London and Paris in April and May by Montreal Canadiens and Detroit Red Wings, Armand Vincent, Montreal promoter, announced last night.

Vincent said the Duke of Windsor had presented a cup for the Paris series.

The sanctions of the British Ice Hockey Association had been obtained for the games in London, while the French Hockey Federation has approved the Paris games.

The teams will be composed of 22 players, in addition to managers Cecil Hart and Jack Adams, and will sail from Halifax in the Ausonia, April 9. The first game will be in London, April 23, followed by games in Paris, April 25, 27 and 29. Then there will perhaps be several games in Brussels, followed by a series of three games in London.

SNOW WHITE and THE SEVEN DWARFS in person at THE BAY...

Snow White and her friends, the Seven Dwarfs, will be at THE BAY in person, Thursday at 4 o'clock. These famous little people whose storybook adventures have charmed children of all nations for generations will arrive in Victoria at 3.15 p.m. They will be whisked away to the City Hall to meet His Worship the Mayor, and then to THE BAY, where, at 4 o'clock they will begin a tour of every floor in the store.

Bring the children to THE BAY, Thursday, at 4 o'clock. Let them see the living, breathing, walking, talking people whose visits have proved a sensation in New York, Montreal and Vancouver... Take them to The Capital Theatre to see one of the greatest movies of all time—Walt Disney's technicolor production, "Snow White and The Seven Dwarfs".

NOTE TO PARENTS—The presentation of these characters is made possible by the use of eight superb masks, but the youngsters will enjoy them more if you keep this a secret.

See the O'CEDAR Demonstration at "The Bay"

Thursday, Friday and Saturday, in the Housewares Department, Third Floor.

Be sure to see this interesting demonstration, and find out the numerous advantages of O'CEDAR products.

"Muzz" Scores As Ramblers Triumph

PHILADELPHIA (CP) — Philadelphia Ramblers, second-place club in the eastern division of the International American Hockey League, defeated New Haven Eagles, third-place club, 2 to 0 last night in the opening game of a two-of-three playoff series.

Bill Carse and Murray Patrick scored.

REACH FINAL IN IRISH CUP

BELFAST—Bangor and Belfast Celtic were returned finalists for the Irish Football Cup today. In semi-final replays Bangor defeated Derby City 3 to 1 and the Celts eliminated Glenfortran from the competition by a similar score.

Last Saturday Bangor and Derby City drew 2 to 2 and the Celtic-Glenfortran tilt ended 1 to 1.

VICTORIA, B.C., WEDNESDAY, MARCH 30, 1938

Classic Tailleurs Are "High" Fashion

The classic suit, in slimly molded tailleur styling, becomes the costume suit for spring, 1938, by a "quick change" formula that brightens it with a gay jacket, makes it more youthful with a pleated skirt, or formalizes it with dainty lingerie blouses. Basic in the wardrobe of every woman, the simple two-piece suit is shown with or without topcoat of matching or blending color. It is the new costume suit, distinguished from the costume ensemble of dress-and-coat combination.

Types of suits most popular include the very trimly tailored suit and its many variations in mannish stripes or softly fitted woollens. The reefer suit with long fitted topcoat promises to be a favorite, especially with young fashionables. Smart feminized suits that button neatly up the front between rows of amusingly placed pockets, are also popular, and are topped often with the new slim swagger coats which may be used for separate coats.

FUR TRIMS FOR FIRST SPRING DAYS

Rippling with soft fox collars, first spring suits have topcoats over fitted two-piece suits. Soft rolls of fox or lynx are used entirely down the front, in double tuxedo effects, in many smarter versions. Other collarless coats have rows of fur on the sleeves, giving interesting variation to the slender silhouette. Badger, white wolf, and lynx vary the furs used, but pastel foxes blended to match with spring woollens look newest and most flattering in soft cadet blue, pinky-beige, tawny yellow and other lovely colors.

TRIM "NEAT" SILHOUETTES FOR SPRING

Sleeves and shoulders molded, waistlines trimly fitted or disappearing behind slim straight coat lines, the spring silhouette in coats and suits is decidedly neat and feminine. Collars are often the merest shadows of their former voluptuous selves, with slim bandings or braidings; quilting or silk edging take the place of other collars. Nothing disturbs the slim molded look of the silhouette in new costumes, for pockets are placed beneath flat slits or flaps in ornamental fashion, and often are but for ornament's sake. Belts have been abandoned on many of the spring coats, as if these, too, might disturb the neat trim look of the spring, 1938, silhouette.

CAPIES GO MILITARY OR SWAGGER

Hanging in slim precise lines from squared shoulders, the new capes have a military look that is new and young in effect. Swagger capes, often with fur collars, are smartly worn over matching or contrasting suits, and are usually of the roughish tweeds or mesh-like new woollens to give a soft swing. In extremely dressy versions, the cape ensemble is collared with bands of blending fox, and often has softly shirred shoulder lines.

Even more colorful than the spring suits, the cape costume blends and matches its colors, with daring linings or bandings to add dash and youth.

Late Easter Brings Gay Summery Fashions

Muted Rainbow of Color Sets Youthful Mode

With the promise of a late Easter, with warmer weather, the Spring Fashion Parade gets under way in spirited, colorful clothes. As the Easter Fashion Parade is the climax for all spring planning, smart women everywhere have early turned their attention to the colorful young clothes that will carry them into the Easter season.

"DRESS UP IN CASUALS"

Americanized and beautifully wearable, the new spring fashions are casual in a dressy way. Slim and easy-to-wear coats and suits contrast with gay swirling frocks and fly-away streamers or veils on flower-decked hats.

Colors, too, are both dressy and casual—casual in their nonchalant blending or contrasting of unique combinations, dressy in their muted softened tones. Black comes forth as an aristocrat of fashion, but is made lovely and flattering with light touches of pastel colors. Navy, by far, leads the spring parade, but here, too, it is a gayer, brighter navy—definitely youthful and wearable.

TWO SPRING SEASONS IN FASHION

A later Easter in 1938 also gives the woman of fashion opportunity for greater variety in her spring wardrobe. She will vary her "suit uniform" for early spring with many extra blouses, sweaters, skirts and jackets that turn her suit into a whole wardrobe of suits.

For later spring wear, smart women will find the gay new dresses irresistible. Casual enough to be worn under their suit topcoats, they are youthful and flattering enough to be worn under the dressiest of spring coats. Many lively pastels and flower prints on both dark and light grounds, vary the fashion picture.

For the woman with more limited wardrobe, the two-season spring will be varied by the clever variety in her accessories—and of these she will have many, many "sets." Quickly varying her costume, she will wear simple tailored accessories for morning or business wear. For luncheons and afternoon functions she need only add a more frivolous flower, a soft petal pink blouse or collar, change her jewelry in harmony, and wear a more frivolous flower-trimmed hat. Even the sports costume may be assembled by a miraculous change into appropriate shoes, rugged gloves and handbag, tailored skirt and classic hat.

Tiny little hats, often flower trimmed, that tip forward on the head, are often not given a size. They don't need it the way they are styled and worn.

Fur Neckpieces

In a season whose fashions put strong emphasis on beauty, you'll wear a fur neckpiece or cape for its beauty appeal.

- Silver Foxes, all shades.
- Superb Sables.
- Russian Stone Marten.

You'll approve both our quality and prices.

Lingerie Blouses Dress Up Suits

Lacy Sheers Worn in Muted Pastels

To bring femininity and alluring contrast to spring suits, fashion offers the new lingerie blouses in an exquisite range of pastels or off whites. Lace insertions and jabots, ruffling collars and gilet fronts give the desired feminine touch to immaculately tailored suits. Equally popular and especially smart with tweed suits, the simple shirt blouses also come in lovely pastels. These are striking in black or dark shades, worn with the lighter "oatmeal" beige or grey suits.

CHINESE WAISTCOATS IN FITTED LINES

Among the overblouses most popular are new fitted styles with simple stand-up collars borrowed from the Chinese coat. Elaborately frilled with jabot fronts, or simply made with yoke and buttoned detail, these are perfect suit blouses. The classic overblouse, with gilet interest in tuckings or lace insertions, is also worn.

More details in sleeves, yokes and backs give added interest to spring blouses. Bodices are slightly shirred, tucked or made with soft drapings in dressy styles. Elbow sleeves are most popular, but the long-sleeved lingerie blouse with dainty lace cuffs or simple shirt links, is decidedly smart looking.

DRESSMAKER BLOUSES FOR DRESSY SUITS

More attention is given by smart women to the dressy blouse this season as a complete change from the simple shirt blouse or tailored types. Sweater blouses with molded hiplines, and short jacket types for women who dislike tuck-ins, are also worn. Many are sashed to wear with bolero suits or short boxy jacket suits.

There is a great demand for rayon crepe skirts, especially skirts with soft front fullness, to complement the Gibson Girl blouses.

Have You Heard...

That ears are out in the open again—and always go jewelled of an evening?

The rustle of taffeta in black afternoon suits flattered by the new pet—pink?

That Paris is donning its corsets on top instead of under—with results devastatingly smart?

Of the nontransparent, flower-printed crepe veils through which you can't even see darkly?

That tweeds aren't sticking to their colors this season—but running amok through the spectrum?

Spring Hats Have Light Weight

Spring hats for the new season are designed for men of all ages. They have style, grace, snap and dash... they combine new colors with fabrics that are lightest in weight. Snap-brims are the big feature, with their wider brims and lower crowns.

Homburgs for spring wear have a dignity for business and formal wear, but appeal to youth in that they can be snapped down. All hats are designed to fit the wearer... complexion, face contours, suit fabrics and colors. Spring hats also feature fabrics that are resistant to the drizzle and rain of the season. Materials have a softness and rich quality that lend the required air of "casualness" to spring suits and topcoats.

METALLIC COLORS NEW

The new mistiness of spring hat colors adds to this casual effect. Dull, dust greens and greys, powder blues, taupe shades and all shades of grey have a dull sheen and metallic tone. Worn in combination with the new suits and topcoats, spring hats blend well in both their style design and colors. The sportiest hats are worn to business and in the city this spring, and all have a flare for color.

From Paris we hear that the shortest skirts so far are 17 inches from the floor. But for average height, midcalf is 14 to 15 inches from the floor.

The short wrist-bone gloves in pale color leathers, employ hand-sewn doeskin with leather tassels to stress the softly slashed V cut.

Elegance, distinction for formal functions; chic simplicity for occasions informal. Shall we expect you tomorrow!

The product of leading designers and manufacturers, Tervo fashions are distinguished by markedly superior workmanship and fabrics and Paris-authentic styling.

Spring Frocks Swirl Gaily Into Colors

Ballerina Skirts New; Slim Frocks High Fashion

Dame Fashion says, "Take your choice!" and offers an array of the gayest frocks seen in many seasons. Slim, sophisticated and ultra-smart looking, molded dresses continue the choice of many smart women. Swirling and pleated, with tiny peasant basque tops or daintily low-necked bodices, the newer "ballerina" dresses have taken the younger set by storm.

Prints in a gay array of colors, pastels with dainty matching trims, or the ever popular navy and black, give a color picture for spring into which every woman will fit perfectly. For never has fashion given us so many individually styled and colorfully flattering dresses to choose from.

BOLERO FROCKS FOR EVERY WOMAN

Youthful, yet slenderizing, and so flattering, the new spring bolero frocks, are a fashion favorite everywhere, with every type woman. Bright blouses and sashes give color to these dark bolero frocks; dainty lingerie tops give lovely flattery to other styles. Pleated skirts are favored in many younger versions.

Fitted with boxy jacket frocks, which are often merely variations of the popular bolero theme, are also shown in gay variety for spring. Many of these have colorful bandings, or pastel lingerie trims, and are extremely wearable.

REDINGOTES IN GREATER POPULARITY

Never have redingotes been so popular. Plain dark wool or silk posed over bright printed frocks, or dark printed redingotes over contrasting frocks—they are one of spring's most basic and adaptable costumes. Collarless, with simple sleeves and almost untrimmed lines, the new 1938 redingote may be used over many different dresses with smart effect.

Bolero redingotes, with separate dark fitted skirts, are a revival which will see much popularity this spring. They may be worn without the skirt, or without the bolero, giving extra variations to the costume.

PASTEL SHEERS NEW FEMININE FASHION

Sheer frocks, trimmed with shirtings, insertions of matching pastel lace, or fagoting in deep yokes, are a new spring fashion expected to go right into the Easter season. Colorful and youthful, yet soft and flattering because of their "muted colors," these dresses are smart for old and young alike. Lace trim necklines, lace ruchings about the high youthful sleeves, and lace collar and cuff trims vary the styles offered.

Tucked dark sheers, daintily trimmed with pastel lingerie or ribbon edgings, are another fashion which will go right into the Easter season. Many of these have the tucked effect woven into the fabric; others are tucked by machine in intricate and expensive-looking details.

PLEATS! FAN PLEATS! TUCK PLEATS!

Wherever spring fashions are seen, pleated frocks are there also. For never has there been

such a fan flare in pleats! Tucked pleats in wide skirted frocks, fan pleats in both skirts and bodice, and plain box pleats stitched in trim fitted hiplines—every variety of pleats is seen in spring frocks. And while they are a younger fashion, pleated dresses will be worn by women of all ages in their more simplified versions.

PANEL PRINTS GAY NEW FASHION

Inspired by the peasant frocks of Hungary, the new striped prints are brightly sprinkled with flowers or conventional motifs. As the newest version of the mode, for stripes, they look new and wearable. Many of these are so designed that they follow the lines of the figure, in slenderizing effect. Clever uses of panel prints in dresses give us many new stripe effects without the bizarre look of stripes.

Lacy medallion prints, braid patterns, photographic flowers, embroidery designs, and flowers in both conventional and realistic effects splash gaily through the spring print mode. And very new looking are the prints on

Paris Cables Colors For Spring Ensembles

Blues Lead, Rosy Hues Vie With Beige, Greys

Navy comes forward to lead the spring parade, with banners flying. But marching in smart lines also comes an array of spring colors, gay in rosy hues, softly flattering in beige and greyed tones. Here and there a sprinkling of purple or soft violet, and here and there smart sophisticated black.

Distinctions between daytime colors for general wear, and "town" colors give us a greater variety of spring hues this year. Decidedly smart for city and town costumes, navy or black are touched with exotic pinks or flower pastels. A whole range of tans and beige tones, grey and cadet or bright blues are seen both in town and country.

BECOMING BLUES, EXOTIC PINKS

Topping off the basic costume colors for spring, lovely soft blues and gay bright pinks are used in scarfs, blouses, flower trims and hats. Blues that tone with their accompanying navy costumes, rosy pastels that tone with their accompanying costumes of navy or darker rose or black, all set a varied picture for spring. Stone blues and sunny pinks, soft beige and pale greys are also used for highlight with darker costumes.

SUNNY COLORS FOR SPORTS WEAR

Borrowing from the dusky hues of Mexico, and the bright scarlets and yellows of the South Seas, spring fashions in sports wear are vivid and spirited. Prints in every conceivable combination have motifs as quaint and rustic as Mexican pottery, or as gaily floral as a tropical garden.

PRINTS ON COLORFUL GROUNDS

Looking very fresh and youthful, the new spring prints in dresses, scarfs and blouses, come in bright scattered flowers sprinkled over dark blue or colored grounds. Bright blue with navy, white or pastel flowers, is a new combination well liked, and when posed on black grounds, these bright blues and pinks are exceedingly smart.

"Sun" Colors New in Hats

Following the mode for sunny colors, the new straw hats come in a gamut of lovely warm shades. The range runs from deep yellow to copper or real orange tones; marigold yellow and toast tan are other new shades seen.

Many new spring hats will follow the mode for pastel accents against dark costumes. Light blues in turquoise, sky blue, or misty blue will be worn. Many flattering pinks, ranging from soft tints to gay "shocking"

pink, will be worn in gay toppers this year.

White for hats will become more and more popular with the approach of summery weather. Much white is expected to be worn in hats with white costume accessories. White trimmings on red and green or blue hats is a new sports-fashion which is suggested for wear with daytime suits in navy or black.

"Orchard Make-up" For Spring Loveliness

At this time of the year you are apt to wake up of a morning with an insatiable longing for fresh peaches or strawberries. A novel idea for satisfying this craving is suggested by Helena Rubinstein, who is featuring "Orchard Make-up" for springtime loveliness, designed to give your face the freshness and sweetness of an orchard in bloom. It consists of her orchard-colored cosmetics, town and country make-up film in the Peachbloom shade, Peachbloom face powder, Red Strawberry lipstick and nail groom, Peachbloom rouge, and blue-green eyeshadow and blue-green mascara, reminiscent of orchard leaves, and finally Herbal Eye Tissue Oil which is applied on eyelids for a chic sheen redolent of dew on orchard blossoms. Incidentally, this new Orchard make-up is the perfect accent for the new pinkish and bluish costumes.

The Comings...

LITTLE FINGER RINGS—Jeweled spike finger nail—designed by Chanel as the third in a series of graduated little finger rings—rhinestones set in good metal.

RED WITH BEIGE—For afternoon. You in a beige silk dress, belted in red suede to match your red suede bag.

FEATHERED LEIS—Black and powder blue ostrich feathers. To be worn with very naked black evening gowns.

PAISLEY SEERSUCKER—New for summer evening gowns.

COBWEB STOCKINGS—Nuder than nude cobweb stockings designed by Schiaparelli—without any reinforcement anywhere at all.

PANCAKE BAGS—Two of them in different sizes—strung on a leather strap for your tailored daytime clothes.

FLOWERED CHIN STRAPS—An enormous red rose attached to a wide gold ribbon worn about the throat for romance.

The jabot lingerie blouse is a necessary suit complement. The style of the suit determines the length of the jabot.

Race-track Suits Come to Town

Young Crowd Favors New Bold Checks for All-round Wear

Boldly checked, and very sporty with their mannish tailoring, new casual suits and topcoats might have come from any ritzy racetrack to "do the town." Worn with simple mannish shirts and matching ties, or with striped scarfs and bright fitted vestes, they have gay appeal to the young crowd.

Plain skirts are often used to modify the suits, and also give variety in the wardrobe. In others, plain Norfolk jackets or simple British tweed jackets are worn with bold plaid or checked skirts.

Hats worn with these suits are rakish, high crowned and worn with a swagger on one side of the head. A few smart young women wear a pushed-back beret, or a roll brim brette with their sports suits. Vivid accessories, or simple dark accents are worn, depending upon the wearer of the occasion.

Sweaters in new blouse styling, or the simple classic types, make perfect tops for these suits. And new colors in sweaters have been carefully matched to the new tweeds, so that many lovely combinations may be worked out. The vogue for matching skirts and sweaters with contrasting jackets is expected to spread rapidly.

Fashion Foibles of Parisian Couturiers

Chanel revolutionizes the silhouette with a full skirt, full sleeves, tiny waist.

Paquin puts it in black and white—and goes to the zebra for his stripes.

Maggy Rouff makes much of wandering waistlines—ascending, descending, never static.

Schiaparelli devises clown-caps and circus-prints to delight the merry-minded.

Vionnet goes poly-color, in boleros by day and fairy-tale frocks by night.

Lavin robs the flower garden to tie on your head with streamers of fluttering chiffon.

Mainbocher waxes romantic with pailletted tulle and ostrich muffs for spring evenings.

Molyneux goes definitely pre-war in long-fitted jackets and quaint veiled-sailors.

Alix lapses into the Victorian manner in tucked and be-ribboned organza for dining and dancing.

Patou—Lelong—Heim—Creed are names synonymous with stripes.

Easter Suits

FIRST in fashion importance this spring are Suits... and this store's presentation is complete. The tailor with a single link button, the two and three-button coat, double-breasted effects; suits of tricotine, Bedford cord, worsted, flannel and imported tweeds. Others include the cape and bolero types, dressmaker models and three-piece jacket effects. The color range is as widely diversified as the styles are different.

Tailored Suits are from \$12.95 and on up to \$39.75 for three-piece styles.

THE LARGEST SELECTION OF FURS IN THE CITY

EXCLUSIVE FURRIERS FOR OVER 45 YEARS

Hats and Shoes in Stellar Style Roles

New Highs In Spring Footwear

Glove-fitting, the newest spring shoes have slenderizing high lines in front or back. Cut-out effects and open toes are seen in many smart places and promise greater popularity as the season advances.

Color in shoes, in deep rich shades, or the brighter leather tans, is a spring fashion observed on many smart feet. Matching or blending shoes with other accessories has brought these rich colors into prominence. Pastels are already being worn when warm weather permits.

SUEDE, GABARDINE SMART

Many suede shoes are seen this spring. Cut-out and soft toes are especially good in suedes, as are the new glove-fitting lines. Blue is well liked, and the new "spice" browns. Grey and beige may be worn with lighter costumes.

Gabardines, especially in navy and black, are very smart in spring shoes, matching handbags as they do and blending with suit costumes beautifully. Soft lines, new this spring, are adapted to gabardine—especially when leather trimming is used to accent the trim lines of the foot.

SHOE STYLES VARIED

Dressy or tailored, sporty or formal, the spring shoe wardrobe must include many styles to be complete. Simple kidskin shoes or trim gabardine and patent combinations are liked with suits; dyed suede harmonizing with many costumes and reptile shoes in both dark and light colors, are among spring favorites.

Interesting is the use of sporty leathers for more formal shoes, and of the formal styling in sporty shoes, giving great variety and wide choice. However, with a "lady-like" mode this spring, the smart woman will look to her feet carefully, and select the styles in shoes which go with her costumes correctly.

The smaller look of spring shoes encourages the selection of new butterfly or wing pumps, sandal styles.

Stores Show Gay Attire For "Little Show-offs"

Not to be outdone by the grown-ups, small fashionables are appearing in smart little suits, collarless fitted or swagger coats, swaggy capes, and gay print frocks—oh, quite, quite like those that mother wears. Stores have given special attention this spring to stocking these styled costumes for their little trade!

New, yet different, are this year's suits for children and girls. They borrow the smartly tailored lines of grown-up styles, and appear in the same soft tweed colors. Checked or plaided jackets give gay variety to many of the suits. And for very little girls suspender skirts with bolero jackets are a favorite suit combination.

SISTER FASHIONS GAIN FAVOR

It is inevitable that little sister should dress exactly like big sister this year, for it's the smart thing to do. Tugged alike in new peasant frocks in identical prints,

Swing Brims Give Lilt To Gay Spring Hats

Ups and Downs of Brims Accented by Veils, Flowers

Says Paris: "Tilt your hat gaily," and proceeds to create a whole new mode of spring hats that do entirely new, and unexpected things in brims and crowns. Highlighting the spring costume, these hats appear in lovely new pastels as well as navy and black. Flowers, ribbons and veils give an air of youthfulness and feminine charm.

"SUIT HATS" BEST IN SAULS

Borrowing a bit of the jaunty spirit of the 1920's, the new 1938 sailor hats are worn with spring suits. Higher box crowns, straight brims of rough new straws, they are tailored yet feminine and flattering. Chenille dotted veils fly away airily at the back, or tie in demure bows under milady's chin.

Other hats liked with this year's suits include the many new padded pillboxes and roll brim styles. Small and neat in appearance, they have a gay color contrast in wrapped bandings or chiffon scarfs that sometimes drape about the neck. New berets in soft, puffy styles are also perfect with suits, and off-face hats are liked by younger fashionables. Derby hats and postilion straws, as well as classic felts, are the choice of many women for their suit costumes, because of their simplicity.

MEXICAN SWAGGER IN NEW BRIMS

With peaked crowns or softly rounded tops, the new Mexican sombreros appear in felts and light straws. Banded gaily in bright braidings, or leather trims, they may have fly-away scarfs at the back, or jaunty chin straps. New Mexican colors, popular in blouses and accessories because of their bright yet deep-toned hues, are used in the scarfs or trims of the Mexican roller hats.

HATS ENSEMBLE WITH COSTUMES

Bright printed turbans, launched by Paris and worn on the Riviera, are now the popular choice of many smart women for spring. Often matching scarfs or blouses, or even dresses, are worn with these softly draped print

Sunny Colors In New Hose

Looking to an important shoe and leather season, new spring hosiery comes forth in sparkling colors that have an undertone of softness to blend with the costume colors. Many new "sunny" hues are smart with dark costumes, including tan and coppery tones, as well as the more usual beiges.

Taupe tones, ranging from taupe-beige to a rosy grey hue, are sponsored for wear with navy costumes, but many will prefer the contrast of sunny hosiery colors. Light coppery colors are considered best for general wear, blending with navy, black, or the new range of greens anticipated for spring wear. Stockings with overtones of soft rose or blue are suggested with print frocks or navy, as they blend well.

with four pockets and Peter Pan collars.

"MOVIE STARS" SET FASHIONS

Following in the footsteps of their favorite child stars, many little girls wear frocks and coats exactly like those worn in the movies. Deanna Durbin sets the pace this spring with boxy suits in casual styling. Shirley Temple sets the pace in frocks and coats designed to display the charms of every little girl. Even play frocks must have the right lines to please these style-conscious little people. Dimple prints, princess frocks, and swirling gored frocks all have the glamour which this year's little miss demands.

A large bonnet type of black shantung is very chic, with an embroidered blue ribbon drawn through the crown and tied.

NEW CRUISE BEAUTY BAG

If you are week-ending or cruising and want to look fresh and lovely every minute of your journey (which we know you do), then by all means invest at once in one of the new cruise beauty bags. They are marvelously complete and luxurious without being too bulky for convenient packing, as modern as the latest modes of travel.

They carry eight full-sized, non-spillable jars of renowned beauty preparations for a quick pick-up treatment and make-up, as well as for a regular corrective treatment—all fitted snugly into individual compartments on a narrow removable tray that slides out easily so that you can set it on your breakfast tray or dressing table. Very thoughtfully, too, there has been included for your manicure a nail file, cuticle pusher and scissors. Moreover, they have a large removable mirror, pockets to hold odds and ends of all sorts, and so roomy they can serve as a weekend carry-all if you like, with ample space for lingerie, pyjamas and overnight

accessories. They come in black or brown alligator-grain fabrikoid that's decidedly smart, and the beige lining is washable.

Why Don't You...

Knit your lanky-legged daughter long stockings striped in white and vivid red? Enlist a sailor for your suit—five inches of brim and perhaps a stiff-looking posy? Let your buttonhole bloom

flamboyantly with a burning bush of crocuses?

Satisfy your "secret yearning for fluffy ruffles in tier upon tier of black marquisette?"

Rush into print with a jacket suit gone poly-colored in gilet and revers?

In one of the new collections for summer, Creed, Paris designer, shows a geranium red coat with black buttons, worn over black wool dress.

Easter Handbags!

Here they are... all excitingly new!

Smart Coats Go Straight and Narrow

Youthful Trim Lines Universal In Appeal

With moulded shoulders and waistlines in her "dressy" coat, the smart woman chooses a slim, straight swagger for practical "everyday" wear. Pastel foxes blend with the coat color, or striking furs in silver fox or red fox give smart contrast. Unfurled coats are interestingly trimmed in quilting or braidings, and have amusing pockets placed at many new angles. Coat lengths vary from the very short hip-length, jigger coat, to the full length, with popular choice given to the seven-eighths-length coat which is long enough to be "ensemble" with dress or suit.

ENSEMBLE COATS BASIC IN WARDROBE

Not in many years has the ensemble theme in fashion been so dominant. Every smart woman looks carefully at her colors, and to the styles of the separate coats she buys, because everyone of them must form the basis of at least one ensemble costume. Gay little swaggers with a swirl all their own, are worn over print or plain frocks in blending colors. Slim little toppers, often with bright scarfs instead of collars, are worn over blending frocks or with matching skirts as suits. Full-length coats in both casual and dressy styling are paired with smart afternoon frocks.

Muted colors in the new woollens for spring coats make the "ensemble coat" a Godsend to most women. For they may build around it many costumes. Gay plaids and even checks, brightly nubbled tweeds, and soft mesh or crepey woollens give variety to the many styles and types of these coats seen in the stores.

REEFER POPULAR "YOUNG" COATS

True to the more casual spirit of the spring mode, youthful reefer coats are a popular choice. Single or double breasted, with many or few buttons and many or few pockets decking out their trimly fitted fronts, these coats promise to be a "must" in every young wardrobe. Slim-skirted or with slightly flared suggestion of the ballerina, they are flattering and slenderizing.

COLLARLESS COAT NEW FAVORITE

Individual and smart are the new collarless coats. Molded and fitted, or hanging, slim and straight, they are simple and yet dressy and make excellent all-around coats for spring-into-summer wear. Perfect to display the popular silver foxes or colorful red fox scarfs, they are equally smart when worn without furs and brightened with a gay printed scarf or a flower on the lapel.

Trimming on the new collarless coats indicate the strong new trend for more ladylike fashions. Old-fashioned quiltings, smart new-braiding, satin or taffeta lapels or folds down the front, and such striking effects as flowered or colorful linings contribute to the smartness of these coats.

Fashion Shows Display Spring Costume Variety

Catering to Milady's every whim and every need, spring fashion shows in local stores emphasize many costume types essential to the all-round wardrobe.

Sparkling Tweeds In Gay Color Mode

Bright Nubs, Plaids, Companion Tweeds Shown

Gay and young as spring itself, the new wools in suits and coats are boldly sprinkled with bright nubs, boldly plaided, determinedly checked, or very very softly colored. But even the boldest patterns in the new woollens are softly flattering in the new colors. Matching or contrasting, but always blending, they may be worn together in many suit combinations.

Lightweight and feathery soft, the new woollens are perfect for the softer fitted suits and the new loose straight coats. Many new "twists" appear in corded weaves, many soft open weave mesh woollens, and high fashioned smooth woollens, too.

NEWS IN NEW NUBS

Many new variations of the popular nubby woollens for suits and coats are seen this spring. Pebbled crepes are liked in dressy coats and soft "little" suits. Boucle weaves are used in many practical costumes. New line weaves worsteds have a smart, dressy, yet casual, look that goes well with the new dressy casual coats and suits. Diagonal and fancy nub woollens are also in the picture, especially for coats.

COOL-WARM MESH WOOL

For many climates, the new mesh and open weave woollens are perfect in suits, coats, and even dresses. Lacy and light, lovely and soft, they come in a gamut of grand colors and are used in blending shades for ensembles.

Many heavy yet open weave woollens this year will be found in sports coats and casuals.

Furs Enhance New Collarless Coats

Perfect "Background" Coats Worn for Town

The fashion slogan might be "Dress up in spring furs" for this collarless season when both coats and suits appear with nearly shorn necklines. And everywhere smart women are dressing up in two and three-skin foxes, displayed in their full elegance and beauty against the simple lines of this season's costume.

While silver foxes continue to be outstanding, many smart women are wearing red foxes, especially with the new greens which are high fashion. Cross foxes are worn with black or brown costumes. And the soft blue foxes may be worn with this season's popular navy or grey costumes.

STOLES OF RICH FURS NEW

The stole fur piece for milady's neck has been revived in smart circles, and is seen in stone martens or even sables linked together to make a long flat neckpiece which drapes beautifully about the neck. Grey squirrel and other flat furs are also used in this new way.

Wouldn't You Like

To go gay in a multi-colored turban of Indian silk atop a black wool frock?

To join the navy blues — demurely collared and cuffed and bereted in glazed white chintz?

To greet the spring in a coat of purple tweed (striped, of course) over a purple dress?

A little girl dress with a dusky-blue silk blouse and a box-pleated black wool skirt?

One of those terribly smart multi-colored shirts to wear under your new checked jacket?

Most English tweeds are made in Scotland. One called St. Mary's is, however, woven in England.

Many spring and summer coats have no lapels or collars, and many have extra lapels.

SPRING 1938

When all the world's putting on its best clothes, when blossoms are bursting from every tree, it's high time for you to blossom out for spring, 1938! If you want to achieve that spring look, look to us for spring clothes flavored with feminine sophistication, versatility and color.

We specialize in Millinery, Dresses, Knitwear and Accessories.

Crown Millinery Parlors

Miss M. E. Livingston

621 VIEW ST.

ways. On basic suit with topcoat or cape is used, around which many changes are created with extra jackets and skirts.

Swagger or very casual suits appear to be favorites with Juniors, since the topcoats or capes may be worn with many other skirts or frocks. Dressy appearance is achieved by the selection of soft lovely colors, which are almost formal in their flattering tones.

ROSY FUTURE IN YOUNG FASHIONS

Many new tones of rosy hue are popular with younger fashionables, included are the new crushed strawberry, gum drop pinks, rose reds and other soft tones of this genre. Blending and contrasting these colors is done with great care, and they are used with black or navy, gray or even beige, for additional variety.

Other colors favored by the younger set include a range of sunny yellows deepening into tawny browns and tans. Copper hues and lively beige tones are liked in sports clothes. But pastel tweed suits in many hues are also favored.

FROCKS HAVE SWIRL SKIRTS

The "ballerina" frock with its wide rippling skirt, or the "Popular girl" dress with lively pleated skirts are fashion leaders for spring. Slim waists and softly-shirred high bosoms contrast with the wide flowing skirts and give an animated silhouette. Also liked by many of the younger set are the slim moulded dresses with gay little sashes and flowers to accent their colors.

OFF-FACE HATS IN FAVOR

Definitely the choice of the younger crowd, the off-face hats again come into their own. Rolling berets that sweep back off the forehead in round padded lines are new. Roll brim betrons with fly-away ribbons or scarfs are again popular. Off-face caps, toques and classic felt hats high and to one side also accentuate this line. Poke bonnets often coyly veiled or tied with ribbons under the chin, are another popular choice.

Bright colors or softened pastels will be worn in young hats, and many will have ribbon trims instead of the more dressy flower trims worn by grownups. The mode of matching the hat to the

scarf or accessories continues. Sometimes the printed scarf hat, or the draped turban in pastel color is worn with the long scarf tying about the head and throat.

Do you remember when jet jewelry was all the rage? The popularity of black for women's clothes has brought back the demand for jet. Jet carving originated and was carried on for years at Whitby, England, but for many years has been abandoned. Replicas of the Whitby pieces are now being made in

catalin, copied from original museum pieces of the Whitby jet. They will be ready for spring costumes. The pieces are massive looking, in dull and shiny surfaces, with elaborate carved flower designs.

Costume Accessories Gleam With Color

New Blues Soft Pastels Highlight Spring Suits

With all the fashionable world "suited" for spring, fashion turns her attention to the important accessories that "make or break" the costume. And while color accents are definitely the rule, simplicity and good taste dictate their choice. Blending hues of the same color, in either darker or lighter tones, will be a smart fashion for spring. Pastel accessories, in soft flattering hues, will be the correct highlight for other suits. Darker colors will accent light suits and coats.

FEMININE PASTEL ACCENTS

Trim gloves with dressmaker stitching and dainty embroidery trims, lace or neat girlish blouses and gilets, unique yet dressy handbags in new shapes, and many a gay boutonniere—these make up the spring accessory list.

COLOR WITH WHITE ACCENTS

Where white accessories are worn, color is often added for a note of trimming. This is especially true on new gloves, blouses and hats. Color on soft beige gloves, or used with other pale tones such as grey or mist blue, is noted occasionally, also. And for added color, a bright flower or pin is worn on blouse collars.

Striking white accessories will be seen with black or navy costumes, especially as warmer weather approaches. But for Easter, the pale pastels are considered more formal and more flattering.

ACCESSORIES BLEND COLORS

Where possible, dark and light accessories are combined with spring costumes. A lovely harmony of colors is thus achieved, by matching shoes, bag and costume, with harmonizing gloves, neckwear and hat.

Scarves and small gilets or vests are liked in colors harmonizing with the suit. Printed scarves to match print trims on new hats, or ensembled with handbags, is another new combination. New "scarf blouses" are well liked, too.

GLOVES BECOME FEMININE

Delicately hand-stitched, trimly fitted about the wrist and fingers, the new gloves have a feminine look that is smart with the most severely tailored costume. New cuff treatments, and a new wider gauntlet cuff are among spring innovations.

Many fabric gloves will be worn, especially in the soft suede-like fabric liked for their comfort and practicability. Stitched in contrasting colors, they are made with new back treatments that form decorative scrolls, panels, or geometric designs on the back and the cuff.

HANDBAGS GROW BIGGER

Getting bigger and better than ever, the new spring handbags are often carried with a shoulder strap; and being enormously roomy, they are excellent for women in business, for travel, club work, or other activities. In patent, calfskin, or gabardine combinations, they come in colors to match shoes or suit costumes.

Dressy bags are replacing the more conservative types in many cases. Softly mounted leathers and gabardine bags come with wide bottom which is easy to stand on desks or counters. Others are made flat and slim, for underarm carrying with comfort. New shapes, in circular, or many-sided lines, are novelties this spring.

FLOWER JEWELRY FOR LAPELS

Clips and pins for suit lapels and shirt collars are lovely this year, in floral designs of metal often set with semi-precious stones. Brilliant clips are considered very good with simple costumes, too, adding a touch of elegance.

Much jewelry will be worn through the early spring, with emphasis upon bracelets and clips or brooches. Wide necklaces decorate the new lower necklines, in a mass of beads or chains. Old-fashioned jewelry is worn with costumes when appropriate.

DRESS-UP FASHIONS STAR FOR PARTY WEAR

Afternoon, Evening Modes Follow Dress-up Trend

Considering the needs of the spring bride, the college girl home for spring vacation, the young business girl or the busy club woman of every Canadian city, fashion has created a second spring mode of dressy fashions. Afternoon frocks become important from luncheon time on; evening frocks with sleeves for informal dinners or dances, and more formal types for receptions and evening affairs, are favored. Chiffons, sheer fabrics of novel types, gay prints and lovely sheer woollens are all in the dress-up picture. No matter what the fabric, the more formal look of this season's pastel colors gives the costume a dressier look.

WIDE SKIRTS FOR DRESS-UP

The new ruffling or pleated skirts are excellent for dressy wear, as they have that youthful femininity which belongs to these occasions. Pleated frocks are found in all types, many with fan-pleated tops and sleeves also. Taffeta in dark colors or prints, lovely new sheer fabrics, and even chiffon prints are worn.

Evening fashions definitely favor the wide-skirted frocks with their more romantic effect. Again pleats or wide circular skirts are the choice. A few have full skirts shirred to low-moulded hiplines in semi-Grecian styles. Slim tapering frocks are preferred by many smart women, however, and are especially effective in the new printed silks.

WOOLLS GAIN FAVOR FOR DRESS-UP

As lace and fine as lace itself, many of the new woolls are delightful in afternoon or simple evening gowns. Wool lace in dark rich colors, or pastels, is a popular choice for afternoon affairs. Dressy costume suits or ensembles are worn in all smart circles for general daytime. Dressy wool coats with silk col-

lars are a new mode for afternoon. Wool in the evening mode is extended to lovely evening wraps. Simple and practical, these are worn in either short or fitted long lines.

Soft Construction And Casual Lines In Spring Styles

The man who wears the latest in new drapes suits and topcoats need look to no one for style and smartness this spring. For nothing since the days of Beau Brummel have more flattering lines and stylish effects than the importations of British "casualness."

In about these styles. They are truly masculine, designed and okayed by custom tailors from here to New York, London, Hollywood and back again. There is a ruggedness about them that is refreshing as well as flattering.

DRAPES DEFINITELY ARRIVED

Casual style... casual color... casual drape... that's what you'll hear this season and during the summer. The drape styles emphasize every man's best features and thoughtfully minimize those which are classified as "bad."

Never has there been a style so widely acclaimed on all sides as the drape. It isn't new this season because of its widespread adoption in all parts of the country. It is lasting because it's liked, because it's more wearable and because it's a smart style that at least lets the modern man dress for the fast-moving action of this day and age.

Topcoat and suit styles of the present season are identified with the well-dressed man. They combine new comfort and complete freedom of motion with soft fabric construction and spring colors. The new fabrics are softer in texture, lighter in weight but are built for hard wear.

The lines of men's clothes will be cut more on the lounge type,

How to Be Beautiful Is Problem of Women Internationally Known Beauty Authority Offers Many Suggestions

To prevent any backsliding, a noted beauty authority whose name is a beauty byword offers you some suggestions to help you to keep your rendezvous with beauty every day in the year, so that at the end of 1938 you will find yourself looking a year younger instead of a year older.

First, she advises, prepare a little list. That shouldn't be so difficult for you. Evaluate your assets and good points—resolve to guard and preserve these, to protect them against tell-tale signs of age. Then examine your faults very candidly; decide which ones are most glaring, which demand immediate concentration. And don't tell anyone about your resolves, but wait until the reforms become obvious to all of your friends through actual accomplishment.

Here are some strategic points of attack which this beautician urges you to emphasize in your program for a beautiful year.

Your complexion—What to do to give it smoothness, softness, glamour. If you have been neglecting your skin, or caring for it only in sporadic spurts and starts, resolve now to put it on a steady, balanced beauty diet. Every skin needs cleansing, lubrication; every skin, regardless of its type, needs a make-up foundation. Start your daily beauty ritual by cleansing with a pasteurized face cream that goes deep into the pores to remove all dust, grime and stale make-up. If your skin is dry, use pasteurized face cream special, which contains rare herbal juices that guard the delicate fabric of the skin. When your face is spic and span, massage youthifying tissue cream, rich and exceptionally penetrating, well into face and throat. Finally, as a prelude to make-up, use a base of Town and Country make-up film, which keeps make-up dewy fresh and lasting as the day is long. Besides, it conceals blemishes with admirable tact and protects precious complexions against the elements.

If blackheads and large pores are your bete noir, resolve to wash twice daily with beauty grains, pure little granules that refine pores and banish blackheads with amazing speed. And no matter what your type or your particular beauty problem, be sure to invest in a beauty masque for a quick "pick-up" treatment before your "big date," as well as for regular corrective treatment. There's nothing quite so effective as a masque to lift your beauty to new heights in record time!

Your figure—What to do to improve that slouchy posture, with coats longer and looser. The balanced wardrobe will contain new pastel shades of stripes, checks, plaids and other patterns on dusty backgrounds. The new colors are youthful, but are being worn by men who were formerly most conservative... and they look well! These suits and topcoats have an appeal to all ages.

Stripes in many colors prove a real tonic from a drab winter, while checks and plaids herald spring with every popular design and color. Flannel is introduced in patterns, colors and drape models, and will be consistently popular. Gabardine combines beauty with duty and will be worn experiencing a revival and are into the summer. Homespuns are featured for country and sports wear.

TOPCOATS IN LIGHT-WEIGHT FABRICS Lighter than fine wool... and warmer, too... are the consistently popular rayon camel's hair topcoats. Cheviots are ideal for spring because of their light weight, tailored appearance and resistance to wet weather. Tweeds are as popular as cheviots. Coverts are the big hit of the season, for men like the smooth, soft and supple fabric and its easy drape. Raincoats are styled smartly and feature removable linings and reverse styles.

streamline those pounds away? To begin with, resolve to devote 10 minutes regularly each day to exercises. Eat as much raw fruit and vegetables as possible. And indulge yourself in some "body beautiful" treatments. Treat yourself to the luxury of a foamy pasteurized milk bath that gives you the sensation of sinking into clouds. After your bath pat away those superfluous pounds with Body Firm lotion that braces and tightens flabby relaxed skin and gives you a marvelous feeling of liveness and suppleness. Then "satinize" your skin with body smooth, massaging it all over your body in long sweeping strokes that follow the muscle structure. The massage helps to stimulate circulation. And the lotion lubricates, softens, revives the skin, at the same time protecting it from chafing and chapping.

Your hair—What to do to make it truly your "crowning glory." Of course the first prerequisite is that you keep it always scrupulously clean and brightly shining. Develop the hair-brushing habit. Never use a bar of soap directly on the hair when you shampoo. Pour herbal shampoo or lather on the scalp and scrub thoroughly with the fingertips. If your hair is dull or lifeless, use a lemon or camomile rinse. And get yourself one of those new, unsweeping, picturesque coiffures to date you definitely 1938.

Your hands—Lustrous hair, a radiant complexion, a streamlined figure and every woman seems the epitome of charm. Yet if a rough, chopped, reddened hand is extended in greeting, the spell is forthwith broken. Resolve, therefore, that 1938 will see you the possessor of hands that are lily-white, young and smooth and soft as a flower petal. Use a herbal hand balm several times a day and apply it at night before you retire. Wear loose cotton gloves over the hand balm at night for the best and quickest results. If your nails are brittle and short, work into the nails nightly a herbal nail tonic, unequalled as a reconditioner of nails. This will encourage long nails when you may never have been able to grow them before.

Your make-up—Resolve to be glamorous. Don't wear a stereotypical make-up that "muffs" all of your good points. Remember that make-up can make or break your beauty. Here is an ideal make-up for daytime that is guaranteed to give your spirits and your looks a grand lift. Start with a base of Town and Country make-up film in peachbloom or mauresque shade to impart smoothness and transparency to your skin. Over this use the peachbloom or mauresque shade of powder. Then paint your lips in glowing red coral, your cheeks in red raspberry, and dramatize your eyes. If they are blue, use luminous blue eyeshadow and blue mascara; if they are brown, highlight them with blue-green eyeshadow and blue-green mascara.

For nights when you are on dress parade, wear a scintillating face. Use a double foundation: first the creamy Town and Country make-up film, and over it a liquid snow lotion, to achieve an incredibly smooth and dazzling finish. Glorify your lips and cheeks with dramatic, rich red velvet, your eyes with black mascara and jade or emerald luminous eyeshadow, and then, to make your eyelids gleam, add over the eyeshadow a film of herbal eye tissue oil. And to lend a delicate translucency to your skin tone, try a new zircon shade of evening powder with cool glistening undertones. Thus enhanced, you will be prepared to outshine even the sequins on your gown.

lipstick. Luminous blue eyeshadow. Blue-green mascara.

**VIEWS DIFFER
ON INTERVIEW**

School Board Head Says
Council Knew Teachers'
Salaries Must Be Cut

The question of providing city school teachers with a 5 per cent salary increase from January 1 to March 1 is a closed issue with the City School Board despite the fact that the City Council has expressed sympathy with the restoration of these salaries. Trustee Percy E. George, chairman of the board, said this morning.

Commenting personally upon the council's action in passing a resolution that it was in sympathy with the restoration of salaries from January 1 instead of March 1, and that the council representatives had understood teachers' salaries would not be touched in the move for economy, Trustee George said the school board had no funds now available to make such restorations.

The council and school board both met on Monday night and the trustees were informed of the council's action while they were still in session.

"Members of the board were very surprised at the council's action and amazed to learn that the council claimed it had no knowledge that the reductions would come out of salaries," Trustee George said.

When the interview with Mayor McGavin, Alderman W. L. Morgan, chairman of the finance committee, and other aldermen was held, Trustee George said he and other trustees had made it quite clear that further economies requested by the aldermen would have to come in part from teachers' salaries.

"I cannot understand the statement that the council did not understand that these reductions were to be made in salaries because when Alderman Morgan asked for suggestions from the board as to where further cuts could be instituted I told him that teachers' salaries would have to be affected," he said.

The board's position now, Trustee George continued, is that it has not got the money to restore the \$3,130 taken from the teachers' salaries. If the council had made a grant of \$3,130 rather than merely expressing sympathy with such restorations, it would have had funds available, he said.

**Mrs. M. Corsan
Dies in South**

Advices received here by Frank Higgins, K.C., state his sister, Mrs. Maude Corsan, only surviving daughter of the late D. W. Higgins, pioneer of Victoria, died suddenly in Los Angeles on Saturday. She was 68.

Born in Victoria, Mrs. Corsan left several years ago to reside in California. She is survived by two daughters in California, in addition to her brother here, and one brother, Dr. Paul Higgins, in Oakland. She left many friends in Victoria.

**Telford Heard
At Saanichton**

Dr. J. Lyle Telford, C.C.F., member of the Legislature for Vancouver East, spoke to a meeting at Saanichton last night, criticizing the government's brief to the Rowell Commission which he claimed should have been placed first before the members of the Legislature.

Dr. Telford also discussed marketing problems, asserting that producer-control was not the solution and resulted in higher prices to consumers.

PERTH, Australia—They say the day of "one woman" mines is over, but one woman, 50, has operated a Pilbara goldfield mine since 1912, with her nearest neighbor six miles away.

TOWN TOPICS

A fine of \$2.50 was imposed on one motorist by Magistrate Henry Hall in City Police Court this morning for over-parking.

Theft of a number of logs from the Inner Harbor was reported to city police last night on behalf of the Lake Logging Company, Vancouver.

Mrs. O. A. Homer, Stobart Building, suffered a bite on the ankle when she was attacked by a dog on Chamberlain Street at noon yesterday, according to a police report.

Mickey Ross, Vancouver, was sentenced to 10 days at hard labor by Magistrate Henry Hall when he pleaded guilty to a charge of vagrancy in City Police Court this morning.

A permit for a four-room stucco dwelling, to cost \$2,500, was issued at the City Hall this morning to Arthur and Edith Trafford, 1324 George Street. The house will be built at 1224 Dallas Road.

Dr. J. W. Sippel will deliver a lecture, open to the public, entitled "My Pilgrimage to the Holy Land," in Emmanuel Baptist Church on Friday evening at 8. An offering in aid of missions will be taken. Miss Catherine Dennison will sing.

Theft of a cycle from the Y.M.C.A. was reported to police last night by George Gauthier, 809 Burdett Avenue. David Cooper, 261 Burnside Road, told police yesterday afternoon a lamp was stolen from his bicycle at Victoria High School Monday night.

Hon. John Hart, Minister of Finance, will serve as acting Minister of Lands when Hon. A. Wells Gray is absent from the province in the future, the cabinet ruled by order today. Mr. Gray plans to go east shortly to attend a forestry conference in Ottawa.

A program of vocal and instrumental music will be given tomorrow night at 8 in the Salvation Army Citadel, Broad Street, by the songster brigade and the Citadel band, under the direction of the brigade leader, T. Wood. The proceeds will be used for local work. Adjutant H. Martin, the Victoria social superintendent, will preside.

John Rennie, a member of the P.C.C.L., received slight head injuries last night when the generator of the cycle he was riding became jammed in the front wheel, throwing him to the pavement on Johnson Street, near Government Street. The injured man was taken in a private car to the military hospital at Work Point Barracks.

Miss Elaine Walker, 1611 Stanley Avenue, suffered an injured right wrist at 7.15 last night when the light car she was driving turned over in a collision with a truck driven by Thomas Harris, 2473 Beresford Avenue, at the intersection of Fort and Moss Streets. The damage to both machines was slight, police reported. Miss Walker was taken first to her home and later to St. Joseph's Hospital.

Last night in the Y.M.C.A., Mrs. O. Brake addressed the Victoria and District British-Israel Association on "Jotham's Parable," Judges 8-15. Mrs. Brake said the olive symbolized religious privileges, the vine the spiritual, and the fig national, all of which modern Israel possesses, but contended that Israel must free herself from the intruding blemish, the modern Babylonian system before she could again "reign with God."

**SNOW WHITE TO
VISIT VICTORIA**

Princess and Seven Dwarfs
Due Here on Boat at
3.10 Tomorrow

Snow White and the Seven Dwarfs, made world famous by Walt Disney's screen version of Grimm's fairy tale, will make a personal visit to Victoria tomorrow.

In the costumes which they sport in the film they will arrive at the Belleville Street dock from Vancouver at 3.10 in the afternoon.

Children and adults who have enjoyed the antics of the princess and her friends on the screen will be able to see them in the flesh as they step from the boat and later as they travel through the city.

They will be met at the boat and taken on a tour of the city. Then they will visit Mayor Andrew McGavin at the City Hall. After that they will go to the Hudson's Bay Company store, making a tour of all the floors, starting at 4.

At 4.45 they will be at the Capitol Theatre where the famous feature-length Disney cartoon is now playing to capacity audiences.

**Vandals Busy
At High School**

Windows Broken and Motorcycle Damaged During Basketball

Vandals had a field day at Victoria High School last night while the Dominos-Westerns basketball game was being played.

Damage reported by police last night and this morning was as follows:

Two windows on the top floor of the building were broken, apparently by rocks thrown during the time of the game. The Westerns' dressing-room was broken into, but police said this morning nothing had been reported missing.

The police motorcycle ridden by Constable George Claydars, who was on duty at the high school during the game, was given a thorough going over by some person wielding a knife and the wiring in the lighting and ignition systems was cut in a number of places.

**Two Polls Added
For Dewdney Vote**

Voters at the Dewdney election in May will cast their ballots at 37 polling divisions, the provincial secretary's department announced today.

By government order two new divisions were established, one at Harrison Lake and the other at McConnell Creek where there are groups of voters to be served.

The April meeting of the Victoria Welsh Society will be held on Friday evening at 8 in Institute Hall, 635 Fort Street. Among the artists expected will be Jack Smith, Reuben Hardy, Maurice Thomas, Mrs. Raymond Johns, Miss Marjorie Kinsey, Miss Gweneth Evans and others. It is hoped that William Thomas of Atwater, Sask., who is visiting coast cities, will be present to give a talk to the members before his return to the prairie province. Mr. Thomas is a learned Welshman with a fund of knowledge of interest to Welsh people.

**DAIRY BOARD
IS EXTENDED**

Hon. K. C. MacDonald, Minister of Agriculture, said today the government has granted the Lower Mainland Dairy Marketing Board another extension of its term, pending settlement of the validity of the B.C. Marketing Act by the Privy Council at the Easter sitting.

In view of the confusion over the marketing law it has been thought best to carry on the present board until the Privy Council ruling is made. Other marketing boards whose terms expire shortly may also be extended.

The resignation of Laura A. Jamieson as judge of the juvenile court at Burnaby, effective tomorrow, was announced at the Legislative Buildings today.

OBITUARIES**HUGH HERBERTSON**

Funeral services for Hugh Herbertson will be held tomorrow afternoon at 3.30 in Sands Mortuary Chapel. Rev. Dr. W. G. Wilson and Rev. J. E. Bell will officiate and the remains will be laid at rest in the soldiers' section at Royal Oak Burial Park.

JOHN CHAPMAN

Funeral services for John Chapman were held yesterday afternoon in Belmont Avenue United Church. A large number of sorrowing friends gathered to pay their last tribute. A wealth of beautiful floral offerings covered the casket. During the services conducted by Rev. James Hood and Rev. B. H. Wallace, a vocal solo, "Some Day We'll Understand," was rendered by Mrs. S. M. Morton. The choir sang "Jesus, I Am Resting," and the congregation sang the hymns, "Abide With Me" and "The Sands of Time Are Sinking." A delegation from Court Vancouver No. 5735, A.O.F., attended. The following acted as pallbearers: W. F. Emery, R. P. Knott, G. H. Henderson, R. H. West, S. McGowan and C. F. Warton. Interment was in Royal Oak Burial Park. Sands Mortuary was in charge of the funeral arrangements.

GEORGE JACKSON

The funeral of George Jackson will take place on Friday afternoon, the cortege leaving Sands Mortuary Chapel at 2.30. Rev. Samuel Lundie will conduct services at 3.15 in Saseenos Cemetery, Sooke.

ELIZABETH M. E. LE GRESLEY

The funeral of Mrs. Elizabeth Mary Earle Le Gresley will be held tomorrow afternoon, the cortege leaving the residence, 2184 Guernsey Street, at 2, and proceeding to St. Mary's Church, where services will be conducted by Archdeacon A. E. de L. Nunn at 2.30. Interment will be in the family plot in Ross Bay Cemetery. Hayward's B.C. Funeral Co. is in charge of funeral arrangements.

ALBERT E. SHANKS

Funeral services for Albert E. Shanks will be held at Sands Mortuary Chapel tomorrow afternoon at 2. The remains will be laid at rest in Royal Oak Burial Park. Rev. G. R. V. Bolster will officiate.

HENRY ANDERSON

The remains of Henry Anderson of Duncan, former resident of Bamberton, who passed away on Tuesday in Vancouver, arrived this morning and are resting at Hayward's B.C. Funeral Chapel. The funeral will be held from the chapel on Friday afternoon at 2.15, proceeding to Christ Church Cathedral, where Bishop Sexton will conduct the services at 2.30. Interment will be in the family plot in Ross Bay Cemetery.

ROBERT CARR BAKER

The funeral of Robert Carr Baker of Milne's Landing, will be held on Saturday afternoon at 2.30 at Holy Trinity Church, Sooke, Rev. H. M. Bolton officiating. Interment will be in the family plot in Saseenos Cemetery. It is requested that no flowers be sent. Arrangements are in the hands of Hayward's B.C. Funeral Company.

**HIGHER GRANT
FOR CHINESE**

A \$50 monthly grant to the Chinese Benevolent Association for the administration of the Chinese Hospital here will be recommended to the City Council next week by the health committee.

The recommendation followed a recent meeting with representatives of the association at which they said it would be necessary to close the hospital if further assistance was not given beyond the \$20 a month the city now pays.

Under the committee's recommendation the \$50 a month will care for up to four patients, and additional patients will cost \$10 a month extra each. Members of the committee said this arrangement would cost the city considerably less than if they had to provide for the care of indigent Chinese who receive treatment in the Chinese hospital.

**DAIRY BOARD
IS EXTENDED**

Hon. K. C. MacDonald, Minister of Agriculture, said today the government has granted the Lower Mainland Dairy Marketing Board another extension of its term, pending settlement of the validity of the B.C. Marketing Act by the Privy Council at the Easter sitting.

In view of the confusion over the marketing law it has been thought best to carry on the present board until the Privy Council ruling is made. Other marketing boards whose terms expire shortly may also be extended.

The resignation of Laura A. Jamieson as judge of the juvenile court at Burnaby, effective tomorrow, was announced at the Legislative Buildings today.

**Presumption Of
Theft Debated**

Case Against G. Kitchener
Remanded to Permit Study
of Authority

The case of George Kitchener, charged with breaking and entering the then Boys' Central Manual Training School in February, 1936, was adjourned in City Police Court this morning to permit C. L. Harrison, city prosecutor, to find authority for presumption of theft in the circumstances.

After the case for the prosecution had been concluded P. J. Sinnott, defence counsel, argued there was no vestige of evidence linking Kitchener with the breaking and entering of the school building, now part of the Central Junior High School.

He also claimed the prosecution had not conclusively proved the identity of a number of tools allegedly in the possession of Kitchener and claimed to have been stolen from the manual training room at the time of the burglary.

Mr. Harrison in rebuttal contended the identification of the tools and of an apron had been sufficient, in view of their number, to take the matter beyond the category of reasonable doubt and that the finding of the tools in the possession of the accused in the same town as the scene of the burglary was sufficient evidence for presumption of theft.

WITNESS COLLAPSES

Witnesses included the stepfather, brother and half brother of the accused, who testified to seeing the tools in the basement of their home at 1456 Mitchell Street. The stepfather was taken ill on the witness stand and was carried from the courtroom in the arms of police officers.

Chief John Syme of Oak Bay testified to finding the tools in the basement of the Mitchell Street house, where the accused lived. He identified a hand saw, a tenon saw, four planes, a marking gauge, four chisels, a set square and five bits.

Arthur L. Bagshaw, instructor in the technical department of the Junior High School, said tools identical with those stolen when the manual training room was broken into in February, 1936. The manner in which the handles of some of the tools were varnished was similar to that of those missing.

A boy who was a student at the school, told how he and Mr. Bagshaw had discovered the breaking and entering of the building. Kitchener was also remanded for sentence on a charge of retaining possession of stolen goods on which he was convicted last week.

**Captain Goodlake
Honored at Dinner**

T. J. Goodlake was honored at a farewell dinner held by the Greater Victoria Building Society and the Capital City Building Society last evening in Kelway's Cafe, the occasion being his retirement from the position of secretary-treasurer of both societies which he has held since they were organized.

A. E. Mallett, president of the Greater Victoria Building Society and chairman for the evening, on behalf of the members expressed sincerest regret in losing a faithful and splendid worker. Captain Goodlake was presented an illuminated address signed by all directors and officers of both societies. A pipe set was presented the guest-of-honor by the chairman on behalf of the directors. Following the presentations, Mr. Mallett called on every member present to give a brief farewell address to Mr. Goodlake.

Those present included, Major M. Kirkpatrick Crockett, Hubert Lethaby, E. C. Rossiter, Stan Hobbs, Harold G. Hinton, C.A., Fred Dawson, W. P. Marchant, L. E. Gower, W. J. Gower, W. J. W. Wilson, Clifford Ashcroft and John V. Johnson.

Captain Goodlake will leave for England in July, where he will make his home.

**Lower Penalties
For Road Rules**

The provincial government today relaxed slightly the penalties for minor infractions of its Highway Act because it had been found that magistrates were more inclined to dismiss cases than levy a minimum \$10 fine for such things as not stopping at intersections, failing to carry lights on farm wagons, parking and crossing middle strips. The government's order simply removed the provision for a minimum, allowing smaller penalties than \$10 to be imposed.

The 44th anniversary dinner of the Pacific Club will be held in the club premises Friday evening, April 8, at 7.30.

ESTATE OF WILLIAM HENRY SPOFFORD, DECEASED

NOTICE TO CREDITORS

NOTICE IS HEREBY GIVEN that all creditors and other persons having any claims or demands against the estate of William Henry Spofford, deceased, late of the City of Victoria, in the Province of British Columbia, who died on or about the 11th day of December, 1937, at the City of Victoria, British Columbia, are required to forward particulars of their claims, with the will annexed, was granted on the 18th day of March, 1938, in the Victoria Registry of the Supreme Court of British Columbia, to Rupert Leslie Cox, Official Administrator in and for the County of Victoria, are hereby required to send by post prepaid full particulars in writing of their claims and demands, verified by Statutory Declaration, to the undersigned, on or before the 30th day of April, 1938, and that all parties who have any assets belonging to or who are indebted to the said deceased are required to forward particulars of same to me forthwith; and that the said Administrator will, after the last-mentioned date, proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims and demands of which he shall then have had notice.

AND TAKE FURTHER NOTICE that, pursuant to Section 33 of the "Trusts Act," the said Administrator will not be liable for the assets of the said deceased, or any part thereof so distributed, to any person or persons of whose claims and demands he shall not have had notice by the said 30th day of April, 1938, and that he will proceed to make final distribution of the assets at the expiration of six months after the date of Letters of Administration with the Will of the deceased annexed.

DATED at Victoria, B.C., this 30th day of March, A.D. 1938.

R. L. COX, Official Administrator,
County of Victoria, Administrator, with
the Will annexed, of the Estate of
William Henry Spofford, deceased; 518
Central Building, Victoria, B.C.

**Weather Is Back
To Normal Again**

Despite quite a severe ground frost last night, the weather was back to normal this morning with the sun shining brightly and hardly a cloud in the sky.

The official thermometer at the Meteorological Bureau showed a minimum of 34 degrees last night but the thermometer on the ground was almost 10 degrees lower.

The weatherman here does not think it will be quite so cold tonight. It may be a little unsettled tomorrow.

D. dated January 27, 1938.

W. J. MILLIGAN, 608 Bayward Bldg.

PENSIONED OFF A

FIT MAN

Rigors of Police Life Did Not Harm Him

At 50 years of age he was presumed to be beyond the arduous demands of police duties. But was he? Read what he says now—five years after he was pensioned:—

"I am a man of 55 years. It is now five years since I was pensioned off from the Police. I went through thick and thin, day and night in all weathers, while I was on the Force, and am today as fit as any man still serving on the Force. People often ask me 'How do you keep so young?' and my answer is 'Kruschen Salts.' I have used Kruschen now for the last 13 years, and I will certainly use these Salts for the rest of my days."

The numerous salts in Kruschen provide just that gentle daily aid your internal organs require to enable them to perform their work properly. These vital salts keep your liver and kidneys in top-notch efficiency, so that they help to free your system of poisonous waste matter. The result is a feeling of youthful health and vigor—"that Kruschen feeling!"

DEPRESSION TALK

Mr. Bennett wound up his speech with a declaration distress

FUNERAL NOTICE

The funeral of the late Comrade H. Robertson, late Canadian Pioneer, will take place Thursday, March 31, at 3.30 o'clock, from St. Andrew's Presbyterian Church.

Members of Britannia Branch, Canadian Legion, B.E.L., are requested to attend.

B. W. NORMAN SAUNDERS, Secretary

KNIGHTS OF PYTHIAS

Far West-Victoria Lodge No. 1 will hold a Memorial Service for our late Brother J. Hammond, at 8.15 p.m., Thursday, March 31. All Knights and Slaves are cordially invited to attend.

House Asked To

Vote \$36,717,668

Supplementary Estimates For Year Ending Tomorrow

Tabled in Commons

OTTAWA (CP)—One of the reasons why, in spite of a heavy increase in revenues, Finance Minister Dunning will find it difficult to balance the budget this year was disclosed in the Commons late Wednesday night with the tabling of further supplementary estimates for the fiscal year ending tomorrow.

In addition to the money voted last session for the current fiscal year the supplementary estimates tabled call for an additional \$36,717,668, the bulk of which was needed for drought and agricultural relief, mainly in Saskatchewan.

With the revenues for the current fiscal year \$27,000,000 ahead of expenditures up to the end of February, there remains the possibility after the accounts for the full year are known a balanced budget may be possible. This will not be known definitely until the budget is brought down after the Easter holidays.

Additional money already spent by Governor-General's warrants accounted for \$29,371,500 of the total in the estimates tabled last night. Of this amount \$22,300,000 was required for drought relief and expenses in connection with feeding and marketing cattle in the drought areas.

FUNDS FOR C.N.R.

Another large item in this group was the additional sum of \$6,890,000 to make up the Canadian National Railways deficit, while \$70,000 additional was necessary for the Royal Commission of Dominion-Provincial Relations.

Last year the government made provision for temporary grants to Saskatchewan and Manitoba to enable them to carry on the functions of government during the crop failures. Saskatchewan got \$1,500,000 and Manitoba \$750,000. Last night's supplementary estimates provide an additional \$2,000,000 for Saskatchewan.

First provision is made for the deficit of Trans-Canada Airlines to the extent of \$11,000. A further sum of \$275,000 was needed for coal subventions.

An additional \$40,000 was required to provide for the difference between the expenditures for operation and maintenance of the Hudson Bay Railway and the revenues during the year.

Three-way Vote

In the Commons

Bennett Amendment to Social Credit No-confidence Motion Causes Reshuffle

OTTAWA (CP)—Members of the House of Commons will divide three ways when a vote is called on the Social Credit want-of-confidence motion which has been hanging fire for several weeks. Indications are the vote may come before adjournment this evening.

By an amendment moved Tuesday, Mr. Hon. R. B. Bennett, Conservative leader, extorted his followers from the choice of either voting confidence in the government or supporting the Social Credit motion.

That motion, proposed by John H. Blackmore, Lethbridge, Social Credit leader, says that "for the effective removal of poverty from Canada this government has neglected and is now neglecting to use the resources of the Dominion as adequately as the people of this country have a right to demand."

Mr. Bennett said he had no objection to the terms of the motion, but did not like the way it had been linked in the debate with Social Credit theories. So he proposed to add the words "but that the adoption of Social Credit as enunciated by followers in this House will afford no immediate remedy."

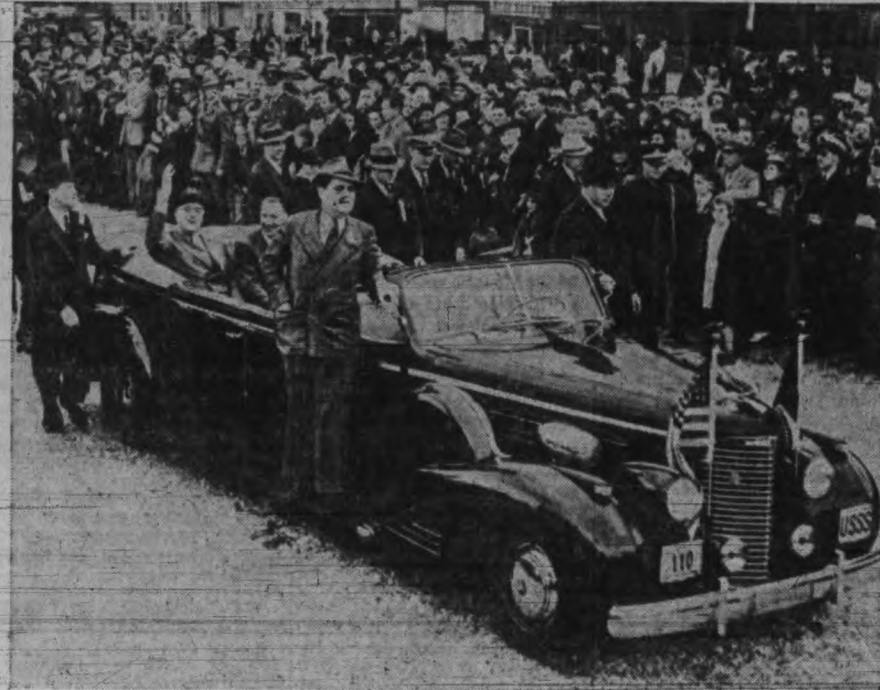

So on the Bennett amendment the Social Crediters will vote with the Liberals to defeat it, and on the main motion the Conservatives will vote with the Liberals to defeat the Social Crediters.

Another operation is being carried on from a South Main Street building, supposedly vacant. Two tunnels have been driven under the street from the basement of the structure.

Several years ago a court injunction was issued to halt gold-digging operations along the street when work endangered buildings.

Oysters are valuable food because they contain generous amounts of vitamins A, B, D, and also iodine.

President Has New Type of Safety Car

Two brand new cars, designed especially for the President's Secret Service protectors, made their first appearance when he visited Gainesville, Ga., to dedicate the town's new civic centre. President Roosevelt is seen above, leaving in one of them for his Warm Springs cottage. The new "Secret Service Specials" are extra-long touring models seating nine. They embody such "safety" features as compartments behind the front seats to hold gas and firearms, low doors and reinforced running boards with handrails on the windshields to accommodate the President's guards in standing position. Remember the big fellow on the right running board. He was there when the President visited Victoria last year.

signals of another depression were apparent. Canada's exports were shrinking the favorable trade balance was diminishing and unemployment was increasing.

The same signs were on the horizon as in 1929, when the former Liberal government declined to heed them, he said. The present government was doing nothing to avert the blow.

"Last month," said Mr. Bennett, "the figures showed our exports to the United States fell from \$36,000,000 to \$17,000,000 as compared with the preceding month. That is a significant fact."

Today also Canada's imports were increasing, he said.

ILSLEY SPEAKS

The Conservative government had used tariffs more in an effort to provide employment in Canada than to secure a favorable balance of trade, replied Hon. J. L. Ilesley, Revenue Minister.

He did not believe a favorable balance of trade in the sense of always exporting more than was imported was any guarantee of prosperity.

Mr. Ilesley also answered criticism levelled by Mr. Bennett at the administration of the Bank of Canada. That criticism concerned charges made in the form of the bank's weekly statements where, by Dominion and provincial short-term securities formerly separate, were lumped together and a similar change in reporting the bank's holdings of sterling and United States currency.

Mr. Ilesley said the former change had been made because at times only one province would be dealing with the bank and to report holdings of provincial short-term securities separately would unnecessarily disclose that province's transactions.

The change in reporting currency holdings was made to prevent speculators obtaining the bank's opinion on trends in exchange rates.

The minister denied Mr. Bennett's suggestion the change in the short-term securities item was made to conceal a loan of \$3,000,000 to a provincial government which had not been repaid.

The debate was adjourned last night by J. J. Kinley, Liberal, Queen's-Lunenburg, N.S.

GOLD RUSH IN CITY'S STREETS

HELENA, Mont. (AP)—There is a new gold "rush" in historic Last Chance Gulch, now a Helena business street.

Placer mining operations, some carried on secretly and at least one openly, are paying from 10 cents to several dollars per pan, according to operators.

Among the new operations being carried on openly in the gulch is one by John Phillips, proprietor of a South Main Street bar.

He moved a telephone booth out of his building and is sinking a shaft through a hole in the bar-room floor.

Another operation is being carried on from a South Main Street building, supposedly vacant. Two tunnels have been driven under the street from the basement of the structure.

Several years ago a court injunction was issued to halt gold-digging operations along the street when work endangered buildings.

Oysters are valuable food because they contain generous amounts of vitamins A, B, D, and also iodine.

Letters to The Editor

NO MILK COMPULSION

To the Editor:—As far as the public is concerned, there must be no compulsion about milk-drinking. It must decide whether or not it wishes to drink milk at all, and the kind of milk it will use. It must demand absolute cleanliness.

It appears that much difference of opinion is inevitable when we consider the basis upon which our milk production and consumption is erected.

The farmers and dairymen seem to have done their best to comply with the standards demanded of them—whether those standards be right or wrong. The germ theory of disease is, after all, but a theory. It is not a proven fact, so the findings derived from it must be shaky ones at best.

There is no proof that tuberculosis is contracted through milk, even when the animal is tubercular. In England of late there has been considerable activity among dairymen who object to pasteurization. W. S. Morrison, Minister of Agriculture (reported in the Times, September 28, 1937), said: "To hear some of the exaggerated statements it might be imagined that milk was a poisonous fluid, although the human race existed long before Pasteur was heard of."

Dr. A. D. MacDonald, chief medical officer of Dr. Barnardo's Homes (see letter to British Medical Journal, April 28, 1934), said that out of 750 boys receiving one pint of raw milk per day for five years, there was but one case of tuberculosis, while there were 14 cases in boys drinking pasteurized milk in the previous five years.

A mass of correspondence and evidence exists, so for brevity I would refer interested persons to a recent pamphlet by Miss L. Loat, 25 Denison House, 296 Vauxhall Bridge Road, London, S.W. 1, price three pence, "Pasteurization of Milk: The Case Against Compulsion."

DORA KITTO.

HAS GRAVEST FEARS

To the Editor:—I wish to congratulate you on your remarkably able editorials on the recent cabinet crisis in Great Britain and on world affairs generally.

In days such as these there is reason to be thankful that British Columbia has at least one daily newspaper that does not fear to say what all progressive and peace-loving people in the province, and indeed in Canada and the Empire also, are thinking.

The need for such outspokenness is great one cannot doubt when reading what passes for editorial opinion in some papers. Too much of it runs all the way from spineless fence-hitting to smoke-screens of platitudinous puff intended to obscure the real issue.

MAY DEPORT LABOR HEAD

Harry Bridges, C.I.O. Director, Says He Welcomes Coming Inquiry

SAN FRANCISCO (AP)—Harry Bridges, Australian-born west coast Committee for Industrial Organization director, today said he welcomed the deportation hearing scheduled to start here April 25, because it would give him opportunity to prove the "evidence against me was framed, bought and paid for."

Newly returned from east coast and Gulf of Mexico ports, Bridges forecast the 50,000 to 60,000 Atlantic stevedores would "entirely swing over to C.I.O. before September 30," the date of renewal contracts.

Bridges, discoursed freely on the evidence likely to be brought against him at the pending Labor Department hearing on charges he is a deportable alien.

"Part of it is supposed to be a Communist party membership card, signed in the name of Harry Dorgan," he said.

"The information is that my mother's maiden name was Dorgan. By process of deduction that connects it up with me. There are supposed to be notations in my handwriting on the back."

Of the dictograph he discovered in his hotel room in Portland last year, Bridges said he and his friends "put on a seance or two for the boys."

C.N.R. MAN DIES

MONTREAL (CP)—R. D. Matthews, general car distributor for Canadian National Railways, died from a heart attack yesterday. Mr. Matthews joined the old Grand Trunk system in 1900. Later serving with Canadian National the T. & N. O. Railway and several systems in the United States.

DUNCAN

The home of James Martin, Trunk Road, Duncan, was broken into on Monday evening, when the family was absent. Everything was ransacked. Articles missing were a razor, camera, clothing and \$35 in United States currency.

Miss L. Kingston presided at the meeting of the W.A. to the hospital on Monday. Two new members were enrolled: Mrs. McKelvie and Mrs. J. A. Drew. Mrs. McKelvie reported on furnishings purchased for the W.A. room in the hospital. Mrs. Saunders reported 75 new articles made for the hospital since the last meeting. Tea was served by Mrs. John Gibb and Mrs. K. F. Duncan.

SAILORS ON SICK LIST

U.S.S. Lexington Forced to Leave War Games; 500 Men Get Sore Throats

HONOLULU (AP)—More than 500 officers and men of the aircraft carrier Lexington were stricken yesterday with a throat disorder, described as tonsillitis, and the gigantic vessel was forced to withdraw from the intensive United States war manoeuvres in Hawaiian waters.

A statement from the Navy said more than 25 per cent of the vessel's crew of 1,800 was on the sick list.

Meanwhile 100 planes aboard the carrier remained unmanned and useless to the "Blue" fleet—the make-believe enemy force in the war game—While the Lexington rode at anchor near this nominally "hostile" shore.

Despite the ignominy of being classed temporarily as a non-combatant, the Lexington had the satisfaction of striking the first blow in the deadly serious war manoeuvres in Hawaiian waters. The "enemy" Blue force is attempting to capture the islands.

Early yesterday morning thundering war planes from the Lexington plunged from cover of protecting clouds to rake Pearl Harbor with theoretical bomb fire. It appeared the air raiders escaped unscathed, although defence planes swept swiftly into the sky to meet them.

Waterfront Notes

The Holland-America vessel Delftydk, due here from Rotterdam and London Friday evening has 400 tons of general freight for discharge here. She will load fish at Ogden Point for the outward voyage. Before calling here the Delftydk will put into Seattle.

The lighthouse tender Estevan returned to her base in the Inner Harbor last night after a trip around Vancouver Island. She was delayed several times by severe gales, which forced her to take shelter. Towards the end of the week she will leave for the Gulf to repair a number of buoys.

Ss. Princess Adelaide, fresh from her annual overhaul, will resume service of the Prince Rupert run, leaving Vancouver this evening.

The British freighter Stonegate, originally due here this morning, was ordered to Port Alberni late yesterday. She will be here at the week-end.

The Oakworth left for Vancouver last night after taking 1,000,000 feet at Ogden Point. The Alnmoor is still here loading 1,400,000 feet of lumber.

No further word has been received from the inbound American Mail liner President Jackson and she is still expected to reach William Head, inbound from the Orient, tomorrow at midnight.

Nearly 500 passengers will sail from Victoria Saturday aboard the Canadian Pacific liner Empress of Canada for Honolulu and the Orient.

Fliers Recruited In Canada For Britain

OTTAWA (CP)—The Royal Air Force for sometime past has been accepting Canadians who have made application through the Department of National Defence here for short-term commissions in the British force. It was learned Tuesday. The department examines each applicant as to his physical eligibility and its decision in that regard is accepted by the R.A.F. Previously a Canadian desiring to enter the force had to go to England and take the chance of whether he would be passed physically by doctors there.

Pilots' Lookout

Oakworth (British), left Victoria, for Vancouver, Tuesday, 10 p.m.

Stonegate (British), passed Victoria, bound Port Alberni, 2 a.m. Johilla (British), passed Victoria, outbound, 7:30 a.m.

Sheafholme (British), to leave Victoria, for Port Alberni, 5 p.m. Alnmoor (British), loading lumber at Ogden Point.

President Jackson (American), due William Head, bound Victoria, from Orient ports, mid-night Thursday.

RAILWAY MAN DEAD

EDMONTON (CP)—James A. Macgregor, one of the best known railway men in western Canada, died in hospital here yesterday after two weeks' illness. He formerly was general manager of the Edmonton, Dunvegan and British Columbia and shortly before his retirement in 1932 was superintendent for the Canadian Pacific Railway at Moose Jaw and Saskatoon.

We mustn't say Bankrupt. We mustn't say Bust. Though bust to the Wide World, Keep silent you must.

They've made a new law, The Gang at James Bay. Don't like the word Bankrupt. (So they raised their own pay.)

No we mustn't say Bankrupt, It don't sound nice. To blazes with the public And charge them full price.

They're protecting the public Against deception and graft. It sounds so darn funny It would make a cat laugh.

But here is the catch, And here's what they say, We can say what we like If a license we pay!

Liberal or Tory, C.C.F., or don't know what, They voted for this crazy Act, The whole darn lot.

Filbert Phipps
